AMERICA FOR AMERICANS
McKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1894 William L. Wilson was dined and wineed in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

THE SILVER PROBLEM.
Commercial Gazette.
Farmer Anderson has two thousand bushels of wheat.
Mr. Jones has a thousand dollars worth of silver bullion.
Mr. Anderson's wheat is worth in the market \$1,000.
So is Mr. Jones's silver bullion.
Mr. Jones goes to Philadelphia, takes his silver to the Mint and has it coined into two thousand nice, fine, pretty silver dollars.
When Farmer Anderson brings along his thousand dollars worth of wheat, Mr. Jones buys it, paying him \$1,000—and he has \$1,000 left with which to buy the wheat of the next farmer that comes along.
This is free coinage. Some people are sure that all the farmers in the country are shouting for it.
We should see a good many strange things in this country if the silver people should have their way.

REPUBLICAN COMMITTEE.
All members of the Republican Executive Committee of Mason County are notified to meet at the Council Chamber in Maysville on Saturday May 4th, 1895, at 2 o'clock p. m. for the transaction of important business.
A full attendance earnestly requested.
D. P. OAT, Chairman.
Sam T. Hickman, Secretary.

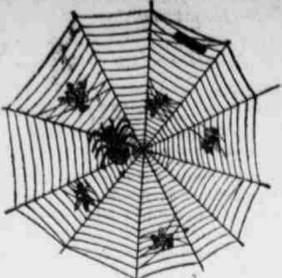

SPEAKER CRISP declares for the free coinage of silver and for a Western man for President. He says the people want free silver, and if the Democratic party expects victory it must face the issue squarely.

If we do our work at home our labor at home will be employed and the wages paid at home will be spent at home. This is the philosophy of Protection, and it cannot be abandoned, amended or abated. Thus saith WILLIAM McKINLEY, and who will refute the logic?

AN English newspaper says cheap food is excellent if you have the money to buy it; but a three-penny loaf is of very little value to a man with only three halfpence in his pocket, and of less value still to the man who has nothing. Free-trade has given us cheap goods, and it has taken away employment from English workers to an alarming extent. If we were all consumers, living on an income derived from an investment in consols, Free-trade could not be too highly praised.

TARIFF reform has yielded a 16 per cent. increase in the importation of foreign goods made by foreign labor, and displacing a like amount of American labor.
Tariff Reform's Great Yields. It has yielded a nearly 10 per cent. decrease in the exports of American products and merchandise, thus cutting off just so much more work and wages for Americans.
It has yielded, says The New York Recorder, a great flood of foreign grown wools, and destroyed the sheep raising industry on American farms and ranches. Incidentally it has helped to yield a shorter supply of sheep for slaughter and assisted the Chicago meat ring to put up the price of mutton.
It has yielded more foreign imports by a hundred million dollars' worth and yet it has yielded a decrease of 10 per cent. in the amount of importations free of duty. McKinley's Act even had a more liberal free list.

Entangled
in the meshes of disease. Maybe it's dyspepsia you are a victim to, or constipation, or biliousness, or some form of liver or kidney complaint, or if you are a woman, probably you are suffering silently from some malady peculiar to the sex.
But do not be discouraged—you need suffer no longer;

Brown's Iron Bitters
will purify and enrich your blood, gently and pleasantly stimulate the action of the kidneys, the liver and the bowels; correct functional irregularities of women, and, in fact, thoroughly tone up your whole system and make you well again. What more can you ask?
Brown's Iron Bitters is pleasant to take, and it will not stain the teeth nor cause constipation. See the crossed red lines on the wrapper. Our book, "How to Live a Hundred Years," tells all about it. 50¢ per bottle. Sample, 25¢.
BROWN CHEMICAL CO., BALTIMORE, MD.

DURING the two months of January and February we have bought nearly \$8,500,000 worth more of foreign woolen goods than in the corresponding months a year earlier. The importance of the lower tariff on woolens will be appreciated, or otherwise, by those who gain their livelihood working in the woolen mills when they understand that we bought over 100,000 square yards more of carpets in two months and must consequently make that much less. We also bought in two months 7,500,000 pounds more woolen cloths, besides the larger quantities of ready made clothing, dress and knit goods. These larger quantities will be sold in our markets, and every yard of them will supplant a yard made in an American mill by an American laborer. The competition in the woolen trade is both enormous and natural. The result must be as disastrous as the tariff reformers intended it should be. It is the outcome of breaking down our wall of Protection and giving the other fellows a chance to get in.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address:

The Monk!
By MATTHEW G. LEWIS, (MONK LEWIS.)
Mr. Lewis was a member of the British Parliament, and his book became so popular in England a hundred years ago that it gained for him the title of "Monk Lewis."
It is a fine piece of classic composition, and after being out of print for many years it has been republished from the original text.
It is far superior to "Maria Monk" and books of that character.

AT LAST.
Three Men-of-War Ordered to the Nicaraguan Coast.

