## At Four Score.

Dr. Miles' Nervine Restores Health.

UNCLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: "Dr. Miles' Restorative Nervine has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and tired in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. But it gave me refreshing sleep, a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring, full particulars of my satisfactory experience."

Dr. Miles' Restorative Nervine is sold by all druggists and is guaranteed to give relief. First bottle free. Second bottle 50 cents. Third bottle 75 cents. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

## WHY THE BANK FAILED.

(Atlanta Constitution, Dec. 25.)

All who know Mr. William M. Singerly, of the Philadelphia Record, will regret the misfortune that has overtaken him and will sympathize with him in his business troubles.

While this is true, and while our own sympathy goes out to him very strongly, we cannot fail to remember that the editor of the Record has been a most violent promoter of the gold standard. We have no doubt that he is sincere in his belief. This is demonstrated by the fact that he deliberately preached in the favor of the gold standard, and at the same time tried to carry on a productive industry under its operations. He was president of a bank, and at the same time owner of a paper and pulp mill.

The securities of this mill, which were gilled when he negotiated them, became a part of the assets of his bank; but under the operations of the gold standard, money kept on growing "sounder" than the products of his mill. At first the paper made by the mill could be sold for 70 cents a hundred, but the price has fallen to less than 2 cents. Money has grown so much sounder than the product of the mill that the latter will not command one-fifth as much of the former as it did when the securities were taken up by the bank.

Naturally the depreciation of the product was followed by a depreciation of the securities, so that the bank, by hitching its fortunes to a productive industry has been dragged down. It is a grievous misfortune, but it is only one of the myriad of losses which the appreciation of money under the gold standard has given the public an opportunity to study.

The day before the bank of which Mr. Singerly was president failed The Record said editorially:

"Currency in the United States is so abundant that it cannot be loaned to advantage. We are actually loaning the gold balances due us on the sale of exported stuffs to European borrowers, instead of bringing the gold to the United States, because money brings a higher rate of interest in London, Paris and Berlin than in New York. Our paper notes thus serve to keep gold out of this country. Another significant proof of the redundancy of our currency is the rapid retirement of national bank notes. The voluntary retirement of the gold balances due us on the sale of exported stuffs of \$3,000,000. So large an amount has not been retired in a year since the late ten years."

No man who believes in the gold standard and has any knowledge of the certain results it is sure to bring about will permit himself to be financially connected with any ordinary productive industry. That Editor Singerly was both blind in his belief in the gold standard and ignorant of its effects is shown by the fact that he has permitted his pulp and paper mill to drag down a financial institution that was otherwise in perfect condition.

It is a calamity that we are grieved to record, but since it has occurred, the least we can do is to point out the old, old moral—that falling prices take money out of the pockets of the people, and that the financial condition makes and un-makes prosperity in this country and in all other countries.

We cannot have prosperity unless producers can get a fair profit for their commodities and labor a fair return for their work. That is the fundamental law of economy, recognized by all students and all authorities. When it is violated the result is what we see in this country today.

## Read This to Your Children.

A curious shooting affair took place at Pageville Saturday, says the Glasgow Times.

Mr. Logan Estes is the clever blacksmith at Pageville. Friday he killed hogs. Saturday his 13-year-old daughter, Carrie, was playing with her sisters, 5 and 2 years old, and got into a game of killing hogs. In the course of the proceedings the elder child leveled her father's rifle (which she supposed was unloaded) at her two sisters and pulled the trigger, with the usual results. The gun went off, and the ball passed through the thigh of one and through both legs of the other. After inflicting three wounds, the ball went on and no trace as to where it finally imbedded itself can be found. Fortunately, the injuries inflicted are only flesh wounds, and are not regarded as at all dangerous. It is not likely, however, that the game of "hog-killing" will soon be again played in the Estes household.

Free Pills. Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by Perry & Thomas' Druggist, Successors to W. G. White.

THE Hon. George A. Groot of Cleveland, Ohio, left the Republican party five years ago because he believed its financial monometallic policy a mistake. Two years ago he received the entire vote of the people's party in the Ohio legislature for senator. He was an enthusiastic Bryan supporter, being chairman of the committee to notify Bryan of his nomination by the national silver convention.

Mr. Groot considers the money question the one of the greatest moment in the present political situation, and thinks that those who depend on a tariff bill to relieve the present financial distress will be greatly disappointed at the final result.

