Mr. Thomas A. Davis, Maysville, Ky.—Dear Sir: I write to inform you that we have not received THE LEDGER on two evenings of this week. Some people blame us, and some blame you, for the non-appearance of same. If you can enlighten us any in this matter please do so, and oblige. HARVEY G. DYE, P. M.

The Pittsburgh Coal Exchange took action in reference to the removal of wrecks obstructing the channel at Merriman. A coalboat stage is coming and the coal operators had to act quickly, in order to get the coal out. Diver S. W. Carpenter, who went to Merriman Wednesday, was unable to raise the barge or remove the rails in time to permit of coal shipments. The Charles Hook was secured and left shortly after noon with a crane boat. She will pull the sides out of the barge loaded with rails. This will permit the rails to roll onto the bottom of the river, and coal operators are of the opinion that, as the barge will go to pieces, the boats will be able to take tows over the rails. There are several million bushels of coal awaiting shipment, but none of the operators had made up their minds what boats they would send.
