WHILE GERMAN PROLETARIAT CRY FOR PEACE HUNGARIANS REVOLT

HUNGARIAN CABINET UNABLE TO RALLY SUPPORT FOR ITS MILITARY PROGRAM. HAS RESIGNED IN A BODY

HIDEOUS HUN HINDENBURG GIVEN FULL FIELD POWER

EFFORT MADE TO ASSASSINATE PREMIER LENINE: GERMANS FAIL IN ENDEAVORS TO DISLODGE ALLIES ON FRENCH FRONT

BULLETIN.
London, Jan 15.—The resignation of the Hungarian cabinet on account of failure to obtain necessary support for the military program, is reported in a Budapest dispatch to Copenhagen, forwarded by the Exchange Telegraph company. A decided movement for peace and cessation of war has been started by the anti-military party.

Huns Blame Russians For Peace Delay.

Amsterdam, Jan 15.—Great dissatisfaction is expressed by the German newspapers at the slow progress of the peace negotiations at Brest-Litovsk and the Russians are charged with prolonging them deliberately. This delay is affecting the negotiations in progress at Petrograd where according to the Dezer Zeitung of Bremen, the discussion regarding exchange of prisoners has yielded no results thus far.

Most of the newspapers assert Germany will never think of completely evacuating the occupied Russian territory before peace has been brought about on all fronts.

Militarists and Political Parties Get Together.

London, Jan 15.—Apparently an agreement has been reached in Germany between the political and military parties in order to avoid further friction. A Berlin dispatch states that Chancellor von Hertling's plan to acquiesce in the Russian program of no annexations or indemnities and the resort to self-determination of peoples is to prevail in the East and that Field Marshal von Hindenburg will have full liberty in the west in the event of a German victory there to deal with possible annexations. The peace movement in Germany is gaining adherents, according to Count von Reventlow, who has always been a strong pan-Germanist.

The British labor party in its message says that the British people must aid Russia by proclaiming peace aims similar to Russia. It is proposed that the peace conference shall of Arabia, Palestine, Armenia and the Black races of Africa under international control. Self-definition is asserted for India and other British dependencies not already having their own parliaments.

On the western front and in Italy the winter monotony has been broken by spirited actions. German troops have again made one of their fruitless attacks against the French positions northeast of Verdun. While most of the attacking force was driven back by the French fire, some detachments gained advanced elements from which, however, they were thrown out immediately.

East of the Brenne river the Austro-Germans have replied with artillery fire to the daring Italian attack which resulted in the capture of important observation posts at Monte Asolone. The Italians also raided the enemy line east of Monte Asolone and en-

The soldier boy would like to hear from home. Send him The Leader. By the month by mail forty (40) cents. Address changed as often as desired.

People Driven From Town By Great Flood

Boxman, Mont. Jan 14.—Three hundred people, comprising the entire population of the town of Trident, were driven from their homes last night when the waters of the Missouri river were backed up by a huge ice gorge just below the town. A torrent of water five feet deep is flowing through the town and every house in the place is partly submerged.

COMMISSIONERS WILL PUT THEM UP TO STAY PUT

Every taxpayer in Logan county ought to note the fact that, of the eighteen new bridges to be built out of the 1917-18 levy, all but two will have concrete floors, doing away with the everlasting repair bills for broken plank and new decks. The county commissioners are building for the traffic of the future, which means five ton trucks, and a constant line of tourists. The days of the tin bridge and grating county officials have passed. When a bridge goes up in these days, in Logan it will be there for a generation. Steel and concrete will displace the old plank floor and tin-iron girders. Glory be.

INSTEP-SPUR ENABLES

WOMAN TO NAVIGATE

She wasn't young, nor was she exactly old, despite her white hair, as she clanked along down Oklahoma avenue this morning. Behind her stride two Masons, one of them a soldier. The officer got it first. "They're wearing skid chains now, aren't they?" said the Mason. "Maybe they're spurs," replied the military man. Honest to goodness, she was wearing something that made that clackety clack sound as she clanked along the corner near the federal building. She was wearing tin spurs under her tin heels.

