There are other good cooking stoves and A. J. Egnew & Co., keeps them in stock, but if there are two stoves in existence which lay just claims to superiority in many respects over all others they are the OMAHA AND HOT BLAST CHARTER. We have not the space here to point out their many merits but call at our establishment on Market street and we will take great pleasure in doing so there, whether you wish to buy the stove or not. We consider it the best stove in the market. oct30d&wlm. A. J. EGNEW & Co.

PLAIN TALK IN PLAIN WORDS.

Captain Weller Writes a Card Which Hits the Bull's Eye in Regard the Recent Catlettsburg and Ashland Trouble.

To the Editor of the Sunday Argus.

Referring to the late collision of the state troops with the mob at Ashland I desire to call the attention of the public generally to one point which all who prate so glibly about "murderous butchery," etc., seem to have overlooked. The steamer Granite State, on which the troops were, was a common carrier, conveying goods and passengers from one point to another. Among her passengers were several citizens, including two young ladies, at least. Why did those innocent, law abiding people, numbering thousands, stand on the river front of Ashland and allow a mob of "eighteen or twenty boys or men" to capture a boat and fire on the state officials who were aboard this common carrier? Why did these innocent Ashlandites not stop to inquire if there were any women and children on the Granite State before they opened fire? The Ashland people have proved to be the most accomplished liars in the state by their statements concerning this unfortunate affair. I myself saw the first shot fired from the ferryboat, by a man armed with a bright barreled gun, who took deliberate aim at Major Allen or the pilot, and the volley that followed it. I saw shots from the shore. I know that the command to fire was withheld almost to the limits of endurance, and I assert that the crowd on the bank, composed, as it was, in large part of about 1,000 men who had threatened us at Catlettsburg, was in full sympathy with the mob and was there for the purpose of witnessing our discomfiture, the capture of the prisoners, the overthrowing of the law and the murder of the state troops charged with the duty of taking the prisoners safely to Lexington. More, they must have known that we could not stand idly by and see our men shot down without resistance. They must have known that the Granite State's captain and crew were following their daily vocations, and that there were passengers—"innocent spectators" is the Ashland term—on board. Such reasoning as we get from those who sympathize with the mob is absolutely disgusting to those who were unfortunate enough to be engaged in the fight. Major Allen's official report, and my assertions can be corroborated by two hundred of as good men as ever set foot in Ashland, and if judicial inquiry is made, the assumed garb of innocence will speedily fall from the shoulders of these would be martyrs.

As one of those "butchers of women and children," upon whose heads all sorts of deep damnation have been called by those immaculate saints at Ashland, I ask you to insert this card, and would be glad if every paper which has published accounts of the affair would copy it. We are not ashamed of the part we took in the affair. If innocent blood was shed we regret it, but we do not wish to be classed as murderers because we did our sworn duty, and only fired, as I assert again, when the most extreme provocation was given, and then by command of both civil and military authorities. D. F. C. WELLER, Captain Commanding Louisville Legion Detachment.
