## THE BIRTH OF "THE CHRIST"

It is well for us to have a clear understanding between the terms, "The Man Christ Jesus," and "The Christ." The Christ is a body composed of many members (141,001). The Man Christ Jesus is the head of that body. All who consecrate themselves to do the will of the Lord at any cost, even unto death, are members of the body of "The Christ." According to God's plan a period more than 1800 years (the Gospel Age) has been designated as the time for the birth of "The Christ," head and body. Do you know that the Gospel Age is about closed and that it is about time for the full birth of "The Christ," head and body, on the Spirit plain? Do you know that the head Christ Jesus was born at the beginning of the Gospel Age and that the feet and last members will be born at the close of the Gospel Age? Do you know that the duty of every member of the body of Christ is to explain God's plan as is revealed in his word, the Bible; point out the errors of the world and give plain warnings as to the punishments that are sure to follow disobedience? Do you know that every persecution of a consecrated Christian is a persecution of Christ in the flesh? Do you know that Pastor Russell's interpretations of the prophecies of the Bible, more than 25 years ago, as to what would take place in these days, are transpiring in these very hours? Is it good sense to claim that such an one was not a true servant of God? Do you know that God's great blessings and the desire of all nations will not come until "The Christ Head and Body" is born on the Spirit plain? Do you know that every true International Bible Student is a true friend of the world of mankind and that their whole life is one of prayer and sacrifice on bended knees before the throne of God, asking that the poor world be soon cured of its deadly maladies of war, sickness, sorrow, pain and death? Do you know that all the Holy Prophets of old, the Lord Jesus and the Apostles sealed their faithfulness to the will of Jehovah by their death? Do you know that every true International Bible Student is a feet member of the body of "The Christ" and that they have long known that a dark hour of their Gethsemane, through false accusation, awaited the ending of their work here on earth the same as did their Lord and Head, Jesus? Do you know that the question as to how, when and where the feet members of "The Christ" will reach their Gethsemane to be born on the Spirit plain with their head and Lord is not a matter of concern to them, but is left with their Lord, and that they must fulfill their consecration vow and be faithful to the will of the Lord, even unto death.

## OFFICIAL FOOD NEWS OF FEDERAL FOOD ADMINISTRATION

FLOYD E. MILLER  
Public Information Director  
Norman, Oklahoma

### OKLAHOMANS SHARE FLOUR WITH ALLIES

Reports from various parts of the state to State Food Administration headquarters reveal the fact that Oklahomans are sharing their flour with the soldiers and the allies who are fighting the battles of this country as well as those of their own.

### BIG HOTELS BAN WHEAT

The big hotels of the county have pledged themselves to use no wheat products of any kind until September 1st. They have wiped wheat products from their menus until wheat is plentiful. This is the proper spirit. In Germany the rich are permitted to evade the food rules, while the poor suffer. But in France and England the wealthier classes are taking the lead in sacrifice, and America is following the examples of her allies. The large hotels in England and France serve the poorest meals. In Germany, they serve the best.

### GRAIN RULES HAVE TEETH

A zone enforcement bureau has been established with headquarters at Kansas City. This organization will have power to detect and punish all violations of the grain rules regulating wheat and other cereals from the time they are marketed until the products reach the retailer. All evidence will hereafter be sent to Kansas City instead of to Washington. A vigorous policy against dishonest practices and careless dealers is to be inaugurated, and punishment will follow much more rapidly hereafter.

### MUCH FLOUR RETURNED

Beaver County reports that 1,504 sacks of flour have been returned by people who had a surplus, and that this amount was at the command of the government at the price to be fixed by it. Pittsburg County is yielding up its surplus flour, and it is stated that the merchants at McAlester are almost unable to take care of the returned flour.

### HOME GUARDS ACT

In Cleveland County several Germans were holding excess wheat. Home guards accompanied the county food administrator to the farmer's homes, and impressed them with the idea that hoarding wheat is disloyalty, and that all disloyalty would be stamped out. Much wheat has been marketed in Cleveland County.

### FARMERS SELLING WHEAT

Many counties on the west side of the state that farmers are hauling in their wheat in excess of seed in response to the call of the government. Grant County reports that much wheat has been marketed, and that more is being marketed as the necessity for doing so is understood by the farmers.

### RICH SACRIFICE MOST

The food program in this county call for sacrifice, but it begins with the wealthy classes. People of wealth have the means to buy the foods that they are asked to save. Mr. Hoover has told the people of means that if food conservation is to be a success the wealthier classes must adopt and live up to the rules first.

### FOOD BRIEFS

The citizens of Grimes County, Texas, have turned over to the United States Food Administration all its wheat flour and will therefore use no wheat flour until after the next harvest. Cars are carrying the flour to the coast, from which it will be shipped to the allies and soldiers.

A pro-German is a person who eats no substitutes; whose heart is in Germany, whose head is in America, and whose neck —?

Sebastian County, Arkansas, has returned 2,350 barrels of flour in response to the call of the Food Administration.

Don't spill the beans by refusing to eat them.

America is the granary of four-fifths of the world. We must not let it be come empty.

Potatoes, beans and onion will keep. Plant more.

Oklahoma will be better off when the war ends. She will have less rabbits, less bugs, less dogs, less cats, and more health.

Insurance companies state that their losses in Germany during the first two years of war were less than during the two years preceding. Proper dieting is given as the cause of less deaths.

Be healthy, patriotic, wise—eat substitutes.

Six pounds of flour, and three of sugar per person per month is the new ration. But think of the rations of the people who are enduring the horrors of war. And think of all the other things we have to eat.

The ban on meats is off till April 30.
