What is a Mule?

A queer customs ruling relates to that noble animal, the mule. An American contractor took some mules into Mexico for use upon some construction work there, and upon the completion of the contract brought the mules back to Texas. The customs officials insisted upon his paying duty, but the contractor claimed free entry for the mules as "articles of American growth returned without being advanced in value." The officials declared, however, that the board of appraisers has sustained them, that mules are not "articles." What, then, are they? If they are persons, they are certainly entitled to come back home. Since the decision that a hen is not a bird, the customs service has got its natural history fearful and wonderfully mixed.

When we commenced business 16 months ago other grocerymen said our manager did not know enough to run a successful business, etc.!!!

We must confess that we do not know what to do. People come in such great numbers and our room is small and many of our BEST customers do not get proper attention. We hope they will forgive us and give us another chance to make good.

We have NO ill will toward any merchant in Tulsa and we can see no REASON why any one should always be HOWLING at us. This is a FREE country and we should have a right to buy as we please and also have a right to SELL as we please. Regardless of what others say or do. Our SYSTEM is DIFFERENT. We buy in carload lots and pay cash. We buy for less. We do not credit—We lose nothing. We do not deliver. We save the expense of keeping up AUTOMOBILES and TEAMS. We CAN sell for less and we DO sell for less.

We buy our flour DIRECT from the best mills in Kansas. We SAVE the JOBBERS profits and sell direct to the consumer for LESS than other grocerymen have to pay the jobbers for their flour. We sell a carload of flour each week. Our flour is BETTER than Polar Bear, Pride of Perry, North Pole and Main Line. It must be as good as Red Star or bring it back. We sell more groceries than any other store in Tulsa. Come and see for yourselves. Our stock is NEW and CLEAN, and the best in the city and why should a competitor LIE about our stock when so many people who trade with us know the falsity of his statements. You must be pleased with everything you buy of us or your money back. People are coming for miles to see our store and when they see the NEWEST and CLEANEST stock of groceries in Tulsa they are delighted and say they can NOW understand why so many LIES have been published and TOLD about the Trader's.

Read the TULSA STAR

A high-class residence district is the latest thing promised the citizens of the East End in the opening of a new addition to Tulsa, which will be known as the Lincoln Addition. The land lies just north of the city limits on Greenwood and is an ideal place for a residence district. The Sand Springs car line runs along side of the new addition, and when Greenwood is paved some time in the near future, according to information from Commissioner Downing's department, the land will be only 300 or 400 feet from paved streets. There is a great demand in Tulsa at the present time for homes and a grand rush for lots is anticipated when Lincoln Addition is opened, which will be in a week or ten days.

"Where'd you get the news?"
"I saw it in the STAR, ofcourse!!"
