

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

We are having an abundance of rain and all crops are exhibiting a rank growth. On account of the severe drouth last year there was but little wheat sown and the unusual long winter that followed, and then plentiful rains in the spring, caused it to be thin and weedy. The usual amount of tobacco is out and in fine growing order.

HERE'S A GOOD ONE

"Tit Bits" Tells the Champion Bicycle Lie of the Season

The other day a man was relating a few of his wonderful performances and remarkable escapes from death whilst cycling. He was a good talker and held his listeners spell-bound. "Fair," said a small man in a corner, "but it ain't up to my sample." Then, clearing his throat, he commenced:

"I was riding a brakeless bicycle down a steep hill in the North, when the chain snapped, and in a few seconds I was spinning down the hill at about sixty miles an hour. Near the bottom of the hill the road turned at right angles, and an old thatched cottage stood directly in the way. While undecided whether to risk the sudden turn or the equally dangerous crash, a man came along the road with a plank, which he leaned against the eaves of the cottage while he had a rest. Quick as thought I rostrated for the plank, and was soon careering wildly up the straw-covered roof. The cottage and a few assistants were at the back shak' carpets, and I and my machine, toppling o into their midst, were caught in the middle of the outstretched carpet, and gently lowered to the ground."

Then there was a silence while the company thought the matter over.
