## Thirty-Two Hundred Carnegie Mill Men Go Out

### To Join the Ranks of the 80,000 Other Men in Pittsburgh.

In a Few Days This Army of Idle Men Will Be Increased Sixteen Hundred—These Men Go on Strike in Sympathy With Homestead Strikers.

PITTSBURGH, July 15.—Thirty-two hundred iron and steel workers Thursday evening joined the ranks of the sixty thousand other idle men in the streets of Pittsburgh. Monday this army of idle men will be increased sixteen hundred, because that number of men in the Carnegie mills at Beaver Falls, a small town near Pittsburgh, are going to quit work. These forty-eight hundred men go on a strike, not because they have any grievance on the score of wages, but because they sympathize with the Homestead mill workers, and fancy that by closing up the two Carnegie mills in Allegheny and the one in Beaver Falls, they will break the iron will of H. C. Frick and force him to negotiate with the men at Homestead. He will never do it. At 9 o'clock Thursday evening about two thousand men left the Thirty-third street mills with the determination to do as their committee said they would, when they informed H. C. Frick, through Manager Dillon that the scale must be signed at Homestead within three days, or the mills would be shut down. In sympathy with this move over a thousand men from the Twenty-ninth street mills left also their work with the same demands.

This move on the part of these men is an independent one, not under orders from the Amalgamated association, though said to be tacitly sanctioned by it, and is a result of the concerted action of a body of mill workers fully in sympathy with the Homestead men. They received no allowance from the Amalgamated association treasury, and willingly make the sacrifice and endure the hardships forced upon many of them by an idle spell. Although the vote taken at the recent mass meetings upon this action was declared unanimous in favor of it, there is a little disagreement. Some of the prominent workers are opposed to it, and think the men are overreaching themselves.

### A CHLORAL FIEND

#### Shoots His Wife and Then Tries to Kill Himself.

GRAND RAPIDS, Mich., July 15.—J. C. Quincey, a prominent attorney, is dying from the effects of narcotic poisoning and a bullet wound in his head. His wife is at the hospital, probably fatally wounded, with two bullet wounds in her forehead. Wednesday night Quincey's neighbors were alarmed by hearing several shots in the house. Breaking open the door, they ran to the chamber where the shots were heard. Mrs. Quincey was at the window, with her head out and unconscious. A trail of blood showed where she had walked around the house. Quincey was lying on the bed. A chamber door key, with traces of blood on it and powder papers labeled "sulphur" were found on a table. A revolver was found on the lawn under the window Quincey's wound was slight but the poison had its effect. He was a victim of the chloral habit and has for three months past been deranged. The theory is that he did the shooting, but the position of the door key and the revolver is against it.

### Actna's Eruption Increasing.

ROME, July 15.—The eruption of Mt. Actna is rapidly increasing in violence. Immense streams of lava are pouring down the mountain side, and it appears certain that several villages and a number of dwellings will be destroyed. All the craters are active. One is ejecting a continuous stream of lava several yards deep and very wide. This stream presents the appearance of a river of fire, and is very beautiful to look at, though it is bound to ruin much property. Another of the craters is hurling large incandescent rocks to an immense height, while the edges of the third crater threaten to crumble.

One of the leaders said Thursday night that the steel-workers could stay locked out for six months without difficulty.
