

Announcement.

We have decided to enlarge this paper. This is necessary for the reason that the liberal advertising which we are receiving makes it absolutely imperative that we do so. We are willing to enlarge it and are not standing on the question of price. What is bothering us is the best method to employ in the matter. We have had under contemplation making the paper a twice-a-week publication, and we are very much wedded to this idea. However, this will take us out of the postoffice delivery and will require us to have it delivered by carriers, which is not at all satisfactory. It is possible, therefore, that we will conclude to make it an eight-column, eight-page paper, which will give us a page and a half additional space over that now used.

The Climax-Madisonian is already the largest paper in the county and with this additional space, we will be better prepared than ever to serve our patrons whose business we daily appreciate.

If the people want a semi-weekly, which will be finally developed into a daily, now is the time for them to speak. A dollar of performance is worth forty dollars in taffy.

In the meantime, we are developing plans which will make the Climax-Madisonian THE BEST PAPER EVER PUBLISHED IN MADISON COUNTY.

Now for the Drowning Creek turnpike!—Irvine Sun.

Miss Eva Skidmore Burns To Death.

Miss Eva Skidmore, aged 20 years, of Lincoln county, was burned to death when a coal oil can from which she was pouring oil upon a fire she was making in the kitchen at the home of Judge L. L. Walker, in Lancaster, Monday morning, exploded and set her on fire. The girl was instantly a mass of flames. Mrs. Epping, of Louisville, who was in an adjoining room, was badly burned in trying to extinguish the flames.

Miss Skidmore was so badly burned that she died about 2 o'clock that day. Everything that medical science could suggest was done for her, but without avail.

Judge Walker's house caught fire, but the blaze was extinguished without much damage having been done.

Hallow'een Ruffians.

Last Saturday night some party or parties placed across the Lexington pike, about two miles beyond Clay's Ferry, a dangerous obstruction built of poles, a very thoughtless if not a criminal act, perpetrated under the mistaken idea of Hallow'een fun. Those who thoughtlessly endanger the lives of those who might be passing in auto or other mode of conveyance should be taken in hand and taught the difference between fun and foolhardiness.

Oil Well Shot Wednesday.

A wagon load of 450 quarts of nitro glycerine arrived Saturday from Parkersburg, W. Va. Thirty quarts of this were used to shoot the first well on the Dulin-Williams lease Wednesday. A representative of the Panama Exposition was present and took a photograph of the event.—Irvine Sun.

Fear Elmdorf May Be Broken Up.

The Lexington Leader says: "Much interest is felt here as to the fate of Elmdorf, the magnificent 10,000-acre stock farm and country estate owned by the late James B. Haggin, near this city. The beautiful place which cost Mr. Haggin more than \$2,000,000 and on which he erected a \$350,000 mansion, was made up from innumerable small farms adjacent to one another, which Mr. Haggin acquired one by one and added to the original Elmdorf Stock Farm, which comprised only about 500 acres.

Students Surveying a Line To Richmond.

R. L. Ehrlich, G. R. Allison and C. S. Rollings, seniors in the College of Civil Engineering at State University, are pushing their work of surveying a proposed interurban route between this city and Richmond. They have now covered three miles of the road with the level, and about two miles with the transit. The field work on the road will require three days a week until about the end of the year, after which they will complete maps of the route, including the cost of grading, road building, the rolling stock and the estimated earning capacity.

The men engaged in this work have had about two years practical experience in surveying and road building, and in making their plans of this road they will be directed by Dean Walter E. Rowe, of the College of Civil Engineering. One of the most difficult feats of engineering on the proposed route is the crossing of the Kentucky River, about half the distance between the two cities. The grade for about three miles on each side of the river will be difficult, as will also the building of the bridge which the students will design.—Lexington Herald.

Despondency Due To Indigestion.

It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine. For sale by all dealers.—Adv. Nov.

He gives all his property to his widow, Sallie Brock Brodhead, absolutely, except 240 shares of stock in the Ashland Block Association, and this he puts in trust and gives a portion to her and a portion to various relatives.

The Tobacco Market.

