

Terrible Suffering

Eczema All Over Baby's Body.
"When my baby was four months old his face broke out with eczema and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a mask or cloth over his face and tie up his hands. Finally we gave him Hood's Sarsaparilla and in a few months he was cured." Mrs. Inez Lewis, Barling, Mo. Hood's Sarsaparilla has effected thousands of cures where a blood-purifying medicine was needed. There is no real substitute for it. It is urged to buy any preparation said to be "just as good" you may be sure it is inferior, costs less to make, and yields the dealer a larger profit. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

OKLAHOMA POSTAL NEWS

Special to the Daily Leader.
Washington, D. C., Oct. 18.—Changes in fourth class postmasters in Oklahoma are announced as follows: Hopeton, Wood county, Willie B. Hendrickson, vice E. Jackson, resigned. Mantec, Hughes county—William M. M. R. Jones, resigned. Mount Scott, Comanche county—Lilly S. Barton, vice R. V. Barton, resigned.

The following appointments have been made in rural letter carrier force in Oklahoma: Grand Valley route 1, William A. Carter, Bradley S. Carter, substitute. Leeds, route 1, Nathaniel G. Wooding, vice M. Foster, Benjamin E. Wooding, substitute. Minco, route 1, Alden G. Barber, vice William Suterlin. Quinlan, route 1, Wallace D. Huff, vice William L. Forsythe, Benjamin Huff, substitute.

Star mail service has been established between Allison, Okla., and the railroad station, 3 miles, and back six times a week. Millard F. McKinnis of Allison, has been named as carrier at an annual salary of \$290; also between Jay, by Zena, to Grove, 16 miles, and back six times a week. Plus Stroke of Hirschville has been named as carrier at a salary of \$395.

The site of the postoffice at Vied Depot, county Okla., has been moved a quarter of a mile northeast of the old location.

Star mail service has been discontinued between Zena and Grove, Oklahoma, and between Jay and Southwest City, Mo.

The following Oklahoma postoffices have been discontinued: Beemont, Dewey county, mail to Mutual Delaney, Rodgers county, mail to Pryor; Maness, Grady county, mail to Lindsay.

OVER THE STATE

Frank M. Wood of Guthrie has returned with a bride, having been married in Chandler to Miss Catherine Kennedy of Cushing. Rev. F. Trienekens officiated.

Announcement is made that Dr. George Neumann, for years the medical agency physician for the Ponca and Otoes, has resigned and will retire from the service. He has been in the government employ a long time.

David Kooztz, convicted of complicity in the robbery of the Cotton Exchange bank at Cheyenne, was sentenced Monday to serve 50 years in state penitentiary. His appeal bond was fixed at \$25,000. Kooztz was convicted of planning the robbery. R. F. Graham an accomplice, turned state's evidence, and after that received 40-year sentence.

Smoke of Herbs Cures Catarrh.

A Simple, Safe, Reliable Way and It Costs Nothing to Try.

This preparation of herbs, leaves, flowers and berries (containing no tobacco or habit-forming drugs) is either smoked in an ordinary clean pipe or smoking tube, and by drawing the medicated smoke into the mouth and inhaling into the lungs or sending it out through the nostrils in a perfectly natural way, the worst case of catarrh can be eradicated. It is not unpleasant to use, and at the same time it is entirely harmless, and can be used by man, woman or child. Just as Catarrh is contracted by breathing cold or dust and germs into air, just so this balsamic antiseptic smoking remedy goes to all the affected parts of the air passages of the head, nose, throat and lungs. It can readily be seen why the ordinary treatments such as snuffing, douching, salves, liniments, etc., do not reach all the affected parts. If you have catarrh of the nose, throat or lungs, choking, stopped-up feeling, colds, catarrh, bronchitis, if you are given to yawning and spitting, this simple yet scientific treatment should cure you.

An illustrated book which goes thoroughly into the whole question of the cause, cure and prevention of catarrh will, upon request, be sent you by Dr. J. W. Hooper, 207 Weston street, Atlanta, Ga.