HE ESCAPED FROM PRISON IN SNOW STORM

Scaling an 18-foot wall, escaping from the Granite prison in a snow storm, stealing a ride on a freight train and then again evading the officers who were laying in wait, by jumping from the train and stealing a horse, was the performance much movie-like, of Jack Williams, life term man yesterday evening. Williams, a Tulsa jailer, is an athlete, 26 years old and weighs 170 pounds.

LOGAN MUST SELL \$687,940 IN STAMPS

The war-savings stamp campaign in Logan county is under way. The quota Logan must sell amounts to \$687,940.

CEMETERY ROAD WILL BE PUT IN SHAPE

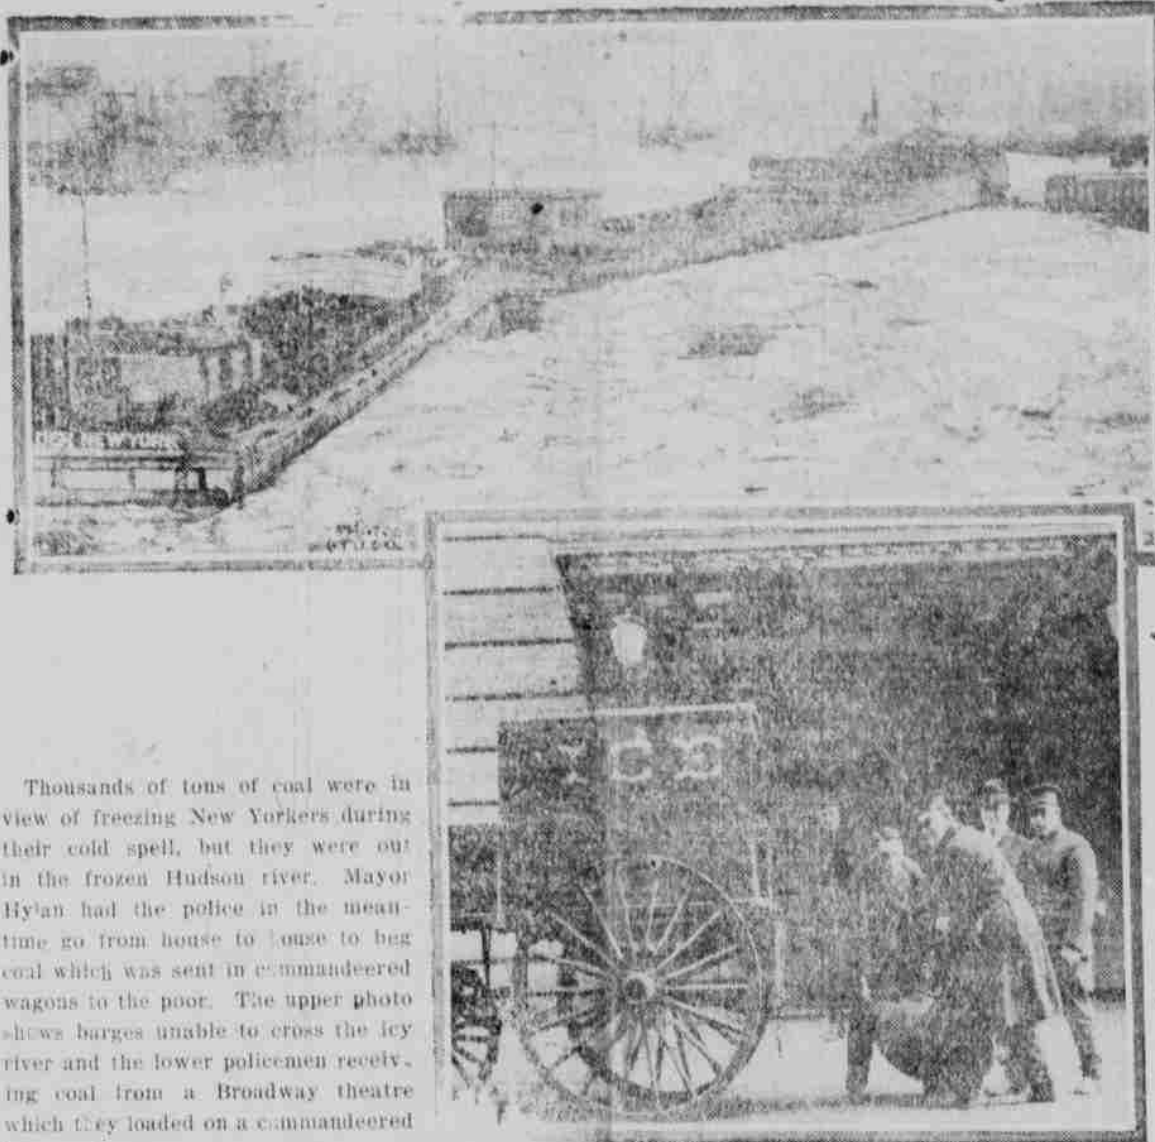

County Engineer, Acting Under County Commissioner Hirsch, Will Remodel Culverts and Widen Roadbed

The subscribers to the fund for the improvement of the Summit View cemetery road will be interested to know that under instructions from Mr. Hirsch chairman of the board of the county commissioners, the county engineer's office will have charge of remodeling the culvert, the fill-over and the approaches thereto. In widening the culvert two large trees will have to be grubbed out of the water course.

Engineer Rankin says the work will be a credit to the city, and that the old timers will not recognize the landscape when it is finished.

Private Marvin O'Neal, Clarita, Ok., died of pneumonia in Thurst, Tuesday, General Pershing reports.

COAL BARGES STALLED WHILE POLICE BEG COAL IN NEW YORK

Thousands of tons of coal were in view of freezing New Yorkers during their cold spell, but they were out in the frozen Hudson river. Mayor Hylan had the police in the meantime go from house to house to beg coal which was sent in commandeered wagons to the poor. The upper photo shows barges unable to cross the icy river and the lower policemen receiving coal from a Broadway theatre which they loaded on a commandeered ice wagon.

ENGAGING ARTISTS PLEASE AT TEMPLE AND CHURCH

Scottish Rite Visitors Given Variety Of Intellectual Treats; College Girls Make Local Hit

The entertainment committee at the Temple reunion has provided exceptionally clever programs for the celebration of the Scottish Rite class, visitors and ladies.

