UPON A THOUSAND HILLS.

How the Dakota Millionaire Cattle Dealer Came by His Title.

(Denver Times.) The most reliable of our ancient chroniclers, an old citizen and the representative of the oldest Creek family...

The testimony of our old friend, the most accurate of our local and traditional characters...

TEXAS WOOL IN BOSTON.

Special Correspondence Texas Wool Grower.

To go to the mounds of the market at this time, one would hardly realize there was such a thing as Texas wool...

The market was reported as a very quiet and prices unchanged. The full sales of wool for the past week...

Referring once more to small and undesirable clips of wool and having the true interest of the grower in mind...

But in regard to desirable clips, where pains have been taken to produce wool of good and uniform character...

The expense of the local buyer, either for the Texas speculator or Eastern dealer...

The ultimate value of wool whether sold in Texas or afterwards in Boston...

In one individual year he may strike a falling market and would have done better to sell at home...