Raleigh and Montgomery to Greytown, and Alert to Del Sur,

Where They Will Protect American Interests in Case of a Revolution in Nicaragua—The Situation at Corinto Relieved of Much of Its Tension.

WASHINGTON, April 30.—The administration Monday ordered three men-of-war to the Nicaraguan coast to protect American interests.
Advises were received that the country was on the verge of a revolution, and that bloodshed was likely to come at any moment. Warner Miller called upon the secretary of state and the secretary of the navy and pictured the peril in store for the Nicaraguan interests. Private advises were also received with regard to other American interests in various parts of Nicaragua, and it was determined in short order to send the Raleigh, the Montgomery and the Alert to the scene of expected trouble.

The Raleigh and the Montgomery, which have been idling at Key West and Mobile respectively, will hurry to Greytown, where they will arrive in a few days. The Alert, which is at Panama, has been ordered to San Juan del Sur, on the Pacific side.
The Monterey would have received similar orders, but she had already left Acapulco with instructions to proceed direct to Panama.

A cabinet officer said Monday evening that the United States "does not undertake to extend a protectorate over Central America and South America to such an extent that a sovereign state of one of these countries may insult another sovereign nation with the expectation that this government will protect it from forcible resentment by the nation insulted."
"It is understood," he continued, "that the situation at Corinto has been relieved of much of its tension by an intimation cabled by ambassador Bayard that in case Nicaragua would guarantee payment of the indemnity asked within fifteen days, Great Britain would accede to a request for such an extension of time."

The Alert is one of the older vessels of the navy, an iron cruiser of 1,020 tons displacement and propelled by a single screw. Her main batteries consists of four guns and she does not compare favorably with either of the British ships now at Corinto, although she would probably not be over-matched by the Wild Swan, now at San Juan del Sur, the port of her destination.

A STATUE OF MONROE.
WASHINGTON, April 30.—Advises received at the Venezuelan legation state that a popular subscription has been opened at Caracas for the statue of President Monroe, which is to commemorate the Monroe doctrine. Manuel Carrion opens the subscription with 100 bolivars, a coin equivalent to a franc.

FATHER WARD DEAD.
WASHINGTON, April 30.—Rev. Father Ward, the spiritual adviser at Georgetown college, died here Monday, aged 80 years. He was well known in Catholic circles and formerly had charged at Baltimore and Frederick, Md.

Moral Wave at Cleveland.
CLEVELAND, O., April 30.—The police authorities Monday issued an order to the effect that all pool-rooms, policy shops, gambling-houses and every place where games of chance are run must be closed at once. Even the nickel-in-the-slot machine is not exempted from the order, and they must not be operated in the future. The police are instructed to spare no effort in enforcing the law.

Oscar Wilde's Wife.
LONDON, April 30.—It has been learned that, after her husband was arrested, Mrs. Wilde took her children and her belongings from the Wilde residence and instructed her lawyer to institute proceedings for divorce. The proceedings will hinge somewhat upon the decision given in the present criminal proceedings against Wilde.

Killing Women and Children.
SYDNEY, N. S. W., April 30.—Advises received here from New Ireland, a dependency of the German colony in northern New Guinea, say that several villages have been depopulated owing to the fierce tribe war which has been waged there. Women and children have been mercilessly butchered.

Kills Her Rival With a Pitchfork.
BRISTOL, Tenn., April 30.—Mrs. Harth A. Wallen, of Blackwater, Lee county, Va., stabbed Mrs. Lane Wallace to death with a pitchfork. The murder was the outcome of jealousy on the part of Mrs. Wallen, whose husband appears to have been paying too much attention to the murdered woman.

Poolrooms at Denver Raided.
DENVER, Col., April 30.—The Capitol and Callender poolrooms, at Denver, were raided by the police. The proprietors of both establishments and several purchasers of tickets were sent to jail. This action effectually kills the poolroom gambling.

Murder and Suicide.
WOODSTOCK, Ill., April 30.—As a result of a rival quarrel W. W. Ellsworth, the noted breeder of Poland-China swine, Monday afternoon, killed his hired man, George Fluewetter, and then blew his own head off with a shotgun.

Bank Robber Shot.
DUBUQUE, Ia., April 30.—A strange attempt to rob the Iowa Trust and Savings bank, Monday, and was shot in the head by the teller. The robber is seriously injured and under arrest.
Ohio Convict Hangs Himself.
COLUMBUS, O., April 30.—Andrew Rosinski, a Toledo prisoner, serving a sentence for shooting to kill, hanged himself with a twine string in the state prison Monday night.

SETTLEMENT PROBABLE.

