PREVENTIVE OF Typho-Malarial Fever and Cure for Rheumatism at Last Discovered.

By the firm of Hughes Bros., manufacturing chemists of Dallas, Tex. This enterprising firm have for the last five years been engaged in the manufacture of baking powders, wines, cider, vinegar, etc.

Dr. F. E. Hughes, who presides over their laboratory, has for the last forty years been engaged in the study and practice of medicine and chemistry.

The town is improving in the way of buildings going up here and there. Our merchants are receiving tremendous stocks of goods and preparing for the best business we have had for years.

BRECKENRIDGE. BRECKENRIDGE, TEX., Aug. 28.—The meeting at the arbor by Eld. A. Clark, of the Christian church, was well attended all this week.

There was never a larger audience assembled in this county than the one at the opera hall Thursday night to hear the temperance lecture by Elder Clark, which was the finest argument we ever heard.

Quite a number of our citizens have the San Diego fever, and some of them are making arrangements to move. They have recently sent very flattering reports from that country of what one man can do on a five-acre farm, etc.

Landreth's Turnip Seed, The very best, at Waterhouses'. Fort Worth Business College

Will open next Monday, August 31, with a full corps of teachers. Business, English, short-hand and type-writing. Patrons are requested to make arrangements for entering pupils as early as possible.

Persons out of the city may address F. P. PIERCE, President.

STATE NEWS.

Doings and Happenings of the Day—Occurrences for Week or Two.

Gatherings from Over the State Reported Specially for the Gazette by Special Reporters.

LIBERTY HILL. Special to the Gazette. LIBERTY HILL, TEX., Aug. 30.—I am pleased to hear THE GAZETTE is now ready to come to the front.

The Liberty college of this city will open September 7 with 200 pupils. The health of this vicinity is very good.

PERRY. Correspondence of the Gazette. PERRY, TEX., Aug. 28.—The barn of Rev. Von Schluembach was burned last night.

Opinion is divided as to whether it was the work of an incendiary. The loss included farming machinery, implements and tools, amounting in all to some \$1500.

Insured for \$500. The wind was at the time of the fire blowing directly toward the house, and the energy and perseverance of a large force was all that saved this valuable building from destruction.

Recent showers. Cotton picking in earnest. Business and trade is reviving generally.

ANSON. Correspondence of the Gazette. ANSON, TEX., Aug. 28.—On last Monday a young man by the name of Green, working on the Horseshoe ranch, in Stone-wall county, while running his horse after a cow, let the horse fall with him, and it is thought fatally injured him, as at last accounts the blood was running out at his ears, mouth and nose.

Our county is full of people, prospecting for new honors. Many of them are buying land.

STEPHENVILLE. Correspondence of the Gazette. STEPHENVILLE, TEX., Aug. 28.—A local-option and hog law election has been ordered by our commissioner's court on the 14th of September next, and both questions are red hot.

You can't turn a corner on one street but that you come face to face with crowds in heated debate advocating or defending either the hog law or local-option.

A few on either side of both these questions are sanguine, but many say "the thing is mixed." No time this side September 14th or anything save the ballot box will decide either of these exciting questions here.

The local-option party has many speakers in the field.

MINNEOLA. Special to the Gazette. MINNEOLA, TEX., Aug. 30.—The people of Mineola are proud to see THE GAZETTE again offered for sale on our streets.

Proud, not only because we have the pleasure of perusing its interesting pages, but because its editor has risen above and surmounted the difficulties and embarrassments that beset his paper, thus fully demonstrating that pluck and enterprise will accomplish wonderful things.

Mineola is getting on a first-class boom. She has built bridges from 100 yards to two miles in length, and from \$500 to \$14,000 in value, in every direction from the town, and the contract for another, one mile long, above high water mark across Sabine, at Crockett's Bluff, has just been let to Mr. Ben J. Harris, to be completed in thirty days.

All these enterprises have been accomplished by the citizens of Mineola under the most adverse circumstances, brought about by the cut rates in freights, heretofore enjoyed by Tyler, having shipped cotton for three years past for \$2 per bale less than Mineola, but we are happy to say now since the railroads have pooled freight rates, thus placing Mineola on an equal basis with Tyler, that we will again enjoy our legitimate trade and receive as much cotton, if not more, than Tyler.

The town is improving in the way of buildings going up here and there. Our merchants are receiving tremendous stocks of goods and preparing for the best business we have had for years.

WACO. The Pastors of the Churches Pleading Local Option. Special to the Gazette.

WACO, TEX., Aug. 30.—Everything and everybody is cocked and primed for the local option election to-morrow. It is predicted the city vote will be by far the largest ever cast. Very little excitement is manifest to-day, because the Sunday law closes the saloons, but both sides have worked indefatigably.

