NEW YORK IN LABOR TROUBLE

STRIKE OF LARGE PROPORTIONS NOW ON AND RAPIDLY GROWING.

ONE STRIKE BREAKER KILLED

Street Cleaning Department is Tied Up and 500 Policemen Stand Guard.

Special to Signal.

New York, Nov. 13.—The most dreaded of all labor troubles that of the general teamster strike, threatens New York unless the city speedily settles its difference with several thousand laborers in the street cleaning department.

The strike of cartmen who collect the city's ashes and garbage extended to the street sweepers today and tonight the department store drivers meet to consider quitting work in sympathy.

The city is suffering from prodigious accumulations of rubbish and garbage.

Ordinarily nine thousand cart loads are removed every day. The strike since last Wednesday has permitted rubbish of all kinds to pile up and today it is a menace to health.

In many apartment houses the janitors have dumped their accumulations on the streets, making some of the thoroughfares almost impassable with hills of garbage and ashes.

The street cleaning department began work today with several hundred strike breakers, but the men are novices and under constant annoyance of the strikers and they make little headway.

The men who took the strikers place were guarded by nearly 500 policemen and every member of the reserve was on duty in anticipation of more riots.

Already disturbances has cost the life of one strikebreaker and sent others to the hospital.

Statement From Scurry County School Board of Education.

At this, the second regular meeting of the County School Board of Education, we are confronted with financial difficulties in the school matters that trustees and patrons of the county may be interested in, and which we desire to report.

On account of the the filing of the Scurry county school land suit filed by John Y. Bowen, et al, on October 18th against the purchasers of said land, the sum of \$5800.00 will not be available for school purposes for the school year, which otherwise would have been available.

The above sum is the amount of interest that would have been derived on the sale of the school land as the first annual installment of interest, the payment of which has been held up by the filing of said suit. This amount, when pro-rated among the scholastics of this county shows a total of \$2.30 for each pupil.

The Board deprecates the fact that this litigation has come about at the time when the available school money which would be derived from the sale would be of so much benefit to the schools of the county.

It is a well known fact that the short term of the rural school had been one of the educational problems of our state. A suit of the magnitude of this one, involving as it does the sum of \$116,000.00 will, in the ordinary course of events, be in the courts for a number of years, if such a suit can be maintained in law.

We desire to express our endorsement of the action of the Commissioners' Court in selling the school land at the time it was sold. We feel that Scurry county's schools are in need of the interest that will be derived from the sale as much, or more, than they will be again. We believe that the annual interest of \$5800.00 will be more than the yearly advance in price of this land and in addition to this, our own children now in the scholastic age, and the children of the future generations will receive the benefit of this interest; whereas, if the court had continued the policy of holding the school land, not our own children of Scurry county but the children of future generations only would be benefitted after the land was finally sold. We believe that no future generations will be more entitled or even as much entitled to this benefit, as the children of those citizens of our county who have braved the hardships of pioneer civilization in developing Scurry county.

As a Board in charge of the school finances of the County we would ask that all good citizens who are interested in the welfare and in the development of our schools, put forth every effort to restore this interest of which we are now deprived into the available school fund of the County.

It takes but little figuring to show how much this annual interest means to the rural schools of our county, which receive \$5800 yearly by virtue of said sale. There are 2512 scholastics in Scurry county. Five percent interest on \$116,000 yields \$5800 annually, which divided by the number of scholastics, shows that each is entitled to \$2.30. A school having forty-four pupils would be entitled to \$100 in round numbers from this interest. If a teacher is employed at \$50 per month, the school will have a term two months longer than it would have if it did not receive this interest.

Below are given a few of the tabulations that may be had from the school records of Scurry county, showing the effect in our schools of withholding from them the amount they would receive were it not for the litigation that has been commenced above referred to.

School District No. 6—67 pupils \$154.10, teachers salary \$125 difference in length of term 1 and 1.5 months.

School District No. 10.—50 pupils \$115, teacher's salary \$65, difference in length of term, almost two months.

School district No. 14. 45 pupils \$103.50, teacher's salary \$55 difference in length of term, nearly 2 months.

School District, No. 18, 58 pupils, \$133.40, teacher's salary \$60, difference in length of term, two months and four days.

School District No. 20, 56 pupils \$128.80, teacher's salary \$70, difference in length of term, one month and seventeen days.

Ira Independent District, 123 pupils, school fund deprived of \$282.90.

Loans to Farmers

Farmers need loans sometimes. It is therefore a good plan for the farmer to deposit in the bank when he has money on hand.

The farmer who handles his affairs in a business like way, and keeps a satisfactory balance on deposit, builds up a credit at the bank which enables him to expect and to receive the help of the bank when needed.

Dunn Independent District, 121 pupils, school fund deprived of \$278.30.

The above shows the record of a few of the schools in the county in so far as they are affected by this litigation. The Trustees and patrons having the same data as to their schools, can figure out how much their term is shortened.

Believing that the above will be of interest to the trustees of the county and the school patrons, we have submitted the foregoing report.

Temperature Drops Sixty Nine

According to the weather bureau thermometer, kept by J. Allen Weaver, the local observer, there was a drop of sixty nine degrees in the temperature from Saturday evening until Sunday morning, from 86 degrees to 17 degrees, a difference of 69 degrees. The thermometer registered 20 degrees this morning and a cold south wind has prevailed all day.

At Lincoln, Kansas, a number of citizens tarred and feathered a woman school teacher and now that some of them are to be tried in court, they are asking the papers to not print the testimony. They ought to be ashamed of it but let us hope that the court will refuse to shield them.

A COMMON ERROR

Same Mistake is Made By Many Snyder People

A common error. Rub plaster the aching back. Rub with liniments, rheumatisms.

When the trouble comes from the kidneys. Do not use Doan's Kidney Pills. It is convincing proof of the fact that Polasek of Big Springs

Texas, says: "Continual drinking of ice water caused my kidneys to become disordered. A severe pain darted through my back causing intense misery. The kidney secretions were too frequent in passage and annoyed me greatly. I was unable to get anything to relieve me until I procured Doan's Kidney Pills. After taking the first few doses I felt better and two boxes made me well." For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.