"There is a great change of sentiment in Ohio since the election," he said recently, "and the change is going on every rapidly. Not a day passes that a number do not tell me they are satisfied that they made a great mistake. 'They have come to realize that the money question is the only one really before the American people, and which will never be settled until it is settled right. McKinley and his administration will not give us any more money, and the people begin to appreciate the fact. 'Business continues to grow less, not only in Ohio, but everywhere else in the country. Times will not improve in the next few years, but will grow steadily worse each year. My reason for making the statement is because there is no more money being put into circulation, much is being stored away in vaults and the population is constantly increasing, making a larger volume necessary for the transaction of ordinary business. 'Either of the above causes will cause a fall in prices, and a constant fall in prices means increasing hard times."

The Surprise of All. Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and had almost recovered when she returned home and wall. Dr. King's New Discovery is guaranteed to do this good work. Try it. Free trial bottles at Perry & Thomas' Drug Store, Successors to W. G. White.

Correspondence. VALLEY VIEW. G. A. Roy was in Cincinnati last Tuesday. F. M. Bryson was in Lexington last Saturday shopping. W. E. Chase left Saturday morning for South Point, Ohio, where he will visit with relatives and friends returning in about ten days. Miss Jessie Sparlock, of Ford, is visiting her aunt, Mrs. G. A. Roy, and will remain several days. G. W. Hutchison, wife and child, of Troy, is spending a few days with relatives here. Mrs. H. H. Poston visited her mother Mrs. Mary P. Singleton at Versailles Saturday returning Monday.

Miss Mary Taylor, of White's Station, visited Misses Mollie and Mattie Howe, last week. Miss Viola Million, of Richmond, visited friends here the past week. It is probable that she will teach our spring school as she has taught several terms here giving entire satisfaction to her patrons. H. R. Smith was called to Irvine Friday to take charge of the railroad office at that place for a few days during the absence of Mr. Hacker the resident agent. Ham is a jolly good fellow and 'tis a pity he had leave at this time when he anticipated a happy Xmas here with his best—and friends. M. F. Wharton is preparing to build a large planing mill here. The lumber yards of the Southern Lumber Co. has less lumber on than for several years. J. W. Masters sold to Cassius Wheeler a house and lot, price \$275. Wishing the CLIMAX force and its army of readers a happy new year, I am, JAY ELLIOTT.

## Royal makes the food pure, wholesome and delicious.

WALLACETON. Born, to the wife of "Gib" Gaefney on the 24th inst., a girl. Arthur Jones, who went from here to Ohio last winter, returned a few days ago. Sam Conn moved his family to Berea this week for the purpose of sending five of his boys to school there the present term. Miss Bettie Hendrickson will be a subscription school at the Wallaceton school-house on next Monday, January 3rd.

Miss Maggie Elliott, who is attending school at Berea, spent the two weeks' vacation with home-folks here but returned to Berea this week. While loading lumber some two weeks ago, Mr. P. F. Smith ran a splinter into his hand inflicting a wound which caused so great inflammation as to necessitate the lancing of it on the opposite side, ten days later. Dr. Lusk says that after the patient had run out there was left a cavity in the inflamed hand large enough to contain a hen's egg.

Eq. J. A. Baker and wife each received a pair of mittens as a Christmas gift from their son, John M., who lives at Plattburg, Missouri. Mr. Baker also received from his son Wm. H., who lives at Portsmouth, Ohio, a pair heavy enough for one going to the Klondike gold regions.

Miss Emma, daughter of Mr. Joe Rutherford, went to Berea on Thursday for the purpose of attending school there. Emma is an industrious, intelligent, Christian girl and while her presence and influence will be missed in both social and religious circles, we are glad to know that she has determined to add to her other qualifications such an education as will fit her for a still higher sphere of enjoyment and usefulness in life. We speak seriously when we say that we are sorry that a goodly number of the girls about Wallaceton do not take the same interest in themselves, instead of frittering away their time, talents and opportunities in a way that casts a reflection upon their sincerity if not their intelligence; brings sorrow upon all religious parents, and often shame and disgrace upon themselves and their families in no distant future.

Mr. Caldwell, of Clay county, and father-in-law of A. J. Wilson, of our town, has bought of Mr. A. R. Giffin a house and lot here for \$400, and will engage in the mercantile business. We are glad to note the decided improvement in our town, as well as in business during the present year. Almost all the common times of business are represented and thriving well. We have 3 stores, 2 blacksmiths, several wood-workers, a saw mill, grist mill and planing mill, one drummer, one preacher, nearly a half dozen teachers, musicians who play on all instruments from the jaws-harp to the piano.