At the M E church Tuesday afternoon, Herbert Krumpholtz, the blind musician, furnished a varied program of numbers. Krumpholtz is a master artist. Miss Ethel Douglas played the accompaniments acceptably. Mrs. J. W. Perry showed strong as a soloist. She has a remarkably sweet voice of wide range. Miss Mildred Lucas played the accompaniments.

The Samoloff company of musical artists held forth at the church at night and were rapturously received by a crowded house. During the same hours at the Temple the young lady student of the Oklahoma College for Women of Chickasha gave a varied and unique program of musical numbers, readings, etc. The ladies were under the direction of President G. A. Austin of the college. That the young ladies are talented and versatile is beyond question. The majority are fully capable of holding their own on the professional lyceum. Chickasha may well feel proud of its college and its product. The audience was enthusiastic in its reception of the college girls.

The United States Geological Survey has estimated the amount of rock phosphate in the known deposits in Idaho, Utah, Wyoming and Montana at nearly 5,500,000,000 tons.

VEIL DRAWN ON CROIX SCENES AT RITE TEMPLE

CLASS SEES SPLENDOR OF PERSIAN COURT; WHILE CANDIDATES WORK VISITORS ARE DIVERTED

Wednesday Night First M E church, 8; Oklahoma A & M College band, Stillwater; Bob Makovsky, director; assisted by Marie Wells.

Wednesday Night, Masonic Temple, 8; Francis Nash and company and Doris Jordan, entertainer.

Thursday Afternoon, First M E church, 2:30; Doris Jordan, entertainer.

Thursday Night, Temple S J C Hubbard, reader; Edwin V. McIntyre, organist.

Temple, 9; Ball, Davis Orchestra.

PATRIOTIC FARM CENSUS WILL BE TAKEN SOON

Enoch Carter of State Council Of Defense, Is Sending Out Appeals To Farmers To Preserve Seed Corn

Enoch Carter, county assessor, and member of the state council of defense, is busy today sending out circular letters to the farmers of Logan county urging them to conserve the seed corn for use in the county.

