

PUBLIC DAILY LEDGER

SIXTH YEAR.

MAYSVILLE, KY., MONDAY, MAY 31, 1897.

ONE CENT.

Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

THE SPANISH OUTGENERATED.

Gen. Maceo Tricks the Enemy and Crites the Insurgent Forces.

A New York Herald special from Key West, Fla., says: Well-informed passengers from Havana confirm advices received by mail that Maceo has crossed the trocha at Artemisa and joined other insurgent forces in Havana province. They declare that the report circulated by Maceo of his encampment at Caerajicara and a contemplated attack on that town was merely a feint of the rebel leader to concentrate the Spanish troops at that point.

That the ruse was successful is proved by the fact that Gen. Gonzalez Munoz, with large forces, was sent in that direction to attack Maceo, but upon their arrival at Caerajicara the Spaniards found nothing but a deserted camp.

Maceo's followers under forced marches then made a detour to the southward and suddenly appeared at Artemisa, the central post on the line of the trocha. Giving his men temporary rest, the insurgent chief sent word to the commandant that he intended to bombard the town, giving the inhabitants five hours in which to leave the city. Not heeding Maceo's threats, the Spaniards would permit no one to leave. The result is known from the reports which have already been cabled from Havana.

Maceo opened fire on the town with his artillery, and 20 shots from the rebel dynamite gun were thrown into the city. Every building is said to have been leveled, while the slaughter of non-combatants was appalling. During the carnage Maceo and his followers crossed the line of the trocha into Havana province, where they joined the forces of Gen. Aguirre.

MUST WEAR SOCKS.

Parents Object to Barefooted Escorts for Their Daughters.

Repeated complaints are coming to the Cambridge police about the costumes, or rather, the lack of costumes, of the Harvard athletes, who every afternoon run through the streets of Cambridge for exercise. Two years ago similar complaints were made, and the result was that the captains of the various teams united in a circular letter asking the candidates to wear more clothing while exercising, but the clothing has been getting less and less, and again the inhabitants of Cambridge have asked the police authorities to take immediate action. They say they do not mind merely have the students run in the streets, with their tight-fitting running trunks, and no stockings at all. But they do object to having their daughters walking around with men in such costumes. It is thought that the faculty will issue an edict on the subject soon.

Prayer Rings in Olden Times.

Decorative rings, or rings having ten projections on their circumference, were once very popular, not only in religious orders but among serious people. They were used to keep accounts of the number of prayers recited. The knob or large setting designated a paternoster; the ten projections each counted an Ave.

The Westfield (Ind.) News prints the following in regard to an old resident of that place: "Frank McAvoy, for many years in the employ of the L. N. A. and C. Ry. here says: 'I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for ten years or longer—am never without it in my family. I consider it the best remedy of the kind manufactured. I take pleasure in recommending it.'"

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists; price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention THE PUBLIC LEDGER and send your full Postoffice address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.
