ROSENAU BROS.,

KINGS OF LOW PRICES. PROPRIETORS BEE HIVE

If your watch falls to keep good time take it to Murphy. His work is warranted.

There was a fine audience last night at the Opera-house to see Haverly's Minstrels. The sketches, dancing and singing was first class and every one seemed to be pleased with the character of the entertainment.

SERIOUSLY INJURED.

An Intoxicated Man Falls Off a Wall on West Second Street.

About 8 o'clock last evening a man, who was considerably worse for liquor, fell off the stone wall on West Second street, just West of Schultz, and was seriously hurt.

Several parties who saw him fall immediately ran to his aid. They found him bleeding profusely from a cut in the head.

He was conveyed to the office of Dr. C. C. Owens, where he was cared for in the best possible way under the circumstances.

When he reached the Doctor's office he was unconscious from the combined effects of the drink and the fall and was unable to give any information as to his identity.

He was sent to the Diener House where later in the night he told the Hotel people that his name was Bob Powell and that he lived at Greenville, O. At another time he stated that he lived above Aberdeen.

When found he had a bottle of whisky and two or three watches on his person, and claims that a well known citizen had taken \$18 from him before he met with his mishap.

When seen by THE LEDGER man this morning Powell was in a very bad shape, unable to talk and it would not be surprising if his injuries result fatally.

ARGUMENTS WORTH CONSIDERING.

Some Facts Regarding Expansion and the Results That Accrued to This Country.

REASONS WHY WE SHOULD KEEP PHILIPPINES

The following strong and interesting arguments for the retention by the United States of the Philippines are from Paul Webster Eaton in The Washington Post:

THE CONSENT OF THE GOVERNED.

If governments derive their just powers from the consent of all the governed, no just government is possible.

If from the consent of "some of them," a majority of those capable of intelligent judgment should decide.

If the opinion of savages is to be our guide, we should restore this country to the Indians. When they were acting as free agents the so-called Filipino Congress voted 7 to 1 for annexation.

Representatives of the property-owning class came here to urge it.

Reliable correspondents at Manila report that two-thirds of the natives desire it.

The laboring element favors it.

Ramon Reyes Lala, "the only American Filipino," says: "My people are not ready for independence. It is not the best element who are following Aguinaldo."

Aguinaldo dismissed his first cabinet because they declared for annexation.

INDEPENDENCE IMPOSSIBLE.

The Filipinos have displayed wonderful ability in the art of misgovernment.

Their incapacity was shown by their foolish attack upon our troops while important measures were pending.

By their rehabilitation of a leader who had betrayed them for money.

By seeking our expulsion when it could only lead to the absorption by less liberal powers.

Their so-called Government lacks nearly every requisite demanded by international law.

Aguinaldo was never elected by the people. It is he who wishes to govern some of the races concerned without their consent.

His public acts disprove the extraordinary claim made for him.

His attempts to blackmail the Vatican and Spain by extorting ransom for prisoners is distinctively the act of a pirate.

His last offer of a marked-down sale of prisoners, like his other proceedings, shows a keen commercial instinct.

His followers fire on flags of truce, disguise sharpshooters as women and plan indiscriminate massacre and arson.

THE ADVANTAGE OF FILIPPINES.

Dewey's 13-inch arguments are the best in such cases.

Anti expansionists talk as if "humanity" were a local issue.

Shall we make a monopoly of civilized government?

Must we acknowledge ourselves the only Nation incapable of propagating its institutions?

Holland, by ruling 20,000,000 Malays, has benefited them and herself. Can we not govern 10,000,000?

They have no chance of civilization or ultimate independence without us.

Subjection to Spain or other European powers or a relapse into anarchy are the inevitable alternatives.

We offer, instead, the proper administration of justice and security of life and property.

Shall the world limits of liberal government or those of despotism be enlarged?

Let us not be afraid and go and hide our talent in the earth.

THE ADVANTAGES TO US. Our presence in the Philippines will not cause friction with foreign Nations.

It will prevent it, because they cannot openly establish agents there to intrigue against us.

Without a foothold in the Orient we may be forced out of the world's best undeveloped market, where half of mankind are purchasers.

With it the Pacific may become "an American lake."

We already manufacture more than we use. Here is the outlet we need.

This is not merely a matter of foreign interests.

It is a question as to how many people can be supported in comfort here in this country.

The principle which modifies the law of Malthus and determines the limit of population in any country, as proved by Mill and other authorities, is—

The population will increase up to a point at which the lowest standard of living that will be accepted by the mass of the people is reached.

With new markets, and more employes required in production, manufacturing and transportation, our home population will expand without a corresponding increase in competition.

European powers see this and wish to forestall us.

Once established in the Orient they might allow us to sneak into some ports, under certain restrictions, after dipping our flag and saluting theirs, but probably not.

It is the world against us.

But in this game there are three of a kind that beat four aces.

They are America, Eng. and Japan.

COLONIZATION.

The world's progress is due to the domination of superior races.

