## DON'T PUT OFF

Every Dollar You Save Will Help  
You to Save Another.

And remember this: You don't need to consider yourself sordid or selfish because you are economical. Never mind what other people say, they may call you close or stingy.

You may be in a position sometime to heap coals of fire on their head by helping them from your abundant means.

## In accordance with OUR "SQUARE DEAL" PLAN

You will be charged no interest on deferred payments, and in case you die before completing payments on property bought from us we will give your estate the lot or lots without a single additional payment. This is better for you than life insurance for you take no physical examination, pay no premiums, but yet from the day of your first payment your life is insured to the full amount of the property you are buying.