We have, however, no Doctor nor lawyer. The physician is needed occasionally, but we call him by telephone and he soon arrives. As for the lawyer, we don't need him; don't want him; won't have him; and should one come to our town on any other business than to see how well we get along with our him, we would have our drummer to "drum him out of town."

DR. CALDWELL'S SYRUP PEP-SIN CURES INDIGESTION. TO APPLICANTS FOR CIVIL SERVICE EXAMINATION INTERNAL REVENUE SERVICE. The U. S. Civil Service Commission has ordered that the usual dates for the regular semi-annual Internal Revenue examinations for 1898, (see pages 6 and 7 from 117) be so changed as to allow the widest possible use of the First, Second and Third grade basis series of examination questions in all examinations of corresponding grades. This means that all spring examinations for the service named will be held during the time the Departmental examinations are being conducted. The exact dates cannot be fixed at this time, but it is said that all Internal Revenue examinations for the spring will be held between March 15th and April 15th, and all applicants are also advised accordingly. No application for the examinations will be accepted, unless filed in proper form by March 1st. No exception will be made to this requirement. Respectfully, W. H. MILLER, Secy. of the Board. By order of the Commission. This remarkable statement was in the Courier-Journal some days ago: "It is the Courier-Journal that gives reputation to the Courier-Journal in the holiday trade. That the merchants resent"; this egotistic boast, was shown by the fact that the Dispatch carried this week twice as many Christmas advertisements as the Courier-Journal. It is for the first time the lead in advertising. It has for some months been ahead in circulation.—Hopkenville Kentuckian.

out by a party of "real boys." Mr. W. O. Stoddard was a stirring romance of chivalry. "With the Black Prince" telling of the fortunes and adventures of an English knight who fights at the battle of Crecy. A fairy-tale of science "Through the Earth," by Clement Fezanide, is a serial of the Jules Verne order. It tells of the daring conception of a scientist of the next century, who by the enormously increased power of electricity succeeds in boring a hole through the earth and sending a boy in a cigar-shaped car through the tunnel. There will be the usual number of articles of instruction and entertainment, as well as hundreds of pictures by leading artists. The price of St. Nicholas is 25 cents a copy, or \$3.00 a year; with CLIMAX \$3.75. For clubbing rates call at this office. THE CENTURY MAGAZINE FOR THE COMING YEAR.

The Century Magazine, with its November number, enters upon its twenty-seventh year. During its long existence, by reason of its many notable successes, it has won an assured and commanding position. During the coming year The Century will maintain its exceptional position as a magazine of entertainment and as a leader in art and thought. Its pictorial features will be notable, and it will command the services of the foremost artists, illustrators and engravers of this country and of Europe.

Nothing like a complete announcement of its literary features will be attempted now. Dr. Weir Mitchell, whose novel of the American Revolution, "Hugh Wynne," is the great success of the year, has written a new story for the present volume. It bears the piquant title, "The Adventures of Francis; Foundling, Adventurer, Juggler and Fencing Master during the French Revolution." The tale is full of romance and adventure. Mrs. Burton Harrison contributes a new novel of New York life, called "Good Americans," in which contemporaneous social types and tendencies are brightly mirrored and described.

There will be a group of clever stories about losses and people who like losses, under the general title of "Wallops." "A Woman's Reminiscences of the French Intervention in Mexico" will be given in a series of graphic and highly picturesque papers by Mrs. Cornelius Stevenson. Further contributions to the interesting series of "Heroes of Peace" will be made by Jacob A. Riss, Gustav Kolbe, Elizabeth Stuart Phelps Ward, and others.

For the benefit of readers of The Century an unusual combination offer is made for this year. There has been issued "The Century Gallery of One Hundred Portraits," made up of the finest engravings that have appeared in the magazine, and representing a total expenditure of nearly \$30,000. These are printed on heavy plate paper, with wide margins, like proofs. The retail price of the gallery is \$7.50, but this year it will be sold only in connection with a subscription to The Century, the price of the two together being \$6.50. For clubbing rates call at this office. Century \$10.00; CLIMAX \$1.25. Both, one year, \$11.25.

DR. CALDWELL'S SYRUP PEP-SIN CURES INDIGESTION. TO APPLICANTS FOR CIVIL SERVICE EXAMINATION INTERNAL REVENUE SERVICE. The U. S.
