

The Great Success

Of Ayer's Sarsaparilla is due to the fact that it meets the wants of the people, being economical to use and always reliable and effective.

"As a blood-purifier and general builder-up of the system," says Eugene I. Hill, M. D., 381 8th Ave., New York. "I have never found anything to equal Ayer's Sarsaparilla."

Mrs. Ellen A. Clough, Matron of the M. E. Sanitarium, Tilton, N. H., writes: "I have never found anything to equal Ayer's Sarsaparilla."

"Ayer's Sarsaparilla gives better satisfaction than any other blood medicine I handle."—Geo. W. Whitman, Druggist, Albany, Indiana.

Ayer's Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price 25¢ per bottle, 50¢ per six.

BRADFIELD'S FEMALE REGULATOR

A SPECIFIC FOR PAINFUL MENSTRUATION MONTHLY + SICKNESS. If taken during the CHANGE OF LIFE, great danger will be avoided.

WEAK, UNDEVELOPED PARTS OF THE BODY enlarged and strengthened. Full particulars sent free.

DRUNKENNESS CURED!

DR. T. G. HAMMER.

The above is the picture of the greatest temperance reformer that ever lived. Over two thousand honorable men in Texas alone bear witness to his remarkable success in curing the disease of Drunkenness.

GLIDDEN WIRE.

Dealers in and consumers of BARBED WIRE are hereby warned against purchasing any style of wire represented to be the genuine.

GLIDDEN WIRE.

Excepting that manufactured by Washburn & Moen Manufacturing Company, of Worcester, Mass., and sold by their agents.

SANBORN & WARNER,

Houston, Tex. We are informed that other parties are manufacturing and offering for sale an "imitation" of the Glidden wire.

GLIDDEN WIRE.

And we take this occasion to state that such manufacture and sale is unlawful, being an infringement upon our patents, and that we have brought suit against the manufacturer, and shall be obliged to bring suit against any dealer or consumer who purchases such unlawful product.

WEEK MEN!

Indications of Tuberculosis, Consumption, Hemoptoe, and other pulmonary diseases, are relieved by this new improved medicine.

HINDER CORNS.

The only safe and certain remedy for corns, blisters, and other painful eruptions of the feet.

ARE YOU CONSUMPTIVE?

Have you coughed, spit blood, and lost weight? If so, you are consumptive.

ROUND-UPS.

An Exchange Explains Why It Supports the Bureau of Animal Industry—Dress on the Plains.

Sheep and goats are in good demand on the local market.

D. F. White, a stockman of Colorado City, is in Fort Worth.

The Crosby County News says grass is beginning to grow on the plains.

D. T. Berry and C. W. Merchant, stockmen well known throughout the country, are in the city.

T. T. D. Andrews, agent of the Bureau of Animal Industry, has returned to Fort Worth from a fortnight's absence in New Mexico.

There was a shipment of fine looking steers headed for Polk's yards yesterday. They were going from Brenham to Kansas City.

A couple of carloads of horses and Durham cattle passed through Fort Worth yesterday en route from Kansas to Louisiana.

T. J. Hunt, a well-known stockman of Hays, came to the city yesterday with a bunch of horses and mules. He reports everything prosperous in the cattle business in the west.

Cal Suggs, a prominent cattlemen of the Indian Territory, and a member of the executive committee of the State Cattle Growers' Association, was in Fort Worth yesterday.

F. A. Piper of Uvalde county has sold to Captain J. W. Sampson, for shipment, 840 head of muttons at \$2.25 per head.

There are some cattle coming to the local market from the Pecos country that are about as fine as one could wish to see, though they have been fed on nothing but grass. Their condition speaks well for the Pecos valley grazing.

Quotations were obtained yesterday on actual sales made during this week at Polk's yard on stock for the local market.

When the Animal Industry Bureau was organized and run by charlatans and dead beats who knew little and cared less about western stock interests, this paper slugged it silly.

