As foreshadowed in THE LEDGER some days ago, Mr. L. Ed. Pearce has been appointed Auditor of the city of Lexington. And now come the "kickers" who say that he is ineligible, because as late as 1892 he voted in Jessamine county, and the law requires a residence of five years in Lexington.

The Ripley Bee is authority for the following: "Just after the hard clap of thunder Wednesday morning, at about 8 o'clock, a large hole was torn in the earth in a corn field on the hillside below the South Ripley Depot. Whether it was from the fall of a meteor or caused by the lightning we do not know, but the hole is there just the same. A lady was standing in the door of Mrs. Howard's residence near by and the shock threw her into the yard."

## The Ledger

### OUR BASEBALL MAN

WHAT HE SAYS OF THE NATIONAL GAME.

The first baseball game of the season will be played in this city this afternoon at the Ball Park.

The club that will wear Maysville uniforms is composed of some of the best amateur talent that can be collected together.

On this team are at least four of the team that gained a National reputation last year by winning from League clubs, while the rest of the players are pretty well known by our "fans."

If this be the case, then go out and "root" the club on to victory.

Our "fans" know the falling of Sammy Lever, and it is to the advantage of our team that he lose his head, so "get together" at the Park this afternoon and show him that you still know the game.

Jimmie Curle arrived last night and this will be the line-up of the local team for the game this afternoon, which will be called at 3 o'clock:

- Pitcher—Higberger.
- Catcher—Kellner.
- First base—Lucas.
- Second base—Gray.
- Third base—Van Winkle.
- Shortstop—Lauterbach.
- Left field—Cox.
- Center field—Wadsworth.
- Right field—Curle.

There should be a large turnout of our people and thus by their presence inspire

the boys to every possible energy so that victory may be ours from the start. A crowd is a great factor in bringing success, and as the admission is very low nobody should miss. If you are a fan, then you cannot stay away. If you are not an enthusiast, then be sacrificing enough to pay the admission price for the pride you ought to have in home affairs.

E. L. Shepherd of Gibsonburg, O., will very likely report in time for Saturday's game. In the event of his reaching here the lovers of the National game are assured of a chance to witness a fine twirler of the sphere. Lauterbach recommends him in the highest terms, putting him above famous Dick Smith, who was the wonder of all batters who met the Huntingtons last year.

In tomorrow's game Curle will do the pitching.

The management is sorely discouraged at the falling off of subscribers. Not nearly enough funds have been pledged, and unless enough interest is manifested by volunteer money the outlook for a team throughout the summer is extremely blue.

It does seem strange that the \$100 a month mark cannot be reached. Rally, boys, to the support of our home team, and place your name upon the list of givers and the return in pleasure will be two-fold. What say you?

Kentucky will be 104 years old Monday, June 1st.

Miss Nannie Payne is quite ill at her home in the Fifth Ward.

The spring trade is getting ripe. Now's the time to plant advertisements in THE LEDGER.

The advertising columns of THE LEDGER speak for themselves. They show that people who know how to advertise know also WHERE to advertise.

Perhaps the oldest fireplace in this country is in the home of a Bangor man. The fireplace was built over 200 years ago, in West Boyford, Mass., and it is set up in the house perfect and standing, with the same kettle, tongs, etc., as it was 200 years ago.

The Supreme Court of New York has declared unconstitutional the bill increasing the state appropriation of \$50,000,000 to \$55,000,000 for the building of a subway rapid transit road from the Battery to Harlem, and the work will now probably be abandoned.

If the great English Dictionary of the London Philological Society is completed it must be in a more condensed form than the first volumes indicated. In twelve years' time the editors have finished only four letters of the alphabet, and the expenses of the undertaking have grown to enormous proportions.

## When You're Seriously Ill

You consult a doctor of known reputation. Same rule should apply to your watch when it is out of order, whether a cheap one or a fine one. If you bring it here no matter what it may need you can rely on having it repaired as well as it could be done any place—factory not excepted.

We also sell watches of every grade, from the lowest priced to the finest thing made, costing from \$2 50 to \$250, and no one can give you a lower price on same quality than you can get at

BALLENGER'S.

## THE RAILROAD WON.

City Council of Louisa Has to Take the Back Track.

The Kentucky Railroad Commissioners were at Louisa a few days ago, where they settled a dispute between the citizens of that place and the C. and O. Railroad.

It seems that the City Council of Louisa passed ordinances imposing excessive fines for allowing loaded cars to remain on the C. and O. tracks near the depot, which was located in the center of the city.

The road officials, to even up things, built a shanty outside the city and used it as a depot.

A committee of citizens waited on the Commissioners and protested against the removal of the depot.

The Commissioners, after hearing the case, informed the committee that if the City Council would repeal the obnoxious ordinances they would order the road to go back to the old depot.

The proposition will be accepted.

## Sticky Fly Paper and Poison for Flies and other insects at Chenoweth's Drugstore.

## Model Obituary.

A Georgia Editor comes to the front with the modern style of death notices, thus:

Poor Jim Brown hung his earthly garments on a limb and swam the river yesterday. He didn't stand back because the water was cold, but plunged right in, rose smiling, struck out for the other shore, hand over hand, where the angels were waiting for him with a finer suit of clothes than poor Jim ever wore in his life.

## FERRIS WHEEL RE-ERECTED.

The Famous World's Fair Attraction Again in Operation.

Practically under the auspices of the United States Government—for it is not only marked on the Government charts of the lakes, but is hereafter to figure in the lighthouse reports—the re-erection on the North Side of Chicago, adjacent to Lincoln Park, of the Ferris Wheel, which will be remembered by the hundreds of thousands of visitors to the World's Fair, was signaled at noon today in the presence of a crowd of several thousand people. It has a height of 305 feet above the lake level, and from the top of its spires the city of Milwaukee, ninety miles distant, can be seen with the aid of a fieldglass.

Three thousand incandescent lights will illuminate the gigantic periphery from dusk to sunrise, and its value as a lighthouse has already been recognized by the decision of the Government officials to issue a supplement for the benefit of the marine interests. As reconstructed, there are thirty passenger carriages and five elegantly equipped dining and buffet cars, the latter being intended for convivial parties that desire to dine en route. The grounds around the wheel have been arranged after the tropical style while the buildings and entrances follow the German antique.
