**Yours to Benefit.**

Hundreds of progressive merchants have discovered they can best serve their customers by selling carpets from rug size samples. There are four good reasons why this method benefits you:

First—You have a greater variety from which to select.  
 Second—You have the latest patterns from which to choose as new samples are sent each season.  
 Third—You receive fresh new goods. No danger of shop-worn stock.  
 Fourth—You buy cheaper because in just the proportion that our carpet investment is reduced, our ability to sell cheaper is increased.

We have no expense for taking care of stock. No remnants nor unpopular patterns to be disposed of at a loss. Our investment is nothing under this method therefore the narrowest profit is sufficient. This statement merits your investigation. If you are a judge of carpet quality we particularly invite it.

 There's a real airship in the big Second street show window of Merz Bros. Bee Hive Store. It's an exact duplicate of a Bleviot aeroplane, about four feet in length, run by a 1/2-h. p. motor. It's quite a cute advertisement of the "Regal Shoe," and under the aeroplane is an illuminated globe, showing by white dots every Regal Shoe agency on earth. There are thousands of dots and they indicate that the Regal Shoe is sold in every civilized country on the globe. It's worth seeing. Look in the Bee Hive window.