In order to get much information about farmers in the state the State Council of Defense has undertaken the work of taking a patriotic census of the farmers of the state and in order to do the work, the council has asked county assessors to assist in the work. The census is to be taken at the time the work of assessing property is being made. Mr. Carter said today, that he would ask the county council of defense to aid in the work by assigning certain members to assist in the various districts.

In compiling the data desired by the state council of defense, the name of every farmer in the county will be taken, his place of residence, whether he is an owner or a renter, size of each farm, acres in cultivation, acreage of each crop to be planted this year, amount of labor each farmer will require, when he will need labor and other information. It is the intention of the state council of defense to induce farmers to double the size of the food crops the coming season.

Charles Brewer, a former Guthrie boy, now a banker of Clinton, is attending the reunion and visiting his old time Guthrie friends.

Latest Less-Less May Be Joy Riderless Days; Oil Administrator Likely Will Issue Licenses and Keep Close Tab

Zounds! It's heart-breaking but nevertheless it may be true. Joy riding may be in the same class with the less-lesser. It may be tabooed.

It went pretty hard with several when the restaurants and hotels took steak and pork off the bill of fares on Tuesdays and it was rather a jolt when the eating house men were called upon to Hooverize one day a week Wednesdays, and serve no wheat bread.

But now comes the blow that will surely be the sting to kill joy. If the oil administrator resorts to it and there is every indication that he will.

Just think what a shame it would be if you were allowed only a couple of hundred gallons of gasoline or such a matter every two weeks or a month.

Just think of the many joy rides that would have to be taken from the program. Think what an awful thing it would be if you had to patronize the street car to attend a card party or dinner downtown. Wouldn't that be awful?

Going without meat on Tuesdays

has not been so bad, and the wheat-less Wednesdays don't seem to bother any more that war bread is about all that is being baked, and the clothesless days are not limited to any one day a week except when it is awfully cold, but for the cruel oil administrator to come along and make a joy rideless day, that's the limit.

It is freely predicted that this is just what the oil administrator will do. It is the general belief that the man who sells gasoline and oil will be placed under the license system the same as the fuel dealers who can sell only a certain amount of coal and the grocers who can sell only a limited amount of food stuff.

Under this plan the gasoline station will be licensed as the rest and will be allowed to sell only so much gas in a certain length of time to every car owner.

To work out this plan every car owner would be given a card entitling him to say 100 gallons, of gasoline every two weeks. Each time he gets a new stock his card would be punched, and when he used all the card entitling him to have he would be issued another card—if the government thought he ought to have it.

Here's where the hitch might come. The government might not think the car owner ought to have another card if he was using gas for joy riding and it is just this feature that the government is trying to get at by naming an oil administrator.

As everyone knows the demand for oil has greatly increased during the past two years and will continue to increase. To meet this demand the government figures that it must save, and joy riding is not saving.

It looks like the joy riding would get a bump alright.

New Orleans, La. Jan 16.—Tonight, generally fair. Thursday probably fair, somewhat colder.

ITALIANS ROUT HUNS IN THREE FIERCE BATTLES IN HEAVY SNOW

Soldiers in Guard House Freeze to Death

San Antonio, Jan 16.—During the blizzard here last night four troopers died from the extreme cold. Two of the dead men were in the guard house; the other two were standing guard outside. It is alleged that many of the soldiers sustained frozen ears, feet and hands on account of the scarcity of clothing, fuel and bed covering.

LARGER TEMPLE ROOM AN INSISTENT DEMAND

"Too much stress can not be placed on the necessity for enlarging the Scottish Rite temple," said a Knight of Kadosh, Wednesday. "The present class shows the incapacity of the building. I am sorry to say we have pullbacks who do not wish to see improvements. However, if we don't get busy, we may suffer. The temple finances are in good shape. There is nearly a hundred thousand dollars, idle consistency money in the banks, all bonds are paid, and the present class will bring in \$50,000. So I say let's build at once."

ANOTHER GUTHRIE BOY DIES IN ARMY CAMP

Jesse N. Jackson, Guthrie boy, who enlisted in the aviation wing of the army three months ago died at the base hospital, Ft. Sam Houston, San Antonio, Texas, Tuesday night, of pneumonia after an illness of two weeks. Before joining the colors he was a trusted employee of the Furrow company of this city. His parents reside at 305 East Warner avenue. C. L. Jackson, a brother left this morning for Ft. Sam Houston and will accompany the remains back to the city. Funeral arrangements later.

