

## ON CHANGE.

Stock Market Tended to Lower  
Cotton was Higher—  
Provisions were Firm.

Stock Markets were Weak Yesterday  
Records a Fractional Decline—The Quotations.

## FINANCIAL.

YORK, Feb. 18.—Governments  
and business quiet.

Securities firm and a good busi-

ness reported by dealers.

Course of the stock market dur-

ing the past two days has been such

and downward. Many of the

stocks in Wall street are drifting to

and listless side. At the open

day prices were only slightly

off from the final quotations of

the day, and in the first half-hour

were fractional declines. In

Union Pacific, Western Union,

and Pacific and Lackawanna were

firm.

Half o'clock renewed strength

was infused into the dealings, in

New York Central, Lake Shore

and Lackawanna took the most prom-

inent and during the next hour

the prices of the day were

in New York Central, gaining 1/2

per cent. last evening and Lake

Shore, 1/2 per cent.

Lackawanna also

in the lowest price of the morn-

ing to 91/2, but had lost so

early dealing that it was but

half the closing yesterday.

Pacific which opened 1 higher

closed 1/2 to 74, was only able to

get its early loss, while Western

and Northwestern and St Paul

comparatively steady with gains

of 1/2 to 1/2.

In the afternoon the strongest

but considerable portion of the

whole market drifted

to dullness and this con-

tinued until material change until

the close of the board. The notable

news was New Jersey Central,

which was strong all day, opening at

3/2 to 37/8 from which

it steadily rose to 39/8 and

at 39 on somewhat

transactions than usual Lou-

is Nashville rose from 27 to

getting its highest prices late in

the day. It closed at 38/8 a net

with sales of 20,453 shares,

strength and activity in this

was accompanied by a statement

that no new listing was being formed

up the price.

Market closed steady with Lack

lower at 38. New York

closed 1 higher at 94. Lake

Shore at 74; Manhattan

closed 1 higher at 74. Other

markets were smaller fractions ex-

cept Central Pacific which is up 1/2

at 51.