He will also mail you five days free treatment. You will, at once see that it is a wonderful remedy, and as it only costs one dollar for the regular treatment, it is within the reach of everyone. It is not necessary to send any money—simply send your name and address and the booklet and free trial package will be mailed you immediately.

WARNING TO WICHITA GAS CONSUMERS

Patrons Told Not to Depend Entirely on Gas as They Did Last Winter

Special to the Daily Leader.
Wichita, Kan., Oct. 18.—Circular letters are being mailed to the gas consumers of Wichita, warning them against depending exclusively on the gas supply this winter and advising them to make preparations for using other fuel in case of emergencies when the brash of winter comes. These letters are being sent out by the Kansas Gas and Electric company under the direction of H. S. Sladen, manager, who said that he is taking this step in order to avert any repetition of conditions which obtained last winter when the gas supply became exhausted on several occasions.

"While we do not know there will be any shortage, and on the contrary, have every reason to believe that the supply will be adequate this winter, we do not care to assume the responsibility of making a promise that unavoidable accidents may break," said Mr. Sladen. "As is well known the Kansas fields are becoming low and it has become necessary for the natural gas company to extend its pipe lines to Oklahoma in order to get sufficient supply. However, the company is better prepared now to furnish the gas than ever before, having installed two additional pumps in the fields this summer."

The cause of the shortage last year, according to Mr. Sladen, was the fact that the two pumps then in use at the wells were not strong enough for the gigantic task and were consequently broken down repeatedly. This pumping system was experimental and had not been necessary until last winter, he said, when the natural gas supply became low in the wells and pumping was the only means of forcing it through the pipe line. These two pumps have been reinforced with stronger pieces this summer and two other pumps have been installed and are now ready for operation, it is claimed. It is thought that improved equipment ought to prevent any further troubles over lack of gas.

The Wichita Natural Gas company which furnishes the Kansas Gas and Electric company with its gas, and likewise furnishes twenty other towns in Southern Kansas, has had a large force of workmen here this summer making every possible preparation to meet the demands of the consumers this coming winter. Their main pipe line has been extended into Oklahoma to new and warmer gas fields. Of course, the greater distance of the piping increases the likelihood of washouts and leaks such as might at any time interrupt the service.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by all dealers.

UNIVERSITY NEWS NOTES.

Norman, Okla., Oct. 18.—The Democratic students of the school are soon to hold a mock presidential convention. Champ Clark and Woodrow Wilson seem to be the favorites.

The Sooners suffered a severe blow this week when Nirm, the 290-pound tackle, had his shoulder dislocated. The injury will likely keep him out of the game the rest of the season. He was the oldest, heaviest and perhaps the most dependable man in the Sooner line and his loss will prove even more disastrous to Oklahoma than the loss of Hackney to Missouri.

Prof. Chas. N. Gould, first head of the department of zoology at the University of Oklahoma, has resigned as director of the Oklahoma geological survey to accept an offer from a private corporation. Dr. Gould was instrumental in having the state survey created and has been at its head since its foundation doing much to exploit Oklahoma's mineral resources in the east. He will be succeeded by Dr. D. W. Owen who resigns his position as head of the department of geology in the university to take up the work of the survey.

Fall baseball practice began in the university gymnasium this week. There is an abundance of good baseball material in school and a schedule including games with a number of neighboring state universities will likely be arranged.

The University Democratic club selected the following officers last week: Secretary, W. J. Armstrong of Nowell; vice president, Lon C. Leister of Oklahoma City; secretary-treasurer, Thurman Hurst of Pawnee; manager publicity bureau.

The state university footballers overwhelmed Kingfisher college by a score of 194 to 6 on Boyd field last Friday. The collegians were never in the battle and Owen's big warriors ran over them as will. The sooner goal was never in danger, the victors failing to hold the red and white coloring for down. The game served to show conclusively that Oklahoma has a chance to defeat Kansas and Missouri this year.

