SWORN CIRCULATION

LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can lose over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

We Have So Many Good Things

In our different lines to show you that we cannot call your attention to all of them in this ad. We will name a few of our leaders that we want you to call for and judge their merits:

First—Our New Covert Cloth English Top Coats,
a very swell garment, exclusively confined to us. Prices range from

\$10 to \$22.50.

Second—Our Custom-Made English Cheviot and Scotch Wool Suits.

We have them in the very latest designs, both cut and style of cloth. This line we think the greatest we ever had. You will think so, too, when you see it. They range in price

From \$9 to \$25.

Third—Our Clay Worsted Suits

Are the best values imaginable. We bought them long before the Tariff Bill went into effect, and are enabled to sell them at much less than the manufacturers can make them for now. They range in price

From \$7.50 to \$20.

The latter price represents our custom-made, and would cost you \$35 elsewhere.

The Smith & Stoughton

Come in and try on a pair of them. Respectfully,

The most striking trade effect of cheaper silver has been the astonishing increase in the variety of articles made of the metal. The making of plated ware, which in former years was such a flourishing industry, has been greatly crippled. The genuine article has got within the reach of almost everyone.

Paving blocks made of meadow grass are now manufactured. Their inventor was a clergyman, and the meadow grass, impregnated with oil, tar and resin, is pressed into blocks and finally bound with iron straps. The advantage claimed for these blocks is that they are noiseless and elastic, resist wear well and are impervious to heat and cold.

The great wall of China was recently measured by Mr. Unthank, an American Engineer. His measurement gave the height as eighteen feet. Every few hundred yards there is a tower twenty-five feet high. For 1,300 miles the wall goes over plains and mountains, every foot of the foundation being of solid granite, and the rest of the structure of solid masonry.

A sample of cloth one inch square was recently sent to the Androsocogin Mill, in Lewiston, to be copied. In a week the looms were turning it out by the yard. The little sample is placed under a glass and magnified. The artists study it and then set the machines to make it. The finest cloth is dissected before it is copied, and only men of rare mechanical skill can do it.

London has followed the example of Paris in paying waiters only in tips. A man employed in a first-class hotel, who was arrested recently for overcharging guests, gave as an excuse that he was provided in the morning with \$20 in checks and had to make the sum good by evening. He received no wages and was charged for breakage. His character was good, and the truth of his statements was not denied.

Yellow Jack Killed.
Cascarets, Candy Cathartic kills Yellow Jack wherever they find him. No one who takes Cascarets regularly and systematically is in danger from the dreadful disease. Cascarets kill Yellow fever germs in the bowels and prevent new ones from breeding. 10c., 25c., 50c. All druggists.

IT IS EASY TO TELL.

People who fail to look after their health are like the carpenter who neglects to sharpen his tools. People are not apt to get anxious about their health soon enough. If you are "not quite well" or "half sick" have you ever thought that your kidneys may be the cause of your sickness?

It is easy to tell by setting aside your urine for twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate, scanty supply, pain or dull ache in the back is also convincing proof that the kidneys and bladder are out of order.

There is satisfaction in knowing that the great remedy, Dr. Kilmer's Swamp-Root, fulfills every wish in relieving weak or diseased kidneys and all forms of bladder and urinary troubles. Not only does Swamp-Root give new life and activity to the kidneys—the cause of trouble, but by treating the kidneys it acts as a tonic for the entire constitution. If you need a medicine take Swamp-Root—it cures. Sold by druggists, price fifty cents and one dollar, or by sending your address and the name of this paper to Dr. Kilmer & Co., Binghamton, N. Y. you may have a sample bottle of this great discovery sent to you free by mail.

New Tenants of the White House.

The first and only pictures Mrs. McKinley has had taken in ten years appear in the October number of The Ladies' Home Journal. They form part of a series of new and unpublished photographs of the new occupants of the White House. Mrs. McKinley wore for her picture her inaugural ball dress of silver and white brocade, at the special request of the President, who thought it particularly becoming. The excellent portrait of Mr. McKinley in his office was taken in June. The other pictures in the series show the many changes in the arrangements and furnishings of the rooms and grounds, made by the President and Mrs. McKinley.
