A MATTER OF HEALTH

ROYAL BAKING POWDER

Absolutely Pure HAS NO SUBSTITUTE

Services will be resumed at Washington next Sunday. Preaching by V. C. Carpenter at both services. Everybody cordially invited.

The C. and O. folks are going to make a pretty little park at their Depot at Dover. What's the matter with the grounds at Maysville?

Mr. Arthur F. Curran sold for Mr. Charles W. Lurvey of Little Rock, Ark., a house and several lots in Dover to Mrs. Ella Buchmann for \$750 cash. It was dirt cheap.

One would hardly believe to look at him that Charley McNamara, the genial cutter at D. Hechinger & Co.'s, distinguished himself as a fire fighter last Friday evening. Charley was leisurely strolling along Fifth street, when he discovered smoke curling over a stone wall that abuts one of the hillside residences in that thoroughfare. Charley immediately smelled danger and sent in a still alarm. With the assistance of a boy and a bucket of water, which was brought to him, he was about to subdue the flames, when the lady of the house, who was burning dry grass and rubbish in her yard, looked over the wall and asked Charley if there was anything the matter with him. For a few moments there was nothing but silence, and then when Charley had gone a few steps he remarked in a stage whisper, which was audible to those in the vicinity, "I wish the damned house had burned down."

Don't Despise Pennies

Enormous Business of the Slot Machines in Cincinnati

With the sweeping order of Mayor Fleischmann prohibiting the further use of slot machines in Cincinnati The Times-Star gives some interesting facts regarding the extent of the business in that city.

The "penny" business in the United States Sub-Treasury has grown from almost nothing to such proportions as to require the attention of two men for from one and a half to two hours daily. "Before the advent of the slot machines," said E. A. Laque, in charge of the coin desk at the Sub-Treasury, "we used to count all the pennies in a few minutes in the afternoon by hand. Now we count them by machinery for nearly two hours every day. We sell between \$300 and \$400 worth of pennies every day, and it is safe to say that two-thirds of them are for use in the slot machines.

"There is in daily circulation in this city between \$15,000 and \$20,000 in slot machine pennies. Saloonkeepers bring them in here in lots as high as \$200 at a time. One day last week we had on the floor \$1,200 worth of pennies, which had come in that day. The larger saloons have about \$400 or \$500 worth of pennies on hand all the time. These are, of course, played over and over again in the machines, being passed out to the customers in exchange for silver money. Of course, there are many of the saloonkeepers who do not come here to get pennies or to exchange them for other money. They do that business through their banks. We have no means of knowing anything about that part of the business, but we know that a great deal of it is done."

James Hoban is the man in charge of the counting machine in the Sub-Treasury. He and his assistant were at work counting the

PENNY FACTS.

One hundred dollars in pennies weighs 663 pounds.
Capacity of an ordinary freight car is 30,000 pounds.
Over a carload of pennies is "played" every day in Cincinnati.
To transport the pennies played in a year would require 405 cars.
That is equal to more than 20 trains of 20 cars each.
A penny is approximately three-quarters of an inch in width.
Placed side by side the pennies spent in Cincinnati slot machines in a year would reach around the world at this latitude and lap over as far as from Cincinnati to Carson City, Nevada.
Placed in a band 40 pennies wide they would reach to New York City.
In a band 20 pennies wide they would reach to Corpus Christi, Tex.
A pile of pennies an inch high contains 18 coins.
A pile of pennies equal to the amount spent in Cincinnati slot machines in a year would be 1,600 miles high.
Laid on the ground that pile would reach from Cincinnati to Boise City, Idaho, to Vera Cruz, Mexico, or from New Orleans to Panama.
Cincinnati contains 43 square miles.
The pennies spent in a year in the Cincinnati slot machines would cover a plot of ground containing 147 square miles, or more than 12 miles square, almost three and one-half times the area of Cincinnati.

pennies contained in a bag which had just arrived. The bag was supposed to contain 20,000 pennies. The coins were in small sacks, each containing \$10. The sacks were opened and the contents dumped out upon a board. Running the length of the board are strips of brass, dividing it into 20 shallow channels. Each channel holds just 50 pennies. The coins fall into these channels when the board is tilted and when they are full there is just \$10 on the board. Mr. Hoban and his assistant go over the rows of pennies with a quick and unerring eye and every worn or mutilated coin is extract-

ed. The places are filled with good pennies and the lot dumped into a new sack, stamped "\$10." The old coin is sent to Washington for redemption.

