

# China Reproduces Temple of "Forbidden City" at Hugest of World's Fairs

AT THE LEFT, ONE OF THE STRUCTURES REPRODUCING A FEATURE OF THE "FORBIDDEN CITY" AT THE RIGHT, A TOWER REPRODUCED FROM THE "FORBIDDEN CITY."

At a cost of \$300,000 the Republic of China has constructed one of the most marvelous pavilions and is making the most wonderful displays of its products, industries and manufactures ever made by the awakening republic at any time within its history. The exhibit includes rare furs, silks, satins and priceless lacquer work, and native craftsmen are shown plying the trade which they have followed for more than two thousand years. A feature of the Chinese exhibit is its exemplification of the American public school system as adopted in China. To construct this pavilion the Chinese government imported rocks and stones and materials used and brought from China its most skilled artificers. Many rare trees and shrubs unknown in America are shown.

## UNIVERSITY IMBIBES CLEAN-UP SPIRIT

The Methodist university students and faculty this morning at assembly entered with a will into the spirit of Clean-Up Day tomorrow, and as a result there will be some vigorous cleaning done on and about the campus on Capitol Hill. Dr. Hishop returned yesterday from Joplin, Mo., where he had been called to attend the funeral of his brother, and under his direction this morning an outside committee, under Professors Howard and Pritchard, was appointed to work on the campus, lining the walks, digging around trees, and otherwise cleaning up the magnificent plot of ground. Professor Muhleman was named chairman of the committee on tennis courts, and he with his workers will roll, level, and trim up the two courts that have been built south of the main roadway. Professors Green and Goodell were named an inside committee, to have general charge of cleaning up the building itself, using "little cans of paint," and brooms and mops as well. Professor McMill is in charge of the finances, or "pie fund," and promises plenty of money from the men toward the dinner at noon.

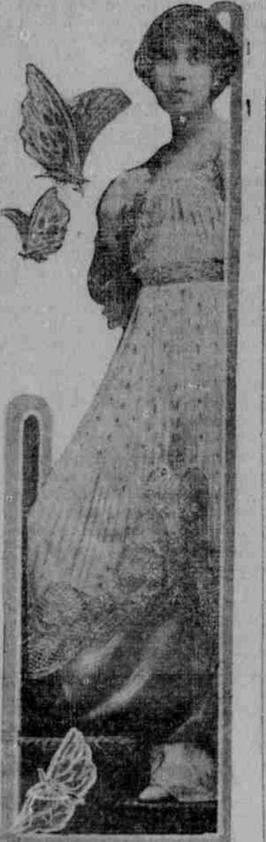

Promptly at 12 o'clock, the young women, under the direction of Miss Conking and Miss White, will serve a most delectable dinner in the gym, and after the work of the afternoon a baseball game is to be played between the college seniors and the faculty—and it will be some game, as the Mack says.

The students are manifesting a lively interest in the proposed activities, and are working on a multitude of committees to help in the work. The get-together spirit is growing on the campus of O. M. U., and this is one of the results of the St. Patrick's Day mela, which made everybody anxious to do something positive to show the unity of purpose between O. M. U. and Guthrie.

## TOPICS OF THE TOWN AND STATE

Guthrie and Enid Schools to Debate. The debating season will open to-

## She Sells Butterflies With Her Bouquets.

Beatrice Prentice, who has an important role in "The Clever Ones" at the Punch and Judy Theater in New York, has developed such an important side line that she has thought of forsaking the footlights for business. She is an importer of Brazilian butterflies, a business which she thought out herself.

A steamer arrived the other day with no fewer than 5,000 butterflies consigned to Miss Prentice. They were the most gorgeous the regions about the equator could supply. Nothing like them had been seen in the United States except in private and public collections. Miss Prentice worked out the theory that a bouquet of beautiful flowers could be made more beautiful if it contained butterflies. So during the winter she worked out a plan with several florists who cater to the persons who can pay large sums for flowers and arranged with them to sell bouquets containing brilliant butterflies. The plan has been successful, so successful that Miss Prentice has had to employ help. The butterflies from the warm climate of Brazil find steamheated apartments and well heated houses as inhospitable as their native climate.

morrow night when Enid high school sends their team to meet the Guthrie high school at the local high school auditorium to discuss the question, "Resolved, that an appropriate minimum wage should be enacted in the United States." At the same time another team will debate the same question at Enid. The negative team will consist of Ross Warner, Charles Ailing and Helen Wall for Guthrie as horse and Gordon Bierer, Ellen Tharp and Ray Druse will go to Enid. Last year a similar deal debate was held between Enid and Guthrie. The result that each visiting team won.

