OKLAHOMA CITY

At a meeting held in Independence Hall at Philadelphia when George Washington was President of the United States, the

Insurance Company of North America

was organized. Beginning with a capital of \$600,000, an almost chronologically perfect advancement has been made until today, when the foundations of world-wide credits are shaken by wars, panics or conflagrations.

The Old North America

stands a monument of strength, with its capital of \$1,000,000, a net surplus of \$4,000,000, a contingent fund of \$875,680.69 and total assets of over

EIGHTEEN MILLIONS of DOLLARS

HENRY LUDLOW, State Agent

PIONEERS AND BOOSTERS

The SPRINGFIELD established their first Agency in what is now the State of Oklahoma at Muskogee in APRIL, 1888, and has been continuously doing business in the State since that time. As the State progressed in improvements, the Agency plant was extended to keep pace with such improvements, and give to the pioneers protection on their investments.

During the time the SPRINGFIELD has been doing business in Oklahoma, it has paid in losses on Oklahoma properties, the sum of \$1,068,868.72, which shows it has been SOME BOOSTER.

The Springfield has Agents in nearly all the towns of the State. They are good men to talk to about insurance. If not represented in your town, write to the State Agent for an agency.

PIONEERS AND BOOSTERS ALWAYS.