In several city churches to-day the pastors alluded to the election and invoked their hearers to vote the prohibition ticket to-morrow.

At the First Baptist church to-night the announcement that Rev. Dr. Carroll would preach on prohibition drew an audience of over twelve hundred people. His effort was largely in the nature of a reply to United States Senator Coke's anti-prohibition speech yesterday.

At the churches in the rural districts, also, pastors brought up the subject, making earnest appeals to their flocks to vote for local option.

Best information obtainable to-day leads to the belief that local option will be defeated, although it is conceded the majority against it will be small. The canvass, though brief, has been the most bitter and heated ever known, and everybody will be glad when the election is over.

Malaria prevented and thoroughly eradicated by Duffy's Pure Malt Whisky. Recommended by leading physicians. Sold by druggists and grocers.

BELLVUE. Special to the Gazette. BELLVUE, TEX., Aug. 30.—The Magdalena Cattle company shipped three train-loads of stock cattle from this station yesterday.

The Fort Worth & Denver is putting in a coal chute near the big tank.

Wanted. One or two good-sized young horses. Must be well broken to double and single harness. Apply to Turner & McClure.

SNYDER. Correspondence of the Gazette. SNYDER, TEX., Aug. 28.—Fires have been out south of town during the past week, burning several thousand acres of grass. Also in the western part of Garza and the eastern part of Lynn, making sad

havoc of a new cattle company's fencing outfit. The burning in this county is thought to be carelessness, but the other is charged to an incendiary, though it seems there is no clue to the perpetrator.

A gentleman of Epworth reports a fine herd of buffalo in those parts. Also another herd near Estacado.

The citizens of Crosby county are thinking of organizing in the near future. It is a very rich county, and has more farmers in it than any county west of Jones county. Also the home of the Siffings' celebrated "Crosby County Clarion and Farmers' Viadicator." The farmers in this county will, it is estimated, make more corn this year than they will be able to consume by several thousand bushels. Water facilities for milling, and so forth, are the best in Western Texas. The future indeed is bright for the county.

We have the best graded and drilled school in the state, backed by a corps of classical, go-ahead, live teachers. A protracted meeting begins here to-morrow by Brother Moore of Sweetwater, (Baptist.)

EAGLE PASS. Correspondence of the Gazette. EAGLE PASS, TEX., Aug. 28.—Mr. P. H. Dillon, one of our most talented and able literary men, and a shrewd business manager, has purchased the old "Maverick," and will hyphenate with the present journal. This will insure a first class newspaper here, as both gentlemen, Messrs. Willson & Dillon are powers in their line.

Mr. P. Y. Arrington brought 800 head of cattle from Dr. Harris, to this place to-day to be placed on Goldfrank, Frank & Co's ranch below here. They stampeded last night and about fifty head were lost.

In 1854 the United States government organized and sustained a commission of civil engineers, who by careful surveys proved beyond all doubt that it was practicable to run an irrigation ditch from the Rio Grande about one hundred miles above here, and bring it down on the divide between the Nueces and the Rio Grande. The matter dropped for the time, but has again been re-estimated and new surveys made which prove that a ditch taken out forty miles above here will do the same to all practicable purposes. A company of heavy weights is being quietly organized here and they will doubtless push it through, but should they fail, it will be done some day by somebody. The stupendous possibilities of the scheme ranks it as one of the greatest enterprises of Texas, for it will bring millions of acres of wild waste land that now scarcely a cow feeds upon into the farmers domain. This soil is very fertile, and all we lack to make this country a populous and thrifty portion of the state is water. The ditch will be about two hundred miles long and water will be everlasting, as the Rio Grande never dries.

A company has been organized here for the purpose of purchasing the water-works in this city, belonging to Mr. F. H. Hartz. A capital of \$25,000 is required, and it is a mooted question as to whether that amount can be raised. We are glad to see you on your feet again and will do all we can to help you.

If Your Liver Reminds You Of its existence by dull pain or sharp twinges in the right side or beneath the dexter shoulder-blade accept the reminder as a warning and regulate the organ without loss of time by the use of Hostetter's Stomach Bitters.

The above symptoms are usually accompanied by yellowness of the skin, constipation, furred tongue, disorder of the stomach, sick headache and morning nausea. But a reform is promptly instituted by the Bitters, the best possible substitute for calomel, blue pill and other super-potential and hurtful drugs erroneously designated as remedies for biliousness. Appetite and digestion are restored, and the bowels resume activity, when an impetus is given to the functions of health by this sterling anti-bilious medicine, which also has the effect of curbing and purifying the circulation and fortifying the system against malarial infection in air or water. It is also highly beneficial for rheumatism, kidney and bladder troubles.

