

WITHOUT ERROR

Is the Bible, Says the Presbyterian Assembly,

And They Recommend That Those Who Think Otherwise

Seek Church Affiliation Elsewhere—Resolutions Against the Use of Tobacco and the Opening of the World's Fair on Sunday—Adjournment.

PORTLAND, Ore., June 1.—Tuesday found the great issues in the Presbyterian church settled, and only echoes were heard—the protest of Dr. Agnew, of Philadelphia, and others that the action taken in the Briggs case was unconstitutional; the protest of Dr. Sprague and numerous other commissioners, who consider that an evil precedent had been established in giving such wide powers to the committee of prosecution, and in the Union seminary case the directors of that institution are to be heard from in regard to the proposed arbitration about transfers.

The first topic of interest Tuesday concerned the World's fair, in disapproving of the sections styled the "Parliament of Religion." A mass of overtures from presbyteries and synods on Sunday opening led to the adoption of a resolution to the effect that if the fair shall be opened on the Sabbath, the exhibit of the Presbyterian church shall be offered only on condition that it be closed on that day.

A resolution was adopted saying: "Our church holds that the inspired word, as it came from God, is without error. The vow of ordination recognizes that the Bible is the only infallible rule of faith and practice," and it was recommended that those officers of the church who have ceased to hold this view should seek a congenial place outside of the denomination, without waiting for discipline.

At the afternoon session an earnest plea for a deliverance by the assembly against the "practice of lynching Negroes in this country," met with decided approval.

Elder McCook withdrew his statement of a year ago concerning donations made to Union seminary upon the basis of its doctrinal soundness, saying that he had no desire to wound the feelings of any member of the family of any such donor, and no intention of characterizing the intent of any such donor.

The committee of conference with theological seminaries was announced as follows: Drs. Hays, Young, Blayney, Mutchmore, Moore, Bartlett, Hayley, Holmes, Wilson, Elders, McDougall, Cincinnati; McCook, New York; Gray, Chicago; Bonner, Indianapolis; Joy, Detroit; Neglee, Pittsburg; Knox, Minneapolis.

An amusing scene occurred upon the introduction of resolutions calling the attention of ministers, elders and students to the evils of the tobacco habit. Finally the resolutions passed with a shout.

After the adoption of the usual complimentary resolutions, the 104 general assembly was dissolved.

FROM MOB LAW.

The Colored People of Cincinnati Praying for Deliverance From It.

CINCINNATI, June 1.—In response to a circular which was issued in April to the colored people of the various states Tuesday was observed by the representatives of the race here as a day of fasting and prayer that divine aid may be vouchsafed to them in their efforts to secure for their brethren in the south relief from the ill treatment still accorded them.

Special reference was had to the evils of burning lynching and mobbing, which are inflicted on the colored people of the south for, it is alleged, the most trivial of reasons. It is not denied, of course, that they are deserving of criminal punishment, but the plea is for the treatment of a colored offender by due process of law, and not by arbitrary and summary action on the part of individual members of society.

Two meetings were arranged for Tuesday in the city proper. One was held at Allen temple and lasted from 10 a. m. to noon. Representatives from the various churches met here and engaged in a service of prayer.

In the evening at 8 o'clock there was a mass meeting of the colored citizens at the temple for the purpose of giving the movement some concrete form. Resolutions were offered calling for action on the part of the national government to the end that the outrages upon the colored people of the southern states may be prevented.

LIGHTING UP THE ENEMY.

Remarkable Military Invention of a Young Italian.

ROME, June 1.—A young Italian has recently perfected an invention, under the direction of the director general of the Italian artillery, which will prove of immense value in future warfare. The invention consists in a species of candle which produces a most intense light. This candle is intended to be projected from a cannon and to strike the enemy's works or that part of the country where it is suspected they are. On striking any solid substance it breaks, and the substance contained in it taking fire, produces a light estimated to be of the intensity of 100,000 candles, which illuminates the field for a great distance.

Daylight overtook them here and he was hanged. This is the sixth killing in Taylor county, lately, with all parties concerned being non-residents.

The School Question in Canada.

OTTAWA, Ont., June 1.—In the house of commons there has been a long and bitter discussion caused by a resolution introduced by Mr. Armstrong, M. P. for Middlesex, having for its object the abolition of the Roman Catholic separate schools and the French language in the northwest territories. Dillon McCarthy, queen's counsel, as leader of the Protestant party in the house, spoke very strongly in favor of the resolution. It is expected that the debate will be resumed in a few days.

Palacio Has Left Caracas to Fight the Rebels.

Many of His Soldiers Desert and Join the Insurgents.

The Revolutionists Repulse the Government Troops After Several Hours Hard Fighting, Near La Guayra—Another Battle, the Result in Doubt.

VALENCIA, Vene., June 1.—Palacio's soldiers are deserting, hundreds at a time, and joining the rebel generals, and this causes the president much worry. The rebels are now threatening both Puerto Cabello and LaGuayra. To prevent the capture of these two important seaports Palacio has ordered all of his available fleet to proceed to their defense.

The revolutionists, entrenched near San Juan, were attacked a few days ago by the government troops. After a fierce fight the latter carried the entrenchments and then set fire to the town. To offset this national victory a force of government troops was repulsed, after several hours' hard fighting, near La Guayra. Still another fight has taken place between the opposing forces, the result of which is in doubt. It occurred in La Sierra.

The Spanish ran Jorge Juan went ashore off Punta Brava, but has been towed away. There is yellow fever aboard, and deaths are occurring among her crew every day. Word has reached here that Palacio has left Caracas to fight the revolutionists.

CARACAS, June 1.—The finances of the country are in a terrible state, and the wages of officers, soldiers and other government employes are overdue. Palacio proposes to disrupt the nine existing states and to form twenty departments into a centralized republic. The official press indorses the manifesto, but the dictator's action is opposed by public sentiment. All who dare criticize it, however, are immediately made to suffer by banishment or imprisonment.

Word has reached here of a lively fight south of this city. It is said that the government forces were routed. It is also reported that a battle was fought near Bolivia, in which the rebels were defeated. Another battle has been fought near Palmerito, and resulted in a victory for the revolutionists.

HEAD-END COLLISION.

Two Lives Lost and a Third Very Near It—Disastrous Wreck Near Millport, O.

ALLIANCE, O., June 1.—A disastrous head-end collision occurred Tuesday morning near Millport, a village fifteen miles south of this city on the Cleveland and Pittsburgh railroad, between a south-bound extra, running light, and a heavy north-bound freight train, in which two men lost their lives and a third was seriously injured. Both trains were rushing at full speed, and met on a curve with terrific force, totally demolishing both engines and twelve freight cars. John Leibtag, of Cleveland, the engineer on the north bound train, was caught on his engine and buried beneath a half dozen cars which piled themselves on top of the locomotive. The wreck at once caught fire, and in a mass of roaring flame Leibtag's body was slowly cremated. Frank Wilcoxon, of Wellsville, a brakeman on the freight train, jumped just before the trains collided and landed on his head. He was found half an hour later lying thirty feet from the track, unconscious. He never revived, and died about noon. Fireman W. T. Starr, of Cleveland, who was also on the ill-fated freight, jumped and was severely bruised about the body and head. The rest of the train men all escaped with slight bruises.