LUMBERMAN HINES AGAIN IN SPOTLIGHT

Raised Pool to "Put Over" Stephenson as Senator, Witness Says

Muskogee, Wis., Oct. 18.—Purported statements of others that Edward Hines, the lumber man, helped to "put over" the election of United States Senator Isaac Stephenson, and that Hines and Stephenson each contributed \$55,000 to a pool of \$110,000 to secure the absence of Democratic members from the Wisconsin legislature on March 4, 1908, so that Stephenson might be elected, formed the basis of sensational testimony given by Thomas Morris, lieutenant governor of Wisconsin, before the senatorial investigating committee Tuesday afternoon.

Morris declared that the information was given him chiefly by a Mr. Cook, W. H. Cook, he thought, of Duluth, who figured prominently in the first investigation of Senator William Lorimer, and that Cook said that Robert J. Sields, of Superior, Wis., also mentioned in the Lorimer case, was paid \$7,500 for his services in putting the deal through. Lieutenant Governor Morris stipulated that his statements were to be taken as "second hand" information. Chairman Heyburn immediately issued subpoenas for the appearance of all those named.

According to the report of the legislative investigating committee, the three Democratic assemblymen who absented themselves when Stephenson was elected by joint ballot were Thomas F. Ramsey, now dead, John T. Farrell and Silas A. Towne.

CAKES, PIES, etc., can be vastly improved by using THE ALTON GOODS Pastry Spice

Schwab's View of Luck.
Charles M. Schwab has most successfully in luck, his no belief in luck. Mr. Schwab, in a recent address in his native Loreto, said: "I advise my young Loreto friends to rely on their brains and muscles, and put all thought of luck away from them. 'A Loreto boy said to me the other day: 'Mr. Schwab, who is luck?' 'Luck, my lad,' I replied, 'is the thing to which we give the credit for our successful friends' hard work.'—New York Press.

FOLKS PAST FIFTY MUST USE CASCARETS

What Glasses Are To Weak Eyes, Cascarets Are To Weak Bowels.—A 10-Cent Box Will Truly Amaze You

Most old people must give to the bowels some regular help, else they suffer from constipation. Five conditions is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

THIRTY MILES TO SCHOOL

Kansas Boy Travels the Entire Distance Every Day

Special to the Daily Leader.
Salina, Kan., Oct. 18.—Going thirty miles a day to attend school is a part of the work of Karl Dairymale of this county, who is taking advantage of the Barnes high school law and attending the high school in Salina. The young man lives fifteen miles northeast of this city. He makes the trip back and forth on a motorcycle. He started the first day, recently, and declares he will not miss a day unless he is ill. He is not sure just what he will do when the snow flies and the weather gets so bad he cannot use his motorcycle, but he says it will not keep him out of school.

Young Dairymale helps milk the cows both morning and evening, and does the home chores about the farm. He leaves home about 8:30, and, so far, has not been tardy, but usually has a few minutes to spare. School begins at 9 o'clock. He frequently makes the fifteen miles in twenty minutes, but does this only when the roads are good. He has never consumed as much as thirty minutes on the road. The boy is 16 years old and has passed through the graded schools in the country district where he lives. The Salina high school is the nearest school of the kind to his home.

WOODWARD COUNTY WINS FARM HONORS

Exhibit at Dry Farming Congress in Colorado Springs Awarded First Prize

Colorado Springs, Col., Oct. 18.—Woodward county, Oklahoma was awarded the prize for the best county agricultural exhibit and the same county received the \$25 prize for canned fruits at the Inter-National Dry Farming congress in session here this week.

Oklahoma won the second prize in the collective exhibits. With twenty-five prizes to her credit, among them being the sweep stake prize in corn, fruit and broom-corn and the first prize for individual and county exhibits, she was thirteen points behind the victor, Alberta, Canada, which grading on a scale of 1,000 points.

Among the first prizes awarded to Oklahoma were six on special varieties of corn, one on alfalfa seed and also on watermelons, melon, fruit and several on small grains.