SAYS GUTHRIE HASN'T RESPONDED TO APPEAL

Mayor Hartman has received a letter from John N. Willys, chairman of the war camp community recreation fund, in which he says:

"Your town is one of the few that have not yet responded to the one patriotic call, which touches more vitally the health and safety of her own boys in camp, than any other appeal yet made to the American people on account of the war."

Willys adds that the "conditions surrounding the camps are unimproved."

A recreation fund subscription list was started in Guthrie shortly after the "Y" fund was completed.

SNOW SHOVELERS KILLED BY TRAIN

Chicago, Jan 15.—Three men were killed and one seriously injured yesterday when a train on the Chicago & Northwestern railroad ran into a crowd of snow shovelers in the western section of the city.

WOMEN'S SHOES CUT DOWN TO NINE INCHES

Leather Supply Of Nation Must Be Conserved Is Decree Of Shoe Manufacturers Convention

Associated Press.

New York, Jan 16.—In order that the nation's leather supply may be conserved as much as possible lower boots for women have been decreed by the National Boot and Shoe Manufacturers' association, which concluded its annual convention here today. The height of women's shoes next fall will not exceed nine inches above the heels, with the possibility of another cut of half an inch if further saving becomes necessary.

The association has also decided to limit the colors this year. Women's shoes will be made only in black and white, two shades of tan, two shades of gray. Men's shoes will be made in black and two shades of tan.

POSITIONS HELD BY TEUTONS ON LOWER PLAVE, MONTE ASOLONE RETAKEN BY ROMANS AFTER BLOODY BATTLES

GUNS, AMMUNITION AND MEN ARE CAPTURED

SURPRISE ATTACK ON CREST OF MOUNTAIN NETS A WHOLE BATTALION OF ENEMY PRISONERS CAPTURED BY ITALIANS

Associated Press.

Italian Headquarters in Northern Italy, Jan 16.—The action east of the Frenta river yesterday, in which the Italians inflicted heavy losses on the enemy and captured several hundred prisoners and a large amount of war material, began late in the afternoon and was carried out by infantry. It was directed chiefly against Monte Asolone, where the enemy boldly had set up observation posts overlooking the San Lorenzo valley and the Venetian plain leading down to Bassano.

From these heights the enemy looked by his position on Monte Peretta and Caprivale, was a continual sea and Caprivale, was a continual menace, his guns following a range of a considerable distance down the valley and over the plain.

The cannonade began toward noon with the Italian batteries being seconded ably by French artillery on their right, a heavy fog screened the movement as the infantry was ordered to advance. It moved straight up to the slope of Monte Asolone through snow, mud and slush. The enemy artillery fire grew intense as the advance proceeded. There was no halt until the positions on Monte Asolone were reached and the enemy advance posts, where observations had been conducted, were swept away. Along the whole line the Italians gained a foothold.

Under the concentrated fire of the enemy lines they later were withdrawn slightly after laying waste the enemy works. Austrian forces attempted a number of counter movements without success. The struggle around Monte Asolone continues but one of the main objects already has been accomplished, that of dislodging the enemy from his works, to say nothing of the prisoners and material taken.

About the same time an incursion into the enemy trenches was made further east around Monte Solorolo, where more prisoners and material was captured.

The third bloody fight occurred on the lower Plave, where the Italians enlarged their positions between the Plave and Sile rivers and beat back a counter-attack with heavy losses.

An officer who has just returned from Monte Asolone says that the enemy there made his chief resistance with machine guns and did not have time to bring any considerable force of infantry into action. When the Italians first reached the crest they found all the enemy soldiers in their winter quarters in log barracks. A large part of one battalion, including one major and two captains, was captured in one of these buildings.

SAYS CROSS HAS WIFE AND KIDNIES

The Leader recently published a letter from Perry Cross, Guthrie boy in the navy. Cross said he was ill. The elvie branch of the Red Cross took up the matter and has received a letter from the father-in-law of Cross, who lives in Kingfisher county. The letter says Cross has a wife and two children unprovided for.