The question of the probable price of the tobacco crop is quite puzzling to the tobacco growers and handlers of the week. However, growers will soon know, for the markets will soon open. The price of tobacco means much to the people, and if the price at the opening of the sales is up to former years, it means a fat bank account to many of them.

Commits Suicide.

Mr. Lee Gaines, a prominent liveryman of Burgin, was found dead in his buggy on the road between Burgin and High Bridge. The coroner was sent for and found a bottle full of carbolic acid and a jug of whisky in his buggy, and a verdict of suicide was rendered. No one knows what caused him to commit suicide, as his business was prosperous and he was in good health. He leaves a wife and four small children.

What It Cost Them.

Greatly Honored.

Dr. Clarence H. Vaught, of this city, was elected as the secretary of the Southern Association of Railway Surgeons, and the Southern Medical Journal has this to say of him.

"For the working member the Secretary, the council named that versatile, ready, capable, genial, Dr. Clarence H. Vaught, editor of the Railway Surgeon the official Journal of the Kentucky State Association Railway Surgeons. Under such conditions it would be hard to overestimate the value of the Southern Association Railway Surgeons."

It was a very great honor to Dr. Vaught that he was elected the Secretary of the largest section of this truly great Medical and Surgical Association, its membership after but a few years is nearly 4000. The Railway Surgical Section to which Dr. Vaught was elected Secretary will begin with 300 charter members. The meeting this year will be held at Richmond, Va. Dr. Vaught will read a paper on "Railway Sanitation" the subject being selected by Dr. Duncan E. the President. Mrs. Vaught will go with the doctor to Richmond, leaving Saturday, evening, while in the East they will visit New York, Philadelphia, and Baltimore.

We congratulate the Medical Profession of the city and the county that have been so signally honored. We feel that the doctor will acquit himself with credit in this new position as he has done for the past ten years that he has held office in the State Railway Surgeons Association, having held every office in its gift and has been the editor in chief of its Journal for the past eight years.

It is said that a man cannot possess anything that is better than a good woman nor anything worse than a bad one.

FAMOUS SOLDIER CURED BY RHEUMA

Wonderful Experience of Sergt. Doyle of 12th U. S. Infantry.

Was On Sick List From Continued Attacks of Rheumatism.

No matter how long you have suffered, relief from any form of rheumatism is possible. Go to B. L. Middleton, or any druggist and get a bottle of Rheuma, the wonderful time-tried remedy for this terrible disease. Rheuma will cleanse your whole system of the poisons which are sapping your vitality. It purifies the blood, relieves the bowels of constipation, induces a sluggish liver to work naturally, and drives the uric acid out of the kidneys. Read this convincing evidence:

"Fort Porter, N. Y.—Just about to depart for the Philippines, but before I go I want to thank you for the benefits received from the use of Rheuma. Have been in the U. S. Army service for 30 years, much of the time in field service. The result was an attack of rheumatism which I found impossible to destroy until I used Rheuma. Was in such a serious condition I had been relieved from all duty. Took less than three bottles of Rheuma and am now performing the regular routine of duty once more."—Matthew M. Doyle, 1st Sergt., Co. D, 12th Inf., U. S. A.

That is certain proof of the great curative power of Rheuma. Try it and you will be convinced. It costs only 50 cents.—Adv. Nov. 4-11.

UNION CITY.

On Saturday night last the young people of this vicinity were delightfully entertained by a Hallow'een party given by Miss Marguerite Jett at the home of her parents, Mr. and Mrs. W. M. Jett. Over the housetop and yard were wicker-looking hobgoblins, blinking their eyes in the moonlight. Just inside the front door were stationed two ghosts, who kindly informed the guests where to deposit their wraps. About midnight a nice luncheon was served, and all over the tables were all kinds of small goblets, with their little eyes dancing and winking at the guests. The entire house was appropriately decorated. The following guests were present: Misses Florence and Odessa Price, Mary Jake White, Eva Haden, Mary Lee Noland, Cora Dunbar, Elizabeth Berry, Nannie and Orena Dunn, Annie Burgin Taylor, Martha Sharp, Lillian Dozier, Taska Dinn, Fannie Tipton, and Messrs.
