

ROSWELL DAILY RECORD.

VOLUME 8.

ROSWELL, NEW MEXICO, FRIDAY EVENING, MAY 27, 1910

NUMBER 72

CLOVIS OUT-HITS LOCALS

Before another monster crowd at Amusement Park yesterday afternoon the Clovis base ball team turned the tables on the locals and defeated Cy Leland's boys four to three by out-batting them. The only wonder is that the score was not worse than it was, considering the record of hits, bases on balls and errors. The 3rd game of the series is being played this afternoon, and, since it now stands game and game, interest has reached the top notch.

Although Clovis was the winner, the visitors played in the worst luck. Again and again they had men on the base but could not score them. Brueggeman pitching for Roswell, had the knack of pulling out of these bad holes, it seemed. Four times, after he had been touched up for one or more hits, he settled and retired the side before a score was made. Clovis made a total of twelve hits and had five bases given on balls, which would have made them at least eight scores; but the rallies of Brueggeman and the whole team was what held the score close as it was. On the other hand, Roswell batted very poor. Only five hits were made by Roswell off of M. Wallace two of them in the last inning, and Wallace gave them but two bases. Wallace pitched a phenomenal game, adding to the small number of hits and bases the sur of fourteen strike-outs. In five different innings only three Roswell men faced the pitcher and in one inning only four faced him.

In the field Clovis played like clock-work. Their only error was a muff at second of a high fly from Wright's bat, scoring Roswell's first run, which came in the fifth. Roswell had four errors and three of them were at bases on thrown balls. The fourth was a fumble of a ground ball in the outfield which allowed two bases on a short single.

It was a good close game and the battle was fought to the last ditch. Each side made two score in the ninth inning by pounding the ball. The game was well played on both sides and highly pleasing to the crowd. There is no disgrace in losing such a contest.

ECHOLS IS TO REBUILD GARAGE OF CONCRETE.

Mr. and Mrs. Charles Echols and Mr. and Mrs. Milford Attebery came up from Artesia by auto Wednesday to spend two days here on business and to attend the base ball games. Mr. Echols was the owner of the garage that was burned at Artesia a few

weeks ago. He suffered a loss, personally, of \$12,000 with only \$1,000 insurance, but is not letting that keep back the progress of Artesia when it comes to having an automobile repair shop. He has all plans for a new reinforced concrete garage with brick front. The work of clearing away the wreckage from the fire was started before the ruins quit smoking and the material for the new building is now on the ground. The new house will be built at once. It will be fifty by one hundred feet, floor measurement, and one story in height.

NO HOPE FOR THE MEN LOST IN THE SUBMARINE

Calais, France, May 27.—Hope that any of the twenty-seven men imprisoned in the French submarine Pluviose, sunk off here yesterday will survive was all but abandoned this afternoon.

Reports by divers indicate that the hull was crushed by the collision. A flotilla of torpedo boats and dredges with a force of men, worked throughout the night in an effort to raise the vessel but little was accomplished.

Later—Later in the afternoon the Pluviose was lifted from her mud bed by a swift undercurrent and swept from the view of the divers, who were not able to again locate her.

Washington, May 27.—President Taft today sent to Chairman Tawney of the House Committee on Appropriations a letter expressing deep resentment at the criticism passed in the House debate yesterday by the Democrats on the traveling expenses of the President.

The President says he is especially distressed by the "savage and reckless" attacks on Southern hospitality.

BALLINGER NOT THE MAN

Washington, May 27.—In summing up the case of the prosecution before the Ballinger-Pinchot committee today, Attorney Brandeis, counsel for R. L. Glavis, declared it had been conclusively established that Secretary Ballinger was not the man "so zealously devoted to the interests of the common people, so vigilant and resolute in resisting the insidious aggressions of the special interests, that he may be safely depended upon to carry forward a broad policy of the conservation of our national resources."

"That he is subject to far severer criticism we firmly believe" added Mr. Brandeis.

He referred to Mr. Glavis as an "ideal public servant," and to Gifford Pinchot as a "man of character so high as to be even above suspicion of self-seeking."

"This investigation has been referred to as a struggle for conservation against the special interests," Mr. Brandeis continued. "This is that, but it is far more. Its essence is a struggle for democracy, a struggle for the small man against the over-powering influence of the big politically as well as financially, a struggle to establish that every American is entitled to equal justice."

His visit worth \$25,000 to their city. It would be hard for us to find language strong enough to express our appreciation of Mr. Irving's work. His time spent here has about revolutionized our entire community. Our people are seeing and taking advantage of opportunities that never appealed to them before. I consider that his visit was worth \$25,000 to our city.—McManus Dept. Store, Newton, Kan.