The cattlemen have already begun to gather for the excursion to Denver. A large number of gentlemen arrived in Fort Worth yesterday, whose sole business in these parts was to catch the train which will bear them to the range country.

There is no doubt in our minds but that the ruling motive with at least a portion of the workers for the amended Palmer bill is the hope to get in control of the quarantine powers of the government and bar the movement of Texas cattle northward and possibly manipulate the movement of cattle to market in the interest of the combine which have already nearly snuffed the life out of the cattle industry of the United States.

Had the compromise made at Kansas City last year been carried out in good faith, Texas cattlemen would have stood by their agreement, but they object to the attempt to destroy the bureau under cover of action taken by the Consolidated Cattle Growers' Association.

On this is based their hopes of success. But the Palmer bill, as now before Congress is not the Palmer bill as first introduced, and is an insult to the intelligence of the men who were parties to the Kansas City agreement.

In conclusion, allow us to assure you that nine-tenths of all the cattle owners of Texas join us in the appeal to you to defeat this bill, and in its place provide an appropriation of half a million dollars for the present Bureau, so that the work so energetically begun, of stamping out bovine diseases in the east, may be carried to consummation, and our southwestern herds be preserved from the scourge, which threatens the destruction of our cattle interests.

Clarendon Notes. CLARENDON, TEX., March 22.—Cattle during the past two weeks have been badly pestered by heel flies, and reports from the various ranches show that the number of deaths was greater during that period than during the whole winter.

Southwestern would do irreparable damage to the industry of the country.

at the annual meeting of the Consolidated Cattle Growers' Association of the United States, held in Kansas City in November last, the committee on legislation was directed to work for the passage of the Miller-Cary bill so amended as to make the Commissioner of Agriculture a member of the commission sought to be organized, and ex-officio its chairman.

but this legislative committee, headed by Dr. Axel Ames, goes to Washington and in direct violation of instructions and pledges given, secures the introduction into the Senate of the amended Palmer bill.

Originally Texas was opposed to the creation of the Bureau of Animal Industry because of the fear that its rules and regulations would be used to prevent the movement of Texas cattle to the markets of the country under the pretext of disease, where no disease existed.

On the other hand, some of the men who talked loudest and longest in praise of the plan of having a bureau connected with the government, whose duty it should be to stand guard and protect our herds against disease, have attempted to stab in the back the child of their own loins.

SHOTGUN TRAGEDY. A Citizen of Armour Feels Hot Shot into an Abusive and Insulting Intruder.

The Inquest Results in a Verdict of Justifiable Homicide, but a Charge of Manslaughter is Laid. Special to the Gazette. MEXIA, TEX., March 23.—From parties who came in after a coffin your reporter learns of a terrible tragedy at Armour, twelve miles west of here, which was enacted at Dr. Hooper's residence this morning about 9 o'clock, between Hooper and his son-in-law, Cal Mathews, and which resulted in Mathews being killed.

CONSIDERABLE ABUSE. One of the hands on Hooper's place, and made threats against Hooper's life and then went off. He returned that night about 9 o'clock and challenged Hooper to come out into the yard, and drew a pistol partly out of his pocket and used violent and abusive language towards Hooper.

RIGHT OR TEN BUCKSHOT. taking effect in his breast, and killing him instantly. Hooper shortly after sent for Constable Ogilvie and surrendered himself to him.

SUITABLE TEMPER. The affair is indeed a sad one and is deeply deplored.

Only a Temporary Suspension. New York, March 21.—Mr. Freulich of the firm of Walker T. Miller & Co., cotton brokers, who suspended yesterday, said to-day "Some of the papers have got a little mixed in their accounts of our suspension. It is only temporary and is caused by our clients being afraid to put more margins up owing to the recent decline in cotton. As soon as things are straightened out we shall go right along as usual."

SEWER PIPE.

Considerable Comment in Regard to a Contract Closed by the City Council at a Special Meeting.