Arrest of a Supposed Murderer—Enforcement of the Sunday Law. Special to the Gazette.

DENISON, TEX., Aug. 30.—John James was arrested on our streets to-day by officers from Greenville, Tex., who say James is wanted to answer the charge of murder. The man arrested does not fully answer the description of the criminal, as the guilty party has one tooth filled with gold. James has not. Otherwise the officers think he is the man.

The wife of W. P. Doran, late of Pilot Point, a woman prominent in temperance and benevolent work, died to-day.

The saloons and other business houses, except drug stores and restaurants, have been closed to-day for the first Sunday for years. The barbers have declared that if they must close so must all.

An Important Discovery. The most important discovery is that which brings the most good to the greatest number. Dr. King's New Discovery for consumption, coughs and colds, will preserve the health and save life, and is a priceless boon to the afflicted. Not only does it positively cure consumption, but coughs, colds, bronchitis, asthma, hoarseness, and all affections of the throat, chest and lungs yield at once to its wonderful curative powers. If you doubt this, get a trial bottle free, at H. W. Williams & Co.'s drug store.

ROGERS. Special to the Gazette. ROGERS, TEX., Aug. 30.—The many readers of THE GAZETTE are happy to see it come again to the front and wish it much success.

The strike on the Santa Fe still continues. Not a freight train has passed in either direction in the last forty-eight hours. Passenger trains running on time.

An End to Bone-Scraping. Edward Shepherd of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Having had a running sore on my leg for eight years, my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters, and seven boxes of Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25 cents per box by H. W. Williams & Co.

The only cigarettes which do not stick to the lips are Opera Puffs.

ARMSTRONG BROS., WHOLESALE GROCERS, Dallas, Texas.

Agents for the widely-known Morning Glory Syrup, Gravely Tobacco and Tinsley's of Clinton. We are now in position to make very close prices on all character of Groceries. Ask for our list.

Mrs. C. D. Brown is now preparing her memorandums and making preparations for the fall trade. She would be pleased to receive suggestions from her friends and customers in regard to her fall supplies.

EDUCATIONAL. Three of the best penmen in the country in the faculty. Short-hand taught by machine in one-fourth the time required by the old process. Send for College Journal. F. P. PIERCE, Pres.

UNIVERSITY OF TEXAS. Next Session Begins Sept. 16, 1885. Academic Fee, \$10.00. Law Fee, \$20.00.

There are ten distinct schools, with a competent and experienced teacher in charge of each. We have a moral, refined, and quiet village. No whisky shops. Health unsurpassed. Send for catalogue. A. and H. CHARR, Proprietors.

St. Ignatius' Academy. On the 14th day of September, 1885, the Sisters of St. Mary will open an academy for young ladies on Throekmorton street, near the Catholic church. For particulars apply to Rev. J. M. Gayot, 1286 Throekmorton street, Fort Worth, Tex.

THE COLLEGE, Weatherford, Texas. Conducted by European Graduates. The course of instruction comprises thorough English, ancient and modern languages, pure and applied mathematics, particular attention bestowed on the theory and practice of civil engineering. Special rates for complete course to county surveyors and others.

Young gentlemen fully prepared for business, civil service examinations, all the professions, laundry, music and art, and practice of civil engineering. Special rates for complete course to county surveyors and others.

WARD'S SEMINARY FOR YOUNG LADIES Nashville, Tennessee. A famous institution. The alumni number 700. Attendance 1884-5, 350, from sixteen states. The forty-first session begins Sept. 1, 1885. Patronize this college. Board, fuel, lights, laundry, music and literary tuition, use of piano, contingent fees, stationery, books and sheet music cost a year from \$300 to \$500, payable in installments. If desired, a coach for the student will leave Texas for Nashville September 1st in charge of the agent. For catalogue and arrangements, address J. C. PATTON, Professor of Mathematics and General Agent, Dallas, Texas. Mail will be forwarded to him on the road immediately.

Agricultural and Mechanical College of Texas. (Technical Branch of the University). Now excellently equipped with shops, steam engines, wood and metal working machinery and tools, chemical and physical apparatus, garden, orchard, vineyard, blooded stock, etc. all used in the training of students to become farmers, machinists, engineers, chemists, architects, contractors and skilled workers in every department of life, prepared to secure profitable and useful employment immediately upon leaving college. The military feature is strictly subordinate, and only used to inculcate in U. S. law and as an aid to discipline. Fourth annual session opens Sept. 7, 1885. No tuition. Board, fuel, washing, lights, only \$150 for nine months. Send for catalogue to H. H. DINWIDDIE, Chairman of the Faculty.
