He is at present principal of the Colored schools of Helena and has been connected with schools in several Arkansas towns, including Hot Springs, Texarkana and Forest City.

### WELDON JOHNSON CHALLENGES GOVERNMENT'S VERACITY

He Points Out That U. S. Officials Seek to Hide Facts of Invasion of Little Republic of Haiti

(A. N. P. Service)

New York, N. Y., Oct. 8.—James Weldon Johnson, Acting Secretary of the National Association for the Advancement of Colored People which sent him to Haiti to make an investigation and whose charges against the American occupation in the black republic have brought about an investigation by the United States Navy Department, is a statement challenged the methods which he asserted the Government had employed in Haiti.

"If the Navy Department will inform the Americas people whether a strict censorship still prevails on news from Haiti," said Mr. Johnson, "we shall better be able to estimate the reports of General Lejeune and Admiral Knapp when they are made. So far as I know no opening of the closed door on news from Haiti has yet taken place.

"Meanwhile the Administration sends to make a report to the American people on the conduct of Marines in Haiti, the commander of these Marines, General Lejeune, an Admiral of the Navy Department which stands accused of making Haiti unsafe for Democracy. It looks suspiciously like an attempt at an official whitewashing before Congress assemblies. The statement that Admiral Knapp was sent to Haiti more as a representative of the State than of the Navy Department is obviously an attempt to gloss over the facts.

"It should be borne in mind that there has yet been no official denial of the charges made against the Administration by Herbert W. Seligman, who was in Haiti at the

time I was, and by myself, both Mr. Seligman and myself writing in the Nation. Although a number of newspapers demanded explanations from the Navy Department, no word was published in denial or extenuation until Senator Harding reiterated them. The Secretary of the Navy is reported to have characterized as 'unjust' the statement that thousands of natives in Haiti have been slaughtered. Will he dare say it is untrue? Or will he rather attempt to characterize the people who were shot down as bandits—men who were defending their country against armed invaders—men who were defending their country against armed invasion? "There has been ample time since the charges were originally made against the Administrations and the National City Banks invasion if Haiti for some word about those charges to come from Haiti. So far as I know no newspaper in this country has published any news or any communication from Haiti. "We do not need an investigation by officers subject to the present Administration so much as we need direct and open communication, openly arrived at between the Haitian people and the American people. Then it will appear who were bandits in Haiti. Officials of the National City Bank declined in any way the alleged controversy between that institution and the Government of the Republic of Haiti. Roger L. Farham, Vice-President of the Bank, reported to be in charge of its affairs in Haiti, is out of town on vacation, it was said, and John H. Fulton, General Executive Manager sent word to newspaper men that he had nothing to say.

### KNOCKING THE "COLOR" OUT OF COLORED

Maybe, Then Crimes May Not Appear So Heinous in the Headlines

(A. N. P. Service)

Chicago, Oct. 8.—In a recent gathering of the civics committee of the Appomattox Club of Chicago, one of the strong points emphasized was the injustice of laboring every criminal story in which a Race man is implicated with the "badge of color." Evidence was produced which showed that great harm is done, and that constant reference to race in such matters served to increase race feeling and prejudice.

It was shown that in many cases such stories were written with "malice aforethought" by prejudiced reporters, and frequently without the knowledge and against the policy of the owners of the newspapers.

Nahum Daniel Brascher, editor in chief of the Associated Negro Press in his address dwelt at length on these facts, and gave concrete examples of two of the greatest dailies in the country that have adopted the policy with beneficial results. The two newspapers are the Cleveland Plain Dealer and the Cleveland Press of Cleveland, Ohio.

As a result of this conference, at least one of the great dailies of Chicago has adopted the policy. The Chicago American, which is one of the largest evening newspapers in the country is the paper. In the recent account of the attempt to lynch three of our men because of the killing of street car conductor, where columns of the first page were made, The Chicago American did not at any time refer to race in the stories it carried.

### A MAN'S CHANCE AMONG MEN

Thinking men and women; working men and women; law abiding men and women with their families and friends are going to Mexico. Not because Mexico offers to set aside a corner for them nor do these Colored people who go there wish any such thing, but because it is an honest country, where law is law and a man is a man, and color is no handicap.

Colored Americans are becoming members of the Pan-American Development Association because it is making it possible through its knowledge, privileges and general activities to lift our lowly colored brothers above a life of oppression through race prejudice and denied common comfort and privileges through segregation.

The Pan-American Development Association will bring a smile to your countenance with no artificial backing; freedom to your mind and body, and success to your honest efforts to be men among men.

Get in touch with this association that will mean so much to your future. You owe it to yourself; you owe it to your family; you owe it to your children and unborn generations.

Stop and write them a line that you may make a sure step forward piness. See this ad elsewhere in this paper.

# A GREAT FINANCIAL Opportunity

## First Come! First Served!

Would you like to rent, lease or buy a two-story twenty-room, fifteen thousand dollar bungalow at Idabel, the most rapidly growing County seat in South-East Oklahoma? The building is located within two blocks from the Frisco Station, an ideal location for a first class hotel and there is no greater demand for such an enterprise at any place than there is at Idabel. Electric lights are installed in each room in the building and connection for indoor tones and radio-phony was made with the sewerage system in July. In short, the building is modern in every phase and represents the best constructed and most commodious frame building in McCurtain County. As a hotel, and restaurant, this building, at its present location, will serve any one knowing how to conduct such a business as a veritable mint—an unlimited opportunity to make money, and there is absolutely no competition.

Idabel has recently installed a modern sewerage system. A fine \$150,000 Courthouse was completed in August and a Government building and ice plant are to be erected soon. Among the Colored people there are four churches, a fine school, a picture theatre, store and a \$40,000 gm. hotel above occupying the central place.

The conditions of this proposition are as follows: rent \$75.00 (1st three months in advance); each following in advance.

5 YEAR LEASE, \$3,000—payable in advance.

SALE, \$9,500—\$4,500 cash. Balance on terms to suit purchaser. A Sale is preferable.

It is guaranteed that this building cannot be duplicated anywhere for less than \$15,000.

Any one wishing to consider this proposition will see Prof. A. M. Solone at Booker Washington High School or 841 North Burnett St., Tulsa, Okla.

There are six other rent houses for sale on same and adjoining blocks. See Prof. Solone.
