PREVENTIVE**Of Typho-Malaria and Cure for Rheumatism at Last Discovered**

By the firm of Hughes Bros., manufacturing chemists of Dallas, Tex. This company have for the last five years been engaged in the manufacture of baking powders, wines, elder, vinegar, etc.

Dr. F. E. Hughes, who presides over their laboratory, has for the last forty years been engaged in the study and practice of medicine and chemistry. They also have in their laboratory Prof. Geo. C. Calhoun, who has for many years been a teacher of chemistry, also Mr. J. Price Warick, a graduate of chemistry in the University of Philadelphia. These gentlemen in manufacturing the various articles already mentioned have found it necessary to combat excessive fermentations, whether venous, actions or alcoholic, which have ever stood in the way of successfully manufacturing wine, vinegar and alcohol in our Southern climate. The experiments have resulted in the discovery of an agent which completely obviates the difficulty. This agent is the extract of the bark of a tree indigenous to the state of Texas. Carrying their experiments still further, they have ascertained that this same extract as completely controls the only remaining fermentation known to the arts and sciences, viz. Blood fermentation, which is the cause of typhus as well as rheumatism. This agent they have combined with the extracts of ginger and lemon, thereby rendering it a most efficacious as well as delightful and palatable beverage. It is not only one of the best tonics in its effects, but the use of it effectively prevents typho-malarial fever. At the same time, it is a sure cure for rheumatism. Dr. Hughes' Extract of Lemon and Ginger is put up in cases of two dozen bottles, and can be found at all first-class drug and grocery stores.

MARSHALL, Tex., Aug. 8.—There is more trouble brewing between the railway companies why the railroads refuse to make reductions in fare or cut rates to the reunion. To all other large gatherings or parades there are cut rates, but to the old soldiers there is no such courtesy extended. There are a great many in this portion of the state who would have gone to your city if they could have had such politeness extended to them.
