

Best Treatment for All Complexion Ills

I'll tell you my panacea for all complexion troubles. If the skin be colorless, pale, low, muddy, over-red, if it be rough, chapped, blotchy, pimply, or freckled, there's nothing that will so surely restore the condition as ordinary mercurized wax. The wax literally takes off a bad complexion—absorbs the dead and near-dead particles of surface skin, so gently, gradually, you experience no inconvenience at all. A new complexion is then in evidence, one so clear, spotless, delicately soft and beautiful, you look many years younger. One ounce of this wax, procurable at any drug store, will rejuvenate even the worst complexion. It is smeared on like cold cream before retiring and removed mornings with warm water. The mercurized wax habit is a healthier and more economical one than the cosmetic habit.

RAINS AFTER BATTLES FREQUENT

MAKING OF HISTORY WAS HELPED MANY TIMES BY STORMS

It is one of the extraordinary things of warfare that a big battle invariably produces torrents of rain.

History contains innumerable instances, both on land and sea, and on more than one occasion the storm or showers that followed an engagement had no small influence upon the life of nations.

We can hardly have a better example than that recorded in 1588, when England was threatened by the great Spanish Armada. After its encounter with our own fleet it was, as we all know, struck by a heavy storm, which completed the work of our own gallant seamen.

The soldiers who fought so bravely under the leadership of Marlborough at Blenheim in the year 1704 had to suffer the misery of successive down-pours after their brilliant victory. Marlborough was anxious to follow up his victory without delay, but his men were so worn by the fatigue of the battle and the discomforts caused by heavy rains and the contingencies of warfare that he was unable to push on for several days.

On June 16, 1815, the British defeated the French at Quatre Bras, and Napoleon worsted the wily Buicher at Ligny, both within measurable distance of Waterloo. The heavy rains which followed these engagements made the clayey soil almost impossible for cavalry maneuvers at Waterloo (fought on June 18), and so crippled the tactics of Napoleon and greatly assisted those of the Duke of Wellington.

The victory would have been gained in any case, but experts are of the opinion that the rain was an ally of some value.

During the early weeks of the siege of Sebastopol, in 1854, the roar of cannon and explosion of bombs was followed, day by day, by heavy down-pours of rain, until, as we read, our men stood in the trenches knee-deep in mud. A terrible gale broke over the Black sea and caused great disaster to our transports, and on the heels of this tempest came a heavy, steady downfall of rain that brought in its train a disturbance of the elements. This was just prior to the fall of Plevna, in 1877, when the moisture of the clouds was turned to snow as it fell, and, by increasing the sufferings of the besieged, helped to make Osman come to the determination to try a last chance for freedom.

The explanation of the rain is comparatively simple, and has been made use of for the benefit of agriculture in various parts of the world. The atmosphere is laden with moisture, a concussion caused by loud reports or noises will often burst the clouds, with the natural result that the drops of water fall to the earth. This has been practically tested when farmers have been groaning over the drouth, and scientists have induced the desired rainfall by causing cannon to be discharged at altitudes varying with the locality. When, however, the discharge is continuous, as in battle, it is obviously more effective.—Pearson's Weekly.

SCENES ALONG THE LINE OF BATTLES

Among the interesting features of The Leader's War Map are splendid portraits of the great European rulers. These are beautifully reproduced from late copyright photographs and make a rare collection.

The map proper was originally produced in Europe by the wax process and every line is clear and distinct. It is printed in five colors, and a mountain ranges and rivers are clearly outlined. Another important feature consists of the outlining of the submarine telegraph lines, those connecting the various countries of Europe as well as the lines which run to other continents.

For a short time The Leader will

First Bust Made of New Pope, Benedict XV

This bust by Gilletta, an Italian sculptor, is the first for which Pope Benedict XV, has sat since he was elected to the place last month. It is a much different portrait of him than the photographs sent to the United States have shown. In fact, it is so greatly dissimilar to the photographs that he would hardly be recognized as the same man.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur it Brings Back its Lustre and Abundance.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tincture at home or get from any drug store a 50-cent bottle of "Weybe's Sage and Sulphur Compound." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. TURKEY YAND THE ALLIES ARE AT WAR (Continued from Page One.)

That Turkey has accepted as final the refusal of the allies to accept her apology for the bombardment of Russian ports and ships is indicated by her recalling her diplomatic representatives from the capitals from the triple entente powers. Several Turkish cabinet ministers have resigned because of a lack of sympathy with the war party in the government. Berlin reports that the Persian

You will delight in arranging your hair in the new and interesting modes of this season if you keep it perfectly soft and fluffy so that it appears naturally heavy. This will be a simple matter if you use the right shampoo. It is not advisable to use a makeshift but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of castoria from your druggist; dissolving a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.

All Nations Smoke.

There is hardly a country in the world where the pipe is not smoked in one form or another. The Kafir dearly loves his pipe, and, failing the genuine article, will use anything that will hold tobacco—from a piece of iron piping to a cow's horn. When not even these are available he will use the earth! He does this by packing a small hole to hold the tobacco, from which he makes a passage for the smoke by pushing a curved piece of wire through the ground. He then lies face downwards, applies a light to the tobacco, and his lips to the ground, at the spot where he has withdrawn the wire, and smokes in peace.

In many villages of the northwest provinces of India are to be found public hookahs for the use and comfort of travelers. Everyone has heard of the North American's pipe of peace. General Blucher's pipe-smoking was of a very different character. He appointed a man to the post of "pipe-master," whose duty it was to fill a long clay pipe and hand it to the general before every engagement. Blucher would then enjoy a few whiffs, give back the pipe, and gallop to the firing line.

BOMBARDMENT CONTINUES. Paris, Nov. 5.—A dispatch to the Havas News agency from Athens says that the bombardment of the forts of the Dardanelles, which was

participated in chiefly by the British fleet, was suspended momentarily, but later was resumed and continued until 10 a. m. Wednesday. Seventy shells in all were fired at the Turkish forts.

DEMOCRATS LOSE IN "MOTHER OF TRUSTS"

DEMOCRATS IS TRENTON, N. J., Nov. 5.—Returns today indicate that William E. Tuttle, Jr., Democrat has defeated in the 5th John H. Capstick, Republican. This would make the New Jersey delegation in congress stand eight Republicans and four Democrats, a republican gain of six seats.

To Free Your Skin of Hair or Fuzz

(Boudoir Secrets.) No toilet table is complete without a small package of delatone, for with it hair or fuzz can be quickly banished from the skin. To remove hairs you merely mix into a paste enough of the powder and water to cover the objectionable hairs. This should be left on the skin about 2 minutes, then rubbed off and the skin washed, when it will be found free from hair or fuzz. Be sure you get genuine delatone.
