HUSBAND IN CLUTCH OF VAMPIRE VICTIM OF TRAGEDY SCORED BY THE DESERTED WIFE

Philadelphia, March 6.—The woman who was killed by Charles C. St. Clair of New York before he committed suicide last night at the Hotel Windsor was virtually identified today as Edna Hall of Waterbury, Conn., where her husband resides. She was formerly a vaudeville actress. In the room where the tragedy occurred there was a letter found to-day, torn in small pieces, it was signed "Edna" and was evidently written shortly before the tragedy. A portion is: "Dearest—You know you asked me to write you a letter, so here it is. This note is just to tell you I love you. You were very lovely to me today, and boy, dear, that's the only way to make me love you. It's not the things you give me or do for me, but the attentions and the thousand and one thoughtfulnesses that some men pay women. I want to be near you." A pathetic letter from Mrs. St. Clair reached the Windsor Hotel a few hours after her unfaithful husband had committed both murder and suicide. It had been written in answer to his letter which resulted in the discovery of the crime, and pleaded with him to return to her and start life over again. Mrs. St. Clair said in New York today. "This woman lured my husband from a happy home. I can liken her only to a vampire. I knew the woman and the spell in which she held him, which led to her death and his. He had admitted she exerted a hypnotic influence over him. Twice I have forgiven him and I would have forgiven him again." Mrs. St. Clair yesterday received a note from her husband from Philadelphia, saying: "She is with me, and I am going to take her, too."

The field marshal received a laconic reply, the dispatch says, stating that the Germans needed their artillery officers and adding: "Do your best."

CASTORIA For Infants and Children In Use For Over 30 Years Always bears the Signature of J. C. H. HITCHCOCK UNIVERSITY MEN HAVE EYES ON LATIN REPUBLICS Special to the Daily Leader. Norman, Okla., Mar. 6.—South and Central America with the wonderful business possibilities which recent world events have thrust upon them have turned the eyes of many Oklahoma young men southward with hopeful promise of future commercial activities in the land beyond the equator. These ambitions of southern conquest in the world of business have been one of the strong factors in making the study of the Spanish language so popular at the university. One hundred and fifteen students of the state's leading educational institution are learning the language, a number of which has been greatly

augmented since the European war. The young men at the university, like the five hundred who are enrolled in night classes for the study of Spanish in the city of Houston, Texas, are equipping themselves for the best possible results when they assume their new obligations to the business of the land beyond Panama. A Specific Against Colds. If there is such a thing as a specific against colds, it is to be found in the sleeping porch or the open bed room. Next to that comes the cold sponge, both in the morning. If you are young, be careful as you can you will occasionally take cold and when you do you will find Chamberlain's Cough Remedy a great help in enabling you to get rid of it. Try it. Obtainable everywhere.

LESS ACTIVITY NOW IN WASHINGTON. Washington, March 6.—Congress had gone today, perhaps not to return again before December. Members of the sixty-third congress had left Washington with but few exceptions, for their homes. About the only activity at the capitol was evidenced by a handful of committeemen who remained behind to continue investigations ordered by congress and employes who were cleaning up the odds and ends of business. The committeemen will carry on during the recess the inquiry into alleged lobbying in connection with the ship purchase bill, study rural credits legislation and recommend revision of the senate rules with a view to establishing closure order to prevent filibusters. The capital itself, however, was not deserted of officials. President Wilson and his cabinet will remain in Washington with but few interruptions, because of the international situation. (Worn and tired after having been in almost continuous session for two years, senators and representatives glad that their long legislative grind was over, left here jubilant over the prospects for a long vacation.

The teachers of the city schools are preparing for a St. Patrick's day party to be given at the home of Supl. and Mrs. F. D. Brooks.

Wichita, March 6.—After purchasing more than twenty car loads of horses to be used in the European war as targets for German guns, the French commission which has been in the city for the last four days has exhausted the supply in this market so left yesterday for Oklahoma City to inspect 500 head that are waiting verdict there. Members of the commission which left yesterday are Christian Bounot, Doctor Cayrou, and Vicomey de Lary de La Teur. The horses purchased in this market were shipped to Newport News, Va., to be placed aboard boats bound for France.

SUPPOSE IT WAS YOUR CHILD The Guthrie Street Railway company has been very fortunate in having few serious accidents. Our men are careful and use every means to prevent them. We ask your support to prevent accidents. The campaign that this company is making for the prevention of accidents can be assisted in no greater measure than by the warnings that parents and teachers give to the children against children playing on streets near street car tracks. The accidents illustrated here would not happen if you would warn the children—if you could prevent them from courting DANGER by jumping on our cars. They do it for fun—OR DEATH!
