## IMMIGRATION, ANARCHISM, CRIME

### FOREIGNERS BRING WITH THEM THEORIES OF THEIR OWN

#### Which are Incompatible with Our Form of Government.

NEW YORK AND CHICAGO DELUGED WITH CRIME—RESULT OF GOVERNMENT'S FOLLY IN ITS POLICY OF UNINTERRUPTED AND INDISCRIMINATE INFUX OF IMMIGRATION—SOUTH DESIRES TO SUPPLANT THE NEGRO WITH THESE ANARCHISTIC FOREIGNERS.

For years foreign immigrants have poured in one continuous stream to the shores of America, until to-day millions of people not native to the soil form a startling per cent of its population. These immigrants have come from every country of the Old World. They have brought with them their customs, their crude mode of thinking, their deferred or shattered hopes, their animosities and their anarchistic tendencies; they have come to better their conditions in this boasted land of freedom and of plenty, or wreck organized society and pour the "milk of sweet concord into hell;" they have come to realize their hopes or blot out the hopes of others. The bulk of this immigration is made up of the riffraff of the countries from which it came. The majority of these people when they landed could not speak the language of the country in which they came to dwell; they had no well-defined conception of the government of the people, nor of their modes nor customs; they had heard Utopian stories of the grandeur and freedom of the so-called "land of the free and home of the brave," and they came with the most extravagant dreams and hopes which were destined never to be realized or fulfilled. When these foreign hordes become disillusioned and their dreams fail of realization and their hopes shattered, reaction sets in and they look upon all forms of organized government as inimical to their best interest. Their anarchistic propensity is fanned afire and all kinds of crimes and atrocities follow in its wake. These immigrants have as a whole gravitated toward the great centers of industry—the large cities—until they have congested the labor market. This has necessitated the idleness of thousands upon thousands of these foreign people, and idleness, without any means of support, is a breeder of some form of crime. These people sought the shores of America to better their conditions and finding the status of things of such a nature as to frustrate the realization of their hopes, they become the victims of their environments and straightened circumstances and easily merge into the commission of crime. They must have sustenance by fair or foul means.

New York and Chicago are reeking in atrocities; they are staggering, like a drunken man who cannot find his way, under the most overwhelming wave of crime ever known in their history. The authorities cannot only not cope with it, but they seem powerless to even check it. Nearly every portion of these great metropolises furnish daily its quota of victims. Women and children, and even men, stand horror-stricken in the face of these continued crimes and the powerlessness of the authorities to stamp out their further commission.

The government has for years tolerated an almost uninterrupted influx of foreign immigration, and now the reaction of this folly has set in, and heaven only knows when, where and how it will end. When these crime-inoculated foreign hordes shall by force of necessity be compelled to take up their abode in other sections of this country and in the rural districts, they will carry with them their envenomed hatred for this government and its institutions as well as the virus of anarchy and crime. These immigrants are not divorced from their ideas of government as instilled in them in their native lands, and the principle of self-government, as defined in this country, is, with them, a baseless fabric and a dream—an impossible theory.

The South, with her antagonism to the Negro, her most loyal friend and productive factor, has been clamoring for these foreigners, begging them to come and take his place in her corn,

cotton and rice fields and other industries. She has long desired to supplant the Negro with the foreigners flocking to this country. But they have refused to come to her open and outstretched arms, despite her flattering offers and inducements. But when they do come, after being driven out of New York, Chicago and the other great congested centers, and fill up the hamlets, villages, towns and cities of the South, she will have a problem on her hands beside which her so-called Negro problem will pale into insignificance. It will be the problem of anarchism; it will be the problem of life and death, such as New York and Chicago are futilely wrestling with to-day; it will be a problem, which will take the combined strength of all her native people, black and white, to successfully cope with. Let those who wish be skeptical, yet He who controls the destiny of men is going to work out the salvation of the Negro here, and acceptably, here where he was brought without the least thought as to whether he wanted to come or not. Steadily and surely the plans of a great, uncontrollable destiny is unfolding, and when it shall have been consummated the Negro will be there right side up with care.

### COLORED CHILDREN PARDONED OUT OF PENITENTIARY BY GOV. PATTERSON.

By the unprecedented clemency of Gov. Patterson the following lads (mere children who should have been in a reformatory) were turned out of the penitentiary this week. Will Robertson, Franklin county, age 10 years. Willie Duncan, age 13 years, Davidson County. Prince Munford, age 14 years, Davidson County. Lawrence Lockhart, age 11 years, Shelby County. Tom Brown, age 13 years, Davidson County. Sam Henderson, age 13 years, Shelby County. Frank Prewitt, age 13 years, Davidson County. Clifton Winston, age 11 years, Knox County. Lee Clayton, age 11 years, Shelby County. Johnson Jennings, age 13 years, Knox County. Lee Robinson, age 14 years, Montgomery County. These colored boys, with almost as many young white men, whose ages ranged from 15 to 18 years, were given another chance this week by Gov. Patterson to make amends as far as that is possible for the errors of their past.

The Governor after having these young fellows assemble in his presence gave them some strong, sterling advice, admonishing them never to come back to prison. He counseled them to make up their minds to go again into the world determined to walk the paths of right and fulfil the duties of wholesome citizenship.

While the action of the Governor in pardoning the colored lads along with the young white men is commendable, yet it is an unfortunate thing that the State has not made any provision for a reformatory school for the child-criminals of its colored population.

### CHARMING VISITOR FROM LOUISVILLE.

One of the most charming visitors of Nashville of the whole summer season is Miss Lillian B. Haydon, of Louisville, who is the guest of Prof. and Mrs. F. G. Smith and their daughter, Miss Edwina. Miss Haydon has proven a general favorite among the young society element and she has been the recipient of many social courtesies during her stay in the city. In the company of Miss Smith, Miss Haydon has been escorted to many of the places of interest in and around the city. Miss Haydon is to spend two weeks in the city.

