"Strongheart" a comedy drama by William C. de Mille, with its scenes laid at Columbia University, comes to the Winchester on Thursday, March 18.

The author has provided the unconventional role of a college-bred Indian. A football game furnishes an exciting and dramatic episode in this comedy-drama which is certain to rank as the most unusual of stage offerings.

"Strongheart" acquired wide popularity last season at the Hudson Theatre, New York, and at the Park Theatre, Boston, and recently played a return engagement in New York at the Savoy Theatre to undiminished popularity.

Perplexity, Beauty's Mar. The forehead filled with lines is not always a sign of years. Often it is nothing but evidence of bad facial habits. Do you knit your eyebrows when you are thinking of perplexing matters or are down on your luck? If you do you will have a forehead seamed with lines and several deep furrows between the eyes.

## LEXINGTON BALL CLUB MAY BE INCORPORATED

Plan Said To Be Under Way To Form Stock Company With \$6,000 Capital.

LEXINGTON, Ky., March 11.—According to a rumor from a reliable source yesterday the Lexington Base Ball Club will be incorporated within a few days, becoming a stock company composed of local business men with Mr. Sheets retaining a half interest in the club.

Although Mr. Sheets refused last night to affirm or deny the rumor, it seems to be well founded and a number of business men who are said to be interested in the project have declared their willingness to become stockholders. At the present time Mr. Sheets alone owns the club. He began an uphill fight last year with almost every fan in the city predicting that he would lose out and that the team would not be a money-maker. Capitalized at \$6,000.

Despite this they all displayed a willingness to attend all the games with the result that the Lexington team made more money than any other team in the league and proved to be a splendid investment. The team including the franchise, park, site, uniforms and the contracts is now valued at about \$6,000 and it is said that this is the amount at which the new company will be capitalized.

Mr. Sheets has been approached a number of times of late by prominent down-town business men with a proposition that the local team be put into the hands of a stock company and has always refused to entertain such propositions.

However, during the last few days, it is said he was visited by several enthusiastic Lexington business men who offered to take part of the stock and Mr. Sheets then began to consider the offer.

Complete Plan at Once. According to the rumor current yesterday the new company will be capitalized at \$6,000 divided into 60 shares at \$100 each, half of which will be sold and the other half held by Mr. Sheets as his interest. The company is to be incorporated with a number of prominent down-town business men as officers. The arrangements probably will be completed today.

### THREE CRIMES CHARGED

As President of the Defunct Ohio German Insurance Company He is Accused of Embezzlement, Perjury and Obtaining Money Under False Pretenses—Unpaid Losses to the Amount of \$300,000 Said to Have Been Covered Up.

Toledo, O., March 11.—As a result of the probing into the affairs of the defunct Ohio German Insurance company, the Lucas county grand jury has returned five indictments against Judge Michael Donnelly, president of the company. Two of the indictments charge perjury, two embezzlement and one obtaining money by false pretenses. Donnelly is judge of the circuit court in the Third judicial district of Ohio.

The company was barred from doing business in Ohio last December, after an investigation by State Superintendent of Insurance Lemert.

Judge Donnelly is charged with falsifying the resources of the company to the state insurance department. The embezzlement indictments specify that Donnelly applied funds of the company to paying interest on personal debts. The amount involved is large. It is charged that the reports submitted to the state covered up \$300,000 in unpaid losses.

### DENIES INSINUATIONS

Dickinson Says He Has Sold Railroad Holdings.

Chicago, March 11.—Secretary of War Jacob M. Dickinson left here this morning for Washington. He announced that he had finally wound up his business with the Illinois Central railroad and was ready to take up his new duties. "I have always been a Democrat," he said, "and I always expect to be. I have never voted for a Republican in my life, and I regard my appointment to the cabinet as a tribute to the south rather than to myself personally."

"Neither can it truthfully be said that I am going to Washington to represent the Illinois Central railroad or railroads in general. I wish to say at this time that I have disposed of my holdings of stock in the Illinois Central and have resigned my position as attorney for the same road. The charges that I am taking the cabinet place in order that I can preserve the interests of the Illinois Central either on the lake front of Chicago or elsewhere are so ridiculous that I do not care to talk of them."

## URGE GOVERNOR TO VETO SALARY LAW

Democrats Call Attention to Alleged Sleeper.

Columbus, O., March 11.—Governor Harmon refused to commit himself with reference to his attitude on the Gillette bill increasing the salary of county recorders. Democratic senators and others who have taken a stand against all legislation aimed to increase salaries or terms of county officials urged the governor to veto the recorders' bill. As an incentive, in addition to the public sentiment against the measure which they said existed, they urged the governor to take into consideration an alleged sleeper in the bill which, it is asserted, guarantees to the recorders their salaries regardless of whether enough fees in the office are collected to pay them.

Senator Beatty declared he would introduce a bill next session to reduce the salaries of all county officials whom he said were receiving greater incomes than they had made in private life.

Members of the legislature will reconvene tomorrow morning, and it is said to be possible that the senate will then resume legislative business. There is nothing to prevent this, although the understanding was that Tuesday was to be the last working day of the session.

In his appeal Mayor Jackson says there is not a house in the city that has not been damaged, the entire business portion is lost, and only three buildings are left standing.

He suggests furniture, bedding, blankets, tarpaulins, shingles and other roofing materials as the articles most needed by the tornado sufferers.

Water At Junction To Be Used in Making Coca Cola, Pop and Other Drinks.

The work on the new bottling plant at Campton Junction on the Lexington and Eastern Railway right of way will commence in the near future and will be in operation by the first of May. This plant will be different from most of the bottling works of the country as the water will be used in the making of coca cola, pop and other soft drinks.

This spring is noted for its properties and has never been known to run dry and the men who are at present backing the new project have a demand for this water, that is said to assure the success of the company.

The capital of the new company is less than \$10,000, but will be ample for the putting of the establishment on a running basis.

Mr. B. J. Mathews, of Lexington, is the promoter of the concern and many at Campton are interested.

As the spring is near the Campton Junction the water has a ready outlet to market over the Lexington and Eastern.