An Interview with Alderman Darier Giving the Figures and Facts About the Contract—The Vote.

Wednesday night there was a special meeting of the City Council to consider closing a contract for sewer pipe to sewer the Third ward, and a contract was let. There has been a great deal said about the matter, and understanding that Alderman Darier opposed closing the contract with the bid before then, a GAZETTE reporter called on him yesterday.

"Mr. Darier, I understand that the City Council, on Wednesday night, voted to accept Mr. Lake's proposition to furnish sewer pipe to the city?"

"At what prices was the pipe to be furnished?"

"Well, the pipe was to cost f. o. b., at Chattanooga, Tenn.: 18 inch pipe, 79 cents per foot; 15 inch pipe, 53 cents per foot; 12 inch pipe, 38 cents per foot; 10 inch pipe, 37 cents per foot; 8 inch pipe, 19 cents per foot; 6 inch pipe, 14 cents per foot."

"What amount did the city propose to buy?"

"Some 6000 feet of 18 inch, 600 feet of 15 inch, 2600 feet of 12 inch, 6500 feet of 10 inch, 1800 feet of 8 inch, and about 60,000 feet of 6 inch."

"What do you think of the action of the Council?"

"I think it is a mistake. I think the sewer system should be put in at once in the Third ward, but the City Council should not have accepted Mr. Lake's bid until the sewer committee had obtained bids from different manufacturers, and then we could have accepted whichever bid was the best, considering price, terms, etc. I find from a telegram just received from a Kansas City manufacturer that we could have bought the pipe, delivered here, at less prices than we are paying Mr. Lake for the same pipe delivered on cars in Chattanooga, Tennessee."

"What amount do you think the city will lose should they go on with this trade?"

"I am certain the city will lose between \$4000 and \$8000. Take just the 18 inch pipe; it weighs from ninety to 100 pounds per foot. Now, Mr. Lake thinks he will be able to get a freight rate of 35 cents per 100 pounds. Now add 55 to 72, and you have 114 cents per foot, and the Kansas City firm agrees to furnish the same pipe delivered here at 75 cents per foot, so the difference per foot will be 39 cents, and 6000 feet of eighteen-inch pipe will cost the city \$2340 more than we would have to pay the Kansas City firm. So you see my estimate of the loss to the city is not too much."

"Have you spoken to the Mayor in reference to the matter?"

"Yes."

"What did he say?"

"I asked him if he would veto the action of the Council. He said he would if five members of the Council desired it."

"Who voted for this measure?"

"Daggett, Hill, Kelley and Cooper. Haymaker and Ward were absent."

City Attorney Warren was seen last night and questioned in regard to the matter. He said he had not been at the meeting, not having been notified as the law provides shall be done. It was doubtful whether the meeting was a legal one.

Lost His Left Hand—Negro Boy Accidentally Killed. Correspondence of the Gazette. CENTER, TEX., March 21.—This morning one of our best citizens, Judge A. R. Chandler, had his left hand cut off by a saw at his mill, near town. He fell near the saw, which was moving rapidly at the time, and sustained other but slighter injuries. He is being treated by the doctors now.

Another Bald Knobber Trial. A Session Oroted When Charles Graves Is Put on the Stand. ST. LOUIS, Mo., March 23.—The trial of John A. Matthews, another Bald Knobber, was begun at Ozark yesterday. In the testimony of Charles Graves was the startling announcement that Dave Walker said in the presence of John Walker on the way from Eden's house after the murder: "If any one will take my boy to Douglas county I will go back with the rest of the men and kill the women and children, and then burn the house so as to leave no trace of the work."

