THOMAS J. STEPHENS is the Democratic candidate for Mayor of Cincinnati.

The helplessness of women is generally seen when the hired girl leaves in a hurry.

THE Democratic State Convention of Rhode Island on Tuesday nominated William Sprague for Governor.

The Salvation Army at Bombay, under the lead of "Captain (Miss) Thompson," is attracting much attention from the Arabs. They form a large proportion of the congregations who gather in that tent.

By the ruling of Secretary Folger all the nickel pieces of the denomination of three cents, issued since 1867, are unlawful. He has ruled that there shall be a designation of the value on the face of all coins, and that the "III" on the cent nickel piece does not designate its denomination whether it means three cents, three dimes or \$3.

REFERRING to the exorbitant taxation of railroad property, the Louisville Post says: Our next Legislature should see to it that the thumb-screws of exorbitant taxation are loosened in this State. If Kentucky roads were less heavily taxed we would have more roads to assess, and the revenue to the State would not be reduced.

ABERDEEN ITEMS.

Aberdeen, is a quiet little town its chief notoriety, is being the Green of America, where runaways from parental opposition reach matrimonial felicity. I've sought in vain to find some notable historic fact of people or town, that would give a sort of romance or coloring to the quiet even tenor of its ways. Two years since when a railroad boom was started it did create quite an excitement, it seemed as if the people had got quite awakened from their Rip Van Winkle sleep, they felt a glow of enthusiasm, really their town was going to get up and be doing, would yet come to the front, and in all probability become a river city. Alas, for human, hopes, for human speculations; after having their hopes raised sky-high, all fell flat or at least the hopes are now so far in the distance, the heart is truly sick with "hope deferred." Now there is one feature of the town that could be brought in requisition to the advantage of the town, as also to invalids. The medicated well of Col. Gus. Simmons—if some enterprising man with capital would buy, that is if it could be bought—the Simmons' property, locate an invalid hotel on the place, thus converting the town into a watering place. This seems to be the best thing that can be suggested to give little Aberdeen a prominence—and who knows but it might reach such dimensions and importance as to gain a big notoriety—"large oaks from small acorns grow." Then no doubt a railroad would be constructed and connections made with other cities and towns on an equality of progress and social distinction. As hope even lends enchantment to the human hearts, the people of Aberdeen will keep the glow of hope alive till a full fruition is realized.