### OWENSBORO CHAUTAUQUA.

The Negro Chautauqua at Owensboro was well attended and quite a success. Woman's Day, which was August 2, was the red letter day, for fully one thousand people were in attendance to hear the address of Miss Vera Lee Moore, a teacher of Walden University. She handled her subject, The Inherent Power of Influence, with matchless ability. The daily papers of Owensboro were loud in their praise of her appeal to the mothers concerning the training of their boys and girls. Miss Moore did not fail to put in a plea for Walden University and the new dormitory for boys.

### EFFACEMENT OF COREA, THE HERMIT KINGDOM.

The effacement of Corea, the Hermit Kingdom, or rather its absorption by Japan, is a sad fate for a race of people who have had their separate and distinct form of government in their own country for many hundreds of years. But the mission of Prince Tyjong Oul and Yi Sang Sul, Corea's two rejected representatives at the Hague Peace Conference, to the United States to enlist her interference with the Japanese program and save to them and their people their country, is destined to be a futile one. For the United States has troubles of its own with that "little giant" of the Far East which are causing her a good deal of solicitude. She knows if she knocks the chip off the shoulder of Japan, she is up against a tough proposition.

The two Korean representatives, who are now in this country, may be fondled and petted out of sympathy, but that is the utmost extent to which those in authority will go. The fate of Corea is the fate of Hawaii and the Philippines. The handwriting is on the wall, and eventually the fiat will go forth and the inevitable will take place. Washington in his Farewell Address warned his countrymen against entangling foreign alliances, but our latter-day statesmen have disregarded that warning, and in the possession of the Philippines they have the ominous White Elephant on their hands, and just as the United States took Hawaii from the Negro Queen and her subjects, Japan is going to take these islands from the United States. Mark the prediction.

### SURPRISE PARTY.

A most pleasant surprise party was held Tuesday night at the home of Mr. and Mrs. Harding, on Jackson street, in honor of Mesdames Simpson and Jones, of Colorado. Both instrumental and vocal music were enjoyed by all. Those present were Mrs. Ella Simpson, of Oakland, Cal.; Mrs. Maurice Jones, of Berkeley, Cal.; Mrs. Sallie Harding, Mrs. W. A. Hadley, Misses Mattie Woodson, Willa, Jennie, Alberta Hadley, Lavina McLemore, Georgia Connell, Sadie Harding, Messrs. H. M. Harding, F. E. Dickerson, G. W. Frazier. Mesdames Simpson and Jones are expected to leave the city next week for Montgomery and other important points in the South.

### FOOD FOR THOUGHT.

In these days when everything to eat is so high and getting higher it is refreshing to know that one can produce one's own food supply. A certain lady on Jo Johnston avenue, has eighteen hens and during the month of July they laid for her 113 eggs. Think of that, you good citizens who are giving the market man all your hard earnings.

### NOTICE.

The remains of Roberta E. Mitchell will be removed from Greenwood Cemetery Saturday morning at eight o'clock and placed in the family lot at Mt. Ararat Cemetery. The anniversary service will be held in the chapel of the Catholic School, Stevenson avenue, at half-past six o'clock a. m.

## FLORIDA INSTITUTE AT LIVEOAK

### WHERE COLORED BOYS AND GIRLS MIGHT BE EDUCATED

#### Was Established by Friends Nearly Thirty Years Ago.

MRS. KENNEY NOW AT WORK TO RAISE FUNDS FOR THE ERECTION OF ADEQUATE BUILDINGS FOR THE ACCOMMODATION OF THE INCREASING ATTENDANCE OF PUPILS—FIRST DOMESTIC SCIENCE CONFERENCE FOR WOMEN AND GIRLS TO BE HELD OCT. 7.

Mrs. Maria C. Kenney, of this city, is traveling extensively in the North and West in the interest of the Florida Institute at Liveoak, Fla., in Suwanee County, near the famous Suwanee Springs, on Suwanee River. The school was established nearly thirty years ago by friends from the North, and still receives aid from the American Baptist Home Mission Society. The buildings and equipments are entirely inadequate for this rapidly growing school of nearly four hundred students.

Through Mrs. Kenney a new feature has been added to the school—a Domestic Science Conference for women and girls of the state, of every age and condition. The first conference is to be held Oct. 7. She has been asked to call a Farmers' Conference at the same time where Mrs. Booker T. Washington, Dr. C. T. Walker, Prof. Charles Stewart and other leading men and women are expected to be present. At this meeting such subjects as the Bible, Purer Literature in the Homes, Morality, Heredity, Temperance, Economy, Better Homes, Dignity of Labor, Divorce, Good Citizenship, Rearing of Children, Good Manners in the Streets and other Public Places, How to Help Our Young Men and Women. Everything pertaining to the uplift of the home and church, besides the subjects coming directly under the head of Domestic Science. As soon as the new building can be had, the Conference will be extended into a few weeks, where the lecture course will be given. Applications have already been made from women past sixty.

Mrs. Kenney has been given a warm reception everywhere. Boston has asked her to establish the work there. It is believed that this plan of work will do more to uplift the women of the race than any that has been suggested.

### MISS EMMA STONE AT TUSKEGEE, ALA.

Miss Emma Stone, who left the city a few weeks ago to accept a position as pharmacist at Tuskegee, is meeting with great success. The night of Meharry commencement Prof. B. T. Washington offered her the position and at that time she refused, thinking she had rather go to Pulaski, but Prof. Washington continued to send for her, so she decided to accept. Miss Stone was the only young lady that passed the state Board.
