Wheat Crop Suffers in Garrard.

A telegram from Lancaster says: "Section Prominent farmers in this region in town to-day said that the only salvation for the wheat crop is the speedy arrival of cold weather. The Hessian fly is playing havoc with the advanced crop, and a new pest has developed in the shape of a small white worm, which is working at the root of the crop and destroying it by the acre. Farmers are much puzzled at the arrival of this new pest, and claim they have never seen anything like it before."

Emphasis is on the wrong place created the weakness it would avoid.