"Before the slot machines were in use," said Mr. Hoban, "we used to see very few pennies. There was in the city only one institution that sent us any amount of the coins. They would come in every Thursday, and how we dreaded the coming of Thursday! It meant the counting of 15,000 or 20,000 pennies by hand. When the machines were first introduced we had some trouble in supplying the demand for the coins, but gradually we were able to meet the demand. Now we are able to keep up with it until about a month or six weeks before Christmas. Then a rush begins, and it is sometimes necessary for Cashier Stout to order the coins shipped direct from the Mint to the persons purchasing them, without troubling this office. After the holidays the coins begin to accumulate. Since January 20th, we have accumulated in the vaults \$14,000 worth of pennies, having that amount on hand now. We are anticipating a great rush after the first of April, when the machines will shut down. The pennies we are counting now come in to us by weight. The saloonkeepers figure 150 pennies to the pound, \$100 worth weighing 66 2/3 pounds. Our counts show this reckoning to be very nearly correct. Sometimes there are a few coins over and sometimes a few are short, but the average is correct."

The United States has the only genuine horse marines. Twelve marines have been mounted at the Navyyard, Mare Island, Cal., and regularly patrol the island.

LAYTON—FYFFE.

Mr. A. C. Layton, aged 30 years, and Miss Nancy A. Fyffe, aged 19 years, were married Saturday night at the home of the groom in Short street.

For that tight feeling in your chest

There is a remedy over 60 years old—Ayer's Cherry Pectoral. Of course you have heard of it, probably have used it. Once in the family, it stays; the one household remedy for coughs and hard colds on the chest. Ask your doctor about it.

RESOLUTIONS OF RESPECT.

At the last meeting of Mason Lodge No. 33, I. O. O. F., of Maysville, the following resolutions were adopted—

Whereas, the Death Angel has visited our Lodge and removed from our ranks our well-beloved brother, Edward Marshall Williams, in the prime of young manhood; be it therefore

Resolved, by Mason Lodge No. 33, I. O. O. F., through its Committee, that we shall cherish in memory his aimable and gentle qualities of mind and heart. We shall miss him in our councils and deeply lament his untimely taking off. His ever courteous and gentlemanly manner and bearing presaged for him a career of usefulness. With softened hearts, we extend to his sorrowing family our sincerest sympathy in their irreparable loss: be it further

Resolved, that these expressions be made a part of our records, be published in The Maysville Bulletin and PULASKI LEADER and that a copy of the same be presented to the family of our deceased brother.

M. H. DAVIS,
S. M. ROFF,
T. H. ROBERTSON,
Committee.

SECRET

KNIGHTS OF ST. JOHN CABETS.

MAYSVILLE CHAPTER, R. A. M.

Stated meeting of Maysville Chapter No. 2, R. A. M., at Masonic Temple at 7:00 this evening. Visiting Companions invited.
A. T. THOMPSON, H. P. Gordon Sulzer, Secretary.

Boston papers are noting that the \$8,000 Governor of Massachusetts will have a \$15,000 chief of staff. Likewise the Governor of New York will pay his Private Secretary twice as much salary as he will get himself.

By substituting lines of small ball-bearing for the ordinary groovings of rifle barrels an Englishman claims to increase by 40% the average velocity, penetration and range of the projectile.

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, frequent headaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bloat after eating and frequently become nauseated. I had an acrid discharge and pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

ness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors, who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound. Experience has proved this.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is free and confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Winchester succeeded in raising the necessary amount to insure rebuilding Kentucky Wesleyan College.

Chinese are in an excited state and say notification has been received that the Japanese will enter Harbin April 10th.

It is thought 60 miners were killed and many more entombed by an explosion Saturday at Red Ash Mine near Charleston, W. Va.

There has been a great advance in the gypsum industry of the United States in recent years, the output for 1903 having exceeded 1,000,000 tons. The expansion has resulted mainly from the increased demand for gypsum wall plasters, which have almost entirely supplanted the ordinary time plasters for modern structural purposes. A very large quantity is used also in the manufacture of plaster of paris and as fertilizer.

Railway Matters

Very Low One-Way Settlers' Rates to the West, Northwest and Southwest via the Big Four Route.

Very low one way settlers' tickets on sale daily March 1st to May 15th to points in Washington, Oregon, Montana, Utah, British Columbia and California. Also, homeseekers' round-trip tickets to the West and Southwest every first and third Tuesday until April. If you are contemplating a trip soon to any point in the West you will find that it will be to your interest to write to the undersigned, stating fully your point of destination, your nearest railroad station, the number in your party and the date you wish to start. He will give you full information, the exact cost of your trip or if you desire will call on you in person and explain everything fully to you. A letter addressed to him, giving him the information, may be the means of saving you several dollars. R. C. Kennedy, Southeastern Passenger Agent Big Four Route, Huntington, W. Va.