WENT HOME TO DIE. In the spring of 1878 I was taken with sharp pains in the lower part of my bowels in the region of the bladder. Shortly blood appeared mixed with my urine, and a few weeks later I had an attack of brown gravel. I tried a number of doctors. One said it was gravel, another said it was inflammation of the bladder, and another that I had a stone in my bladder. For three months I was under the care of an eminent specialist at Albany, but constantly growing worse I gave up in despair and went home to the relatives heard of David Kennedy's Favorite Remedy, of Rondout, N. Y., and urged me to try it. Soon the medicine began to help me, the pain and distress lessened. In two months' time I felt my bed, and in six or seven months I was robust and strong. Many witnesses will substantiate what I say. A remedy which can do this for one so near death as I was should be known everywhere. I hope this statement will cause others afflicted as I was to find relief in the same source. C. W. BROWN, Petersburg, N. Y. EDR. D. KENNEDY'S FAVORITE REMEDY. Rondout, N. Y. Price \$1.50; 6 for \$5. H. W. Williams & Co., Wholesale Agents.

A CHILD'S LIFE SAVED.

When six months old the left hand of our little grandchild began to swell and had every appearance of a large boil. We noticed it, it became a tumor, and we were very sore. He then had two of them on either side, and as his blood became more and more impure it took less time for them to break out. A sore came on the chest, beneath the under lip, which was very offensive. His head was one solid scab, and he was a great deal of trouble. His condition was such that when I understood the cure of him, his mother was in a state of despair. He could walk a little, but could not get up if he fell down, and could not move when in bed, having no use of his hands. I immediately commenced with the CUTICURA SOAP, using the CUTICURA and CUTICURA SOAP freely, and when he had taken one or two bottles of the CUTICURA RESOLVENT, his head was completely cured, and he was improved in every way. We were very much encouraged, and continued the use of the remedies for a year and a half. One sore after another healed, a boy's hand forming in each one of these five deep ones just before healing, which would finally remove and were taken out then; they would heal rapidly. One of these ugly boils was removed after we had taken a dozen and a half bottles as he was completely cured, and is now, at the age of six years, a strong and healthy child. The scars on his hands must always remain, but he is as strong, though we once feared he would never be able to use them. All the physicians did for him did him no good. All the doctors saw the child before using the CUTICURA REMEDIES and said the child was a hopeless case. It is a wonderful cure. If the above facts are of any use to you, you are at liberty to use them freely. K. J. Felt, 117 N. May 9, 1885. 512 E. Clay St., Bloomington, Ill.

The child was really in a worse condition than he appeared, his grandmother, who, being with him every day, became accustomed to the disease. MARGIE HOPPING. CUTICURA, the great skin cure, and CUTICURA RESOLVENT, the blood purifier, forming in each one of these five deep ones just before healing, which would finally remove and were taken out then; they would heal rapidly. PRINCESS TEA. Does not have to be BOILED ONE HOUR. Draw it fifteen minutes and you have a cup of delicious fragrance. For Sale by W. H. FIFE, Marshall, Tex.

A BONANZA. The Bonz Gold Arizona Capital Stock \$200,000 shares \$1 each, non-assessable and full paid, with headquarters at Fort Worth and Dallas, Tex. are offering for a few days only a limited number of shares at the very low price of 15 cents per share. As the stamp mill all complete with the latest improved machinery has been contracted for at the machine works of Joshua Hooper, Jr., San Francisco, Cal., and will be on the property within the next 30 days. The vein is a true fissure and free milling and will average 7 feet in thickness and 400 feet in length and the two solid granite walls; there is no ore enough exposed and to run a 20-stamp mill for ten years. Mr. J. Bonz of this city who is one of the largest shareholders has been at the mine and examined the ledge and he says it is simply inexhaustible; he has a quantity of the specimens which he took from the mine, they can be seen at his office on Main street, in this city, or at F. L. Randie, Main street, Dallas. There is plenty of wood and water convenient for the working of the mine and just above the mill can be put in operation and the first shipment of gold bullion there is no doubt but that the shares will go to get on the ground above. Parties wanting to get in on the ground door had better send in their order as the price will be put to 25 cents in a few very days. Address Charles H. Bonz, Secretary and Treasurer, City National Bank, or F. L. Randie, Main street, Dallas.