Much interest is taken by visitors in the exhibits from the Pan handle agricultural institute at Goodwell, Okla. It is the only exhibit of its kind in the congress. S. W. Black, superintendent of the school is in charge of the exhibit. A banquet was given Tuesday night in honor of the delegates, numbering nearly 3,000, and at this banquet the grand prize, a silver cup, worth \$250, was awarded as first prize to Alberta, and another silver cup was awarded to Oklahoma as second prize.

The grand prize was donated by J. B. McKinley of Colorado Springs. The Grange of Colorado presented the cup to Oklahoma. Professor Black replied to the presentation speech. Hundreds of Oklahoma people are visiting in Colorado Springs and viewed the exhibits and the men in charge of Oklahoma's exhibits are elated at the success of that state in securing so good a representation and so many awards.

Wednesday night a reception to foreign delegates will be given by the citizens of Colorado Springs. Professor John A. Widatic, president of Utah Agricultural college, was chosen to succeed Dr. J. H. Worst of North Dakota as president of the congress. The next meeting place has not been decided upon.

John Fields in The Open Editor Leader: The writer read with interest and considerable surprise John Fields' article on the "Board of Agriculture" which appeared in the Oklahoma Farm Journal of October 1, 1911. The writer has often heard John Fields give his opinion in private of the intelligence of the Oklahoma farmer but he never dreamed John would have the audacity to publish that opinion in his own paper. The writer attended the farmers short course in Stillwater at the time the constitutional convention was in session four years ago and well remembers the effort made by John Fields and the president of the board of regents of the A. & M. college and other shining lights to prevent the farmers there assembled from passing resolutions requesting the constitutional convention to provide that all members of the board of agriculture be farmers.

In this article Fields urges all of us subscribers to sign Fields' petition and says: "If an election is called, vote to take another guess and make another effort to determine whether or not farmers can manage their own affairs of government. Another guess indeed!"

I am an Oklahoma farmer myself and admit my poor farmers that have loaned our backs, gone unswayed months at a time that I might help build up the Farm Journal circulation so John could charge his advertising rates and accumulate thousands of dollars with which he has bought Oklahoma City bank stock—yes, I admit we are chumps, but the unmitigated gall he displays in twisting us of our ignorance! I assure you, Brother Fields, here is one farmer that will do no more boosting for you or the Farm Journal. The Oklahoma farmer will continue any day to the old trust-ridden Pennsylvania farmer from which John Fields springs.

John can see no hope of anything good coming from the board of agriculture so long as the farmers control it. What really hurts John is the fact that the farmer board of agriculture does not ask for the assistance or advice of John Fields or his Farm Journal, but in spite of John's kicking, the farmer board keeps right on sending out useful information to the Oklahoma farmer and his wife in the form of demonstration trains, short schools of agriculture, farmers institutes, etc. John, if you can think of nothing else to publish you might write of the weeks of time you have spent lobbying before the territorial legislature while you were drawing a salary from the state, or you might tell us of the wonderful things you accomplished while director of the experiment station at Stillwater, or we would even stand for you republishing some of your old staid dope on "bermuda grass," but for God's sake don't insult the best blood of Oklahoma—the farmer—by taking any more "guesses" on his intelligence or his ability to run the agricultural affairs of Oklahoma. FARMER.

COLDS CAUSE HEADACHE LAXATIVE BROMO Quinine, the world wide Cold and Grip remedy removes cause. Call for full name. Look for signature E. W. GROVE, 25c

The Odd Fellows and Knights of Pythias lodges of Okla., with 11 lodges and chapters have hushed a 20 acre field of corn for N. A. Hockett a member and farmer living six miles east of Okene. Hockett has been sick and unable to work in the field. The women of the Okene Rebekah order furnished the dinner for the men at the Hockett farm.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, removes gravel, urea diabetes, weak and lame backs, rheumatism, and its peculiarities of the kidney and bladder in both men and women, regulates bladder trouble in children. If not sold by your druggist, it will be sent by mail on receipt of \$1. One small bottle is two months' treatment, and seldom fails to perfect a cure. Dr. E. W. Hall, 2025 Olive street, St. Louis, Mo. Send for testimonials from different states. Sold by druggists.
