In discussing journalism Mr. Taft denounced "muck raking" and expressed the belief that this unjust phase of newspaper activity would soon be a thing of the past.

He praised Theodore Roosevelt's crusade against "muck rakers"

RUNAWAY ON MAIN STREET DAMAGES TWO BUGGIES.

An exciting runaway was witnessed by a large crowd of people on Main street at four o'clock yesterday afternoon.

noon. Mrs. Turner, who lives at 109 west Mathews street, was driving a livery horse that was hitched to her own buggy. She was coming north on Main and at the First street crossing the horse started to run. She pulled until the right line broke and then the left line caused the horse to turn into the sidewalk at the Second street corner. The buggy collided with the surrey of A. J. Nisbet, which was standing in front of the store of the Roswell Drug & Jewelry Company. The shafts of the buggy were broken and a hind wheel of the surrey was smashed, but Mrs. Turner escaped without injury.

CHINESE INSULTING

Washington, June 3.—The city of Nanking, China, has been posted with placards, inciting the people to the destruction of foreign life and property.

The feeling in several of the provinces of China is still giving the authorities much concern. Minister Calhoun, at Peking reporting on the conditions at Nanking, says the cruiser New Orleans is there and is prepared, with the German and British warships, to land a considerable force, if necessary to protect the foreign consulates.

The Natives Are Insulting.

Pekin, China, June 3.—The consuls at Nanking report that the native disturbers of that city have assumed an openly insulting attitude towards foreigners and have defiled the walls of the American consulate in a disgusting manner.

Threats that a revolution will be launched on June 5th, the date for the opening of the Nanking exposition, are causing the Chinese merchants to flee with their treasures to the country districts, where they are burying their wealth.

All the diplomats in Peking think an outbreak in the provinces south of the Yang Tse Kiang river is likely to occur.

A BLUFF BY RAILROADS

Chicago, June 3.—At least two hundred million dollars, which the American railroads had tentatively arranged to spend in replacements as the result of increased revenue from the advance of freight rates they had expected, must now be used to stave off ruin, according to a statement made by Blason Thompson, of the Railway News, here today.

Washington, June 3.—A report reached the Interstate Commerce Commission late today that the lines constituting the Western Trunk Lines Association, would file individual tariffs, putting into effect substantially the same advances as are contained in the association's tariffs recently enjoined.

Railway Prices Crumble.

New York, June 3.—There was a general crumbling of prices in Wall Street today. Union Pacific sold at the lowest price of the year, as also did St. Paul.

Industrial groups showed losses of two points or more. United States Steel, in particular was the object of attack.

The weakness in the market is attributed to the continued pessimism resulting from the government's move against railroad rate increases and unfavorable business.

The total decline of Union Pacific was 6 3-8. The declines of Southern Pacific, St. Paul, New York Central, Steel, Amalgamated Copper, American Car and American Locomotive were from four to four and a quarter.

No special reasons were advanced to explain the break, except expressions from prominent railroad officials of the damage to their resources which would result from the holding up of the rate increase.

The weakness of the last hour was accompanied by heavy sales from London. Private advices from London reported demoralization on the curb long after the close of the regular trading hour.

TODAY THE BIRTHDAY OF KING GEORGE V.

London, June 3.—This is King George V's birthday, and although His Majesty is receiving many telegrams and letters of congratulation, no official cognizance will be taken of the day until after the period of national mourning is ended. He will take advantage of the quiet the present conditions insure to continue plans which will result in the solution of

the grave and complex problems which confront the country. The new King is manifestly sincere in his declared determination to wear the mantle inherited from his father, and England is beginning to look to him as an international peace-maker. If he succeeds only in this one rule, he will do an incalculable service to humanity. From his exalted position George V can wield an influence invisible but world-wide. In the international field he has a magnificent opportunity, and he will have behind him the good wishes of a loyal-hearted people.

NOTICE TO MEMBERS OF ROSWELL COUNTRY CLUB.

Roswell, New Mexico June 2, 1910. To the members of Roswell Country Club:—

This communication is addressed in the hope that the rules which were violated on this, the first fishing day, were done so through misinterpretation rather than willfully. The rules read two bass and ten perch may be caught by a members family in any one fishing day. This does not mean that one person may catch and give to another to make up his number, but means that when the legal number of legal size is caught he must stop fishing. Neither do the rules permit fishing to continue and larger fish substituted for smaller ones, for in this way fish are caught and injured which should not be caught at all. When a fish is caught and bagged it must be kept. It is even better that a fish under size be kept than thrown back, if injured too badly to live.

No bait except live minnows and worms can be used. Wooden minnows and all artificial bait is positively prohibited. The reason for this is plain to everyone. Wooden minnows injure worse than any other contrivance with which fish are caught, and very few live after being caught in this manner.

More bass can be procured by this device than by any other. Therefore many small bass are caught and are thrown back only to die. Under the rules Croppie are considered the same as bass and only two may be caught in any one day, or one Croppie and one bass in any one day.

The directors wish to prolong the fishing season as much as possible for the pleasure of the members of the club, and earnestly ask that each one strictly obey the rules and act with perfect fairness toward the entire membership.

Violations of any of these rules will cause the close of the fishing season, and innocent members made to suffer for the wrongs of others.
