**Forty Thousand on Payroll.**

Nearly 40,000 men are on the payroll of the Bethlehem Steel Corporation. The greater number is employed in the 100 mammoth mills and machine shops that for two miles crowd the banks of the Lehigh River at South Bethlehem. The Bethlehem Steel Corporation has \$500,000,000 in orders and contracts on its books. Much of this is for domestic consumption and the remainder is distributed among the civilized countries of the world. To complete the construction program necessitated by these colossal contracts it is spending more than \$40,000,000 in extensions and improvements.

Unlike Krupp's and the great English ordnance works at Vicker's Son

and Maxim's and Armstrong's, all of which devote their central plants exclusively to the production of munitions, Bethlehem is as prolific in the manufacture of implements of peace as it is in that of the instruments of war. The fact that it leads the world in both branches bears witness to the magnitude of an expansion unparalleled in the history of American industry.

**GAY GIRL WAS THIS CHICKEN AND POPULAR**

**SO POPULAR IN FACT THAT HUBBY NAMES 21 CO-RESPONDENTS**

Manitowoc, Wis., Sept. 29.—The most sensational divorce suit in years in this part of the state has been started with a series of charges involving 24 co-respondents, and the first day's hearing with John Wegener of Milwaukee as the alleged co-respondent involved, proved so sensational that the court ordered the doors closed and the public and news paper men excluded.

The case is that of August Kuhl whose wife, according to the husband was too friendly with various Manitowoc and Milwaukee men. There are 20 Manitowoc men involved in the case and four Milwaukeeans, but the case is so sensational that the court is not permitting the names of any of the men named to become known until they are brought into court.

It is understood that after the present cases are disposed of there will be civil suits for alienation of affection brought against all of the men who are found by the court to have been numbered among Mrs. Kuhl's admirers. The allegations cover a period of six months during which the husband was out of the city much of the time.

front, according to the official communication issued by the French war office last night.

**20,000 Prisoners and Many Guns Taken.**  
 London, Sept. 29.—An official communication just made public dealing with the operations in France Tuesday says that in the heavy fighting around Loos the British have taken exceptionally strong German lines of trenches and bomb-proof shelters several hundred yards in extent.

Having taken the German second line the statement says the British are now after the third line of trenches. In all more than 20,000 prisoners have been taken and 21 guns and 40 machine guns have been captured and others destroyed.

**TEN AMERICANS ARE KILLED BY MEX. BANDITS**

(CONTINUED FROM PAGE ONE) side of the river. Drums were beaten and late at night there usually was some shooting, evidently by Mexican joy-makers. For the past two nights there has been no "balle" and the American troops have been expectant of attack.

The soldiers about Progreso have learned that many of the Mexicans just opposite there speak English and this strengthens the suspicion that they are Texas-Mexican bandits. One of the reasons for the request for mountain guns was to use in case of another attack from this colony of Mexicans.

Col. A. P. Blocksom, commandant at Fort Brown, and Maj. Edward Anderson of the Twelfth cavalry inspected the posts in the Progreso district Tuesday. Very careful and somewhat extensive patrol plans were perfected in order to frustrate an invasion. The Rio Grande about Progreso is out of its banks, rendering the American side of the river more than ordinarily vulnerable to landing of a Mexican expedition on the American shore. With boats Mexicans might readily cross the river where American patrols could not get a view of them and pole their boats through chapparal to secret landing places in the thickets.

Four alleged Mexican bandits were arrested Tuesday and taken to jail at Edinburg. They are believed to be connected with the recent attack on the McAllen ranch near Edinburg.