England Offers to Wait Fifteen Days for Money and Grant Concessions.
LONDON, April 30.—A Managua dispatch says:
"At a late hour Monday evening President Zelaya received a telegram from Washington, stating that Great Britain would withdraw her ships from Corinto and give Nicaragua fifteen days in which to pay the \$75,000 smart money, if such a proposition would be accepted by Nicaragua."
"The dispatch also states that, so far as the remaining conditions in the ultimatum were concerned, they should be so modified as to meet the objections of Nicaragua."
"It is understood that these propositions are the results of the efforts of the United States to bring about a settlement of the pending difficulty in a manner alike honorable to both countries."
"Upon the receipt of the dispatch President Zelaya at once held an audience with his principal advisors and a reply will probably be made within a few hours. President Zelaya, it is believed, will be disposed to accept the terms outlined in the dispatch. It will, however, require careful consideration, owing to the intense hostility which exists against the British government and the willingness on the part of some of the people to continue the struggle indefinitely."

RIOT IN CHICAGO.
The Unloading of a Vessel by Nonunion Men Causes It.
CHICAGO, April 30.—A riot took place in Richardson's coal yards in this city Monday afternoon in which a number of coal shovelers were badly beaten and one police officer painfully injured. The police were asked in the afternoon for protection in unloading a vessel with nonunion hands. Only six men were sent. The vessel arrived and no sooner had work begun than over 200 workmen appeared on the scene and put to flight both the non-union workmen and their protectors. A wagon load of officers were immediately sent to re-enforce the defeated six, and a fight ensued. Anthony Egan and his brother, Peter, the leader, were arrested and locked up on the charge of rioting, but their followers eluded capture. More trouble is expected, and the coal yards were Monday night patrolled by the police.

ASPHYXIATES HIMSELF.

Harvey Bentley, One of Chicago's Best Known Live Stock Merchants.
CHICAGO, April 30.—Harvey Bentley, a stock yards commission merchant, committed suicide at his home, 3913 Prairie avenue, early Monday morning. When Mr. Bentley did not appear at his office Monday morning his stepson went to his house to ascertain the cause, and found him dead in bed. The windows and doors of the room were tightly closed, and gas was escaping from two burners.
It is said Mrs. Bentley quarreled with her husband on Saturday and left him, going to Omaha, where she has relatives. The cause of the quarrel and separation is not known. Mr. Bentley was well known in business and social circles, and no commission man at the stockyards had a more extensive acquaintance among the stock raisers of the country.

France and Russia.

PARIS, April 30.—Libre Parole says in a leader on the joint protest: "Since the death of Alexander III Russia has been treating us in a very unhandsome manner. First, she dragged us into the acceptance of the invitation to the Kiel ceremony, and now is hauling us in this affair with Japan so as to link us in common action with Germany. Candidly, to borrow seven milliards from a people and then play them such scurvy tricks is not very nice."

A Riot at Marquette.

MARQUETTE, Mich., April 30.—A riot occurred here Monday evening between union and nonunion ore trimmers upon the arrival of the steamer Pontiac, which was the first arrival for ore cargo since the opening of navigation. The deputies were easily overpowered, and after a short but sharp conflict the nonunion forces were put to flight, many of them with broken heads. The police succeeded in making only one arrest.

Negro Hanged by a Mob.

GREENVILLE, Ala., April 30.—The sixth Negro was lynched in Butler county Sunday for the murder of young Watts Murphy. Sheriff Bargainer found his body hanging to a tree in the neighborhood where the other five were lynched last Sunday. He appeared to have been dead for at least a day. This last victim is believed to have been the only one who struck the blow for his own life. His name is not known.

PLAIN TALK!

In anticipation of an early and large spring trade we bought in large quantities the leading lines of the best and finest Footwear to be found in America. A combination of circumstances (viz., the forced sale of the stocks of two of Maysville's old and honored shoe merchants on this market, an extremely cold and backward spring, etc.) necessarily forces us to sell more shoes in a shorter time this season than heretofore. To meet the emergency of the hour, (as it has ever been our purpose,) and give our patrons the

VERY BEST VALUES IN FOOTWEAR!

We have determined to cut our profits rather than our sales. With this we begin at once. Our entire stock is fresh and new—everything up to date—bought at a time when footwear cheaper than ever known in the history of the world, and at the low prices we name (quality and style considered) cheaper than are to be found in the market. Come and see us. You will be pleased with what we have for you.

Warranted Superior to any Bicycle built in the World, Regardless of Price.

Read the following opinion of one of the most prominent American dealers who has sold hundreds of these wheels:
RICHMOND, VA., OCTOBER 24, 1894.
Indiana Bicycle Co., Indianapolis, Ind.—Gentlemen: The Waverley, Scorchler and Belle came to hand yesterday. We are afraid you have sent us the high priced wheel by mistake. You can't mean to tell us that this wheel retails for \$67? We must say that it is, without exception, the prettiest wheel we have seen, and, moreover, we have faith in it, although it weighs only 22 lbs., for of all Waverley's we have sold this year and last (and you know that is a right good number), we have never had a single frame nor fork broken, either from accident or defect, and that is more than we can say of any other wheel, however high grade, so called, that we sell. We congratulate ourselves every day that we are the Waverley agents. Yours truly,