**Sleeper for Commissioner.**  
Fred Sleeper, filed today as candidate for safety commissioner.

**Want Dues Paid.**  
Auto club is hammering members for payment of dues. Money is needed for road work.

**Soldier is Jailed.**  
R. B. Edwards, soldier at Ft. Sill and bridegroom of eight hours, was placed in the federal jail last night, charged with selling liquor on government reservations.

**Clean Up Workers.**  
It is the request of the clean-up committee that all who can help in the clean-up campaign tomorrow report for duty at the school building in your district at 9:00 o'clock tomorrow morning, where you will be assigned to work. Also that anyone having a team and wagon who can help are requested to report at any one of the school buildings at 9:30. No hauling will be done free of charge.—Committee.

**FRED SLEEPER** heretofore announces his candidacy for commissioner of safety subject to the primaries.

## GUTIERREZ TO ASK FOR RECOGNITION NOW

Washington, March 18.—Jose Vaccinoco, head of the newly established Gutierrez agency here, announced Wednesday night that he had retained counsel and was preparing to submit a formal request to President Wilson for recognition of the Gutierrez government. He said to recognize his chief, duty chosen provisional president would not be a "recognition of a government established by usurpation and force such as those of Carranza and Villa."

**FOR SALE**—Scholarship in Capital City Business College Leader Office.

## RAIDED GAMBLING HOUSE

Oilton, Okla., March 18.—Deputy Sheriff Stein, stationed here, owns the most expensive chicken coop in Oklahoma. It is built entirely out of costly gambling paraphernalia seized by Stein and other officers during a recent raid. The coop was manufactured out of three poker tables, one stud poker table, a crap table and a half, and two pine board bars.

## OILTON MASS MEETING TAKES FIRST STEPS

Oilton, March 18.—Plans for the incorporation of Oilton and for the government of the town until incorporated is completed were discussed and outlined by a mass meeting of the citizens here last night, and a committee of seven was named to have charge of the preliminaries. The first work of the committee is to advise in regard to sanitation and fire protection in particular, paying attention also to bridging sidewalks to grade, oiling the streets and making other necessary improvements.

The committee of seven is composed of business and professional men, with C. E. Wildman as chairman and E. K. McGibley as secretary-treasurer. The other members are J. P. Goehand, M. McMaster, R. B. Stewart, Frank Bayrouth and Odith Spurrer. This is in reality an advisory committee, with the reins of the provisional government in their hands, to suggest what should be done and do all in their power to see that it is done. The plans for incorporation will be worked out principally by this committee. The incorporation papers of the other newly incorporated towns, together with their ordinances, will be secured as a basis.

**For Sale**—American Queen sewing machine. Cheap for cash. Leave office.

## CLOSE WAGE PROBE; DECISION DUE APRIL 20

Chicago, Ill., March 18.—Evidence in the arbitration of the wage demand of the 63,000 locomotive engineers, firemen and hostlers, of 38 western roads will be completed tomorrow. The exhaustive rebuttal of the employees was completed last night. James M. Sheehan, attorney for the railroads, said that rebuttal would be confined to a brief exhibit dealing with the pay rolls of October, 1913.

Taking of testimony began November 30 last. One week will be allowed for the submission of briefs and an award will be delivered on or before April 20.

Mrs. Lanigan—Have you seen Mr. Lanigan since the fight?  
Mr. Lanigan—Yes, and he wore several beauty marks of court plaster.

## FORMULATE 20 RULES FOR THE GERMAN WOMEN

FEMALE OF SPECIES MUST AID IN WINNING THE WAR

(By Associated Press.)

Berlin, March 18.—In line with the efforts that are being made universally to conserve Germany's food supply, Dr. F. Wohlmann, director of the agricultural institute of the University of Halle, has issued a pamphlet entitled "Twenty Rules for the German Housewife." He prefaces his brochure with the declaration that she "must help to win the war." The rules include the following:

1. The consumption of white bread and cakes must if possible be abandoned, or cut down by one-quarter.
2. Rye and potato bread must supplant white bread and not one crumb must be wasted.
3. Hulled oats must be employed more than ever for the nourishing of the children.
4. In place of the decreasing supply of hams, peas and beans we must utilize potato and meat soups.
5. Potatoes must become our basic food and supplant the failing grain supply. Adults must increase their potato consumption by 400 grams a day, whether in bread, soup or cooked potatoes. It is the duty of the housewife to prepare potatoes in as great a variety of ways as possible so they shall continue to be palatable, and to cook them without peeling to avoid waste.
6. The appetite for meat must not be over-exercised. It has been too greatly cultivated heretofore. Only those who have heavy mental and physical work to perform have any right to eat meat daily. One should favor pork and mutton and for the time being spare beef and veal.
7. Our use of game and fish should be restricted in order to replace the diminishing supply of these foods.
8. Eggs must be carefully conserved, and, with their restricted use in cake, be employed in other foods and gravies.
9. Butter, cheese and cream must be spread sparingly. Bread should be spread thinly with butter.
10. Milk is available in sufficiency and should be given to the children particularly.
11. The taste for sugar should be increased wherever possible, in drinks, soups, marmalade and pastry. It may also be used in water and served in place of beer. The average consumption of 20 kilograms a year should be increased to at least 45 kilograms.
12. As long as southern fruits, lemons, oranges and almonds, as well as nuts, etc., are coming in, their plentiful use is to be recommended, even if they become expensive, to supplement the home larder. With oranges at their present low price, they should be made into strongly sugared marmalade.
13. The plentiful fruit harvest this year should be utilized for fruit sauces, marmalade and syrups.
14. Vegetables, especially asparagus, should be used in quantity during the coming spring and summer.
15. Coffee, tea and cocoa are still available in sufficiency and at moderate prices. Their use, however, must soon be restricted, and for that reason they should be prepared more weakly, and with more sugar.
16. Spices must be used sparingly, even though there is plenty of salt on hand.
17. Of alcoholic beverages there is a sufficiency in the country; nevertheless in war time their use should be tempered.
18. All remnants of food and kitchen scraps must be carefully saved for use in feeding the cattle.
19. Fat should be used sparingly in cooking; lard should be supplemented by kidney-fat, beef-tallow and other oils.
20. Those who are not short of money should purchase supplies now and store them up so that when summer comes the question of feeding the people shall not become universal and alarming.

Dr. Wohlmann adds that "he who follows these 20 rules fulfills a patriotic and ethical duty, fighting like the warriors in the field, for the victory and the well-being of the people."

Invigorating to the Pale and Sickly. The Old Standard general strengthening TONIC, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true Tonic. For adults and children. 50c.

## Fortified Tires Span the Way from Trouble

Goodyear tires have bridged the way for countless men to less trouble and tax. And those men, by their endorsement, brought our last year's output up to 1,479,883 tires.

Why do you suppose that Goodyear holds top place—you who use other tires? They have held that place for years, outselling any other.

The only reason, as you must know, is that Goodyears average best. And that's how they are bound to win you.

### The Super-Tire

They are not trouble-proof. Mishaps come to them, misuse affects them, much like other tires.

But Goodyears are Fortified Tires. They protect you in five ways employed by no other maker. They combat five major troubles in unique

ways, exclusive to Fortified Tires. These five extra features cost us fortunes. One alone—our "On-Air" cure—costs us \$430,000 yearly. But they save Goodyear users millions of dollars yearly. They avoid countless troubles for them.

### Lower Prices

On February 1st we made another big reduction. That makes three in two years, totaling 45 per cent. We are giving you, through mammoth production, the best tire value ever known.

Please prove this, for your own sake, by the tire itself. The following Goodyear Service Stations will supply you:

## NEW CUSHING AND TULSA LINE TALKED OF

Cushing, Okla., March 18.—Surveyors here eastward during the past ten days, and Santa Fe officials appear to slip in and out of Cushing in a mysterious way. Talking all of these things together it looks as though the long talked-of cut-off between Tulsa and Cushing will soon be under construction.

One of the surveyors, who refused to be quoted, said today that Tulsa was evidently "something in the air," but declined to say just what that "something" was. He admitted that fully equipped surveying parties had been locating a line in the direction of Tulsa, and hinted that unless the interurban was bought by the Santa Fe very soon they would build a line themselves. "This cut-off," he said, "will give the Santa Fe the key to the Cushing freight and passenger business, and their line to the Gulf will become an important factor to the entire system."

"When the Tulsa-Cushing line is completed this city will be an important division point," declared the engineer, "and large shops will be maintained here. The fuel oil ques-

tion is an important one and the Santa Fe tank farm near this city will become a busy place when the new road is finished."

A healthy man is a king in his own right; an unhealthy man an unhappy slave. For impure blood and sluggish liver, use Burdock Blood Purifier. On the market 25 years. \$1.00 a bottle.

## ARRESTED FOR OKLAHOMA MURDER 6 YEARS OLD

Denver, Colo., March 18.—George W. Shepard, 49, was arrested here last night on information from Oklahoma authorities on a charge of murder, in Seminole county, Oklahoma, in 1908, of his cousin, John Shepard. Shepard had lived in Colorado for six years under the name of Henry Cowles.