Thus England was built by Saxon, Dane and Norman.

Had she not colonized we would not be here. She would not be the first power of Europe.

Constitutional Government might have perished from the earth.

Our alleged failures with the Negroes and Indians indicate that we can govern alien races successfully.

Our Negroes are more prosperous than similar people elsewhere.

Such of our Indians as accepted the opportunities offered to all are conspicuously well-to-do.

Santiago de Cuba improved more in five months under us than in fifty years before, (another one of our "failures.")

These are arguments for Expansion, not against it.

No doubt the Boston organs of a feeble policy would like to have Aguinaldo annex us.

They always abuse our own people, and nothing enrages them so much as criticism of our opponents.

They have made an impressive display of ignorance of international law, political economy, and business and moral principles.

Their opposition is strong argument for the virtue and intelligent action of the Administration.

Mugwumps are always wrong.

CONSTITUTIONALITY.

This country was once informed that the Louisiana Purchase was unconstitutional and would be its ruin.

It was our salvation.

Alien races would have peopled that territory if we had not.

In 1861 we were told that it was unconstitutional to coerce the South.

We preserved the Union.

Chief Justice Marshall has said: "The Constitution confers absolutely on the Government of the Union the powers of making war and of making treaties, consequently that Government possesses the power of acquiring territory either by conquest or by treaty."

There is nothing in the Constitution to the contrary.

Your Boy or Girl

Will be better for having a watch. There will be fewer tardy marks and fewer broken appointments. They will learn the value of time, that life is made up of time, just moments of time, and those moments put to good use make life a success or failure. Teach them to be at school on time, to meet the train on time, in fact, do everything on time and thereby shorten the cares of life. We have Watches to suit all sizes and conditions, for boys, girls, ladies and men, from \$1 up. Come in and look at them.

COUNTY COURT DAY.

Next Monday Will Be An Attractive Day In This City.

Monday, April 10th, will be County Court Day in Maysville but not the sleepy old kind of which you know but a day of attractive things. All our merchants will offer special inducements to purchasers and at this early spring season when the stores are full of new, attractive and up-to-the-day goods you will quickly grasp what is meant by this suggestion.

Stock sales will be held on Limestone street and the prospects are most flattering for a great crowd of people, buyers and raisers. So if you have something to sell bring it in.

Now, for your amusement the Board of Trade has arranged for a free balloon ascension. This will occur in the early afternoon and will be most thrilling. The only colored aeronaut on earth will make the flight to the clouds.

Any Ohioian who comes to Maysville Monday next will be brought across the river free of charge. Such an invitation is heartily extended all our Brown and Adams county friends, together with their neighbors. If you have never been to our city, take advantage of this invitation and come, and the bargains you will have a chance at, the joys you will have given you shall firmly establish in your mind the one solid fact that Maysville is a central market in all lines.

County Court Day will take on new life. Stock sales like the days before the War will be instituted and the merchants will offer bargains which are sufficient to entice you because by these you can save money.

You had better come.

The Crowds Are Coming!

The first day's sale of Hechinger's Selling-Out Sale points to the fact that the people are going to take advantage of it. As unseasonable as the day proved to be many customers had to await their turn to be waited on. The efficient force of salesmen handled the crowd nicely, and at the wind-up of the day's business it is believed all were waited on satisfactory.

The Stock Being So Large and Consisting Only of New, Choice Goods,

Is a guarantee to those who perhaps find it inconvenient to attend the sale at its beginning, that they can rest assured that they will find the correct things, no matter when they come. Naming prices in newspapers means nothing. Compare Hechinger's goods with those of other houses, at home or abroad, and you will quickly see what this sale means to you.

Men's and Boys' SHOES!

Are features in this sale. Smith & Stoughton, Packard & Field and Hanan's are the brands. None better in the world.

COAL!

100,000 Bushels of Chesapeake and Black Band Coal at Pomeroy prices. For sale only by

Wm. Davis NEAR LIMESTONE MILL.

THE NEW Black Crepons.

Counted them yesterday at noon—27 of these brand new elegances in black. How the looms are taught to do such beautiful tricks it's hard to tell.

Here is a Crepon with ribbon-like stripes a third of an inch wide. They form plaids but at each intersection the ribbons clasp as if in a hand shake. Another has wider cross stripes laid on plain, while stripe and back ground are thickly strewn with silk dots.

Here is one that looks for all the world as though the zig-zag figures were embroidered by hand. Not expensive either—\$1.95 a yard.

Think of a tiny bead broken in bits. The pieces are as large as those that glisten in the weft threads of one Crepon. These brightened threads are quarter inch apart.

Another weave has the effect of chenille threads scattered with half careless hand. This group is called "Mexican"—a number of variations of plain thick and thin designs.

Some new Crepons are almost perfect crepes. They will all wear well—it is an unusual combination—elegance plus service. An important family are the \$1 Crepons with degrees of added beauty marked by price advance to the height of \$3.50.
