Congressman Harvey Helm.

Stanford, Ky., June 7.—The Interior Journal today makes formal announcement of the candidacy of Congressman Harvey Helm for re-nomination in the Democratic primary, August 3rd, as follows:

Formal announcement as a candidate for Democratic nomination to succeed himself in the National House of Representatives, is made today by Congressman Harvey Helm, of Lincoln county.

Such an announcement at the proper time, of course, was expected, for there is probably no voter in the Eighth District who has not known for a long time that those who endorse the great work Congressman Helm has done in the service of his people would insist that he stand for re-election, and that he would consent to go before the electorate again, giving a faithful account of his stewardship, and inviting a full and fair inspection of every detail of his record, content that the voters shall judge his worthiness of their approval by the part he has played in the legislation inaugurated and passed by the Democratic House in its battle for the plain people and their rights in compliance with the Deaver platform.

Congressman Helm has served three terms, the first two as a member of the minority party. His last term, however, has been with a triumphant majority, which has made party history, and conspicuously has the name of the member from the Old Eighth District among those who are mainly responsible for the fact that the election of a Republican president is today well nigh impossible.

In every way, Mr. Helm has completely demonstrated his fitness for the position he holds. His work speaks for itself. Washington correspondents of the daily newspapers during the present term have devoted more space to the results of his efforts than to any other member of the Kentucky delegation. A congressman's best assets are his experience and service, and there are sections of the country which keep their representatives who have demonstrated their efficiency, in office a number of terms, and thereby secure far better results than those which are constantly seeking a change, and sending new and untried members to work with the seasoned veterans.

An instance of the value of experience and service is shown in the selection of Mr. Helm as chairman of the important Committee on Expenditures in the War Department, one of the two chairmanships awarded to the Kentucky delegation when the House was reorganized under Democratic control. Mr. Helm's work in that position in the way of economies and reforms has been of immense value to the country and is but an earnest of the further service which he will be to his constituents and country if continued in the field where he has already served so faithfully and well.

As a member of the Census Committee he has rendered the farmers great service in the preparation and passage of the Cantrill tobacco bill. As a member of the Committee on Insular Affairs he has labored to rid this government of the Philippine Islands that are a continuing menace to the peace of the nation, and a heavy expense to govern and control.

Mr. Helm's friends believe that the great mass of the voters of the nation this fall, irrespective of party differences, are going to demand an endorsement of the men who have worked singly and unselfishly for the common good during the epoch-making term of the 62nd Congress now drawing to a close. That he has stood in the forefront of the battle no one can truthfully deny. A sympathetic understanding of the needs and wishes of his constituents over his district has brought him very closely in touch with them.

Mr. Helm has always made his political rights single-handed in the open, on his merits and is identified with no faction or combination.

The result of the primary August 3rd, 1912, will be a vote of confidence in him as a public servant.

Mr. and Mrs. Keats Speed, of New York, are spending a short time with Kentucky relatives and friends. They are en route to Atlanta, where Mr. Speed will do newspaper work for the summer. Mrs. Speed is accompanied by Miss Florence Chennault, of this city, and both she and her husband are popular in social circles here and elsewhere.

C. E. Woods Moves To Eustis.
Mr. C. E. Woods, who recently left Richmond to make his home in DeLand, Fla., has decided to move to Eustis, Fla., where he will have control of a large capital stock behind the enterprise. Mr. Woods had fine prospects at DeLand but the war in Eustis was such a one as seldom comes to a man and Mr. Woods thought best to accept it. It is needless to say that wherever he goes in the newspaper field, he will make his influence felt and it will be on the right side, too. It will always be for the betterment of those with whom he comes in contact and will be uplifting in every sense of that word. Mr. Woods' removal from Kentucky was a loss to the State and a gain for Florida. His removal from DeLand is a loss to that place, but a decided gain for Eustis. Put The Climax on your mailing list, Clarence, we want to hear from you at least once a week or oftener if possible.

For Girls Only.
Girls when your sweetheart calls on you, and has stayed as late as you think you would like him to stay, give him the following problem to work out: Tell him to take any number between one and nine, multiply by nine, add thirteen, add the number you first took, and look for result. This ought to work, and if he does not grasp the result he is too stupid to call again.—Ex.
