GRAND LODGE WILL SOON FOUND BENEVOLENT INSTITUTION

The state grand lodge of Knights of Pythias will within the next year or so build a state home for its old and indigent members and the widows and orphans of Oklahoma Knights of Pythias. WOULD END WAR TO DIVIDE NORTH AMERICA AS SPOILS

Paris, Oct. 20.—The subjoined curious communication, written on thick, official looking folio paper, without any indication of its origin, has been delivered by messenger at the office of the Agence Havas, the principal news agency in France:

"It is stated on high authority that suggestions have been made in the diplomatic circles of European chancelleries declaring that the easiest solution and the one most acceptable to all the warring nations would be the partition among them of the United States of America. The United States of America are a most inviting prize as compensation for the sacrifices rendered by these nations, and an arrangement on the basis of the respective relations of the different nations is surprisingly practicable.

"So far from being a visionary scheme for a solution of this great world conflict, the fact is only too apparent that only a small part of the effort expended in the sanguinary struggle now raging would have sufficed to satisfy all nations in their respective ambitions.

How to Divide Country. "A noted diplomat declared his surprise that this idea of the partition of the United States had not emerged sooner, because the land is so largely made up of the constituency of all the warring nations.

"The tentative plan to satisfy thus the national ambition of the European countries at war, instead of prolonging the internecine struggle, is broadly outlined as follows:

"Great Britain is to occupy New England, Maryland, Virginia, North and South Carolina, Georgia and
