To Set Up Stable Government and Collect Indemnities To Pay Damages

Paris, Jan. 9.—The Council of Ministers has approved the following French representatives in the Peace Congress: Premier Clemenceau, Foreign Minister Pinchon, Finance Minister Koltz, Andre Tardeau, and Jules Cambon.

Meanwhile a French protocol giving a detailed program for the conference, has been submitted to the American and other delegates. It now seems doubtful that more than a broad general agreement will be reached before President Wilson returns home in February. Apparently the conference will first reach a general agreement to form a league of nations, then consider setting up the new independent states growing out of the war; third assess damages and indemnities and determine the manner of payment and finally conclude peace treaties with the Central Powers.

At this point arises the question how long the peace congress will wait for the Teutons to arrange their government. It is hinted it might become necessary to assist in forming an orderly government and at the same time begin the collection of revenues to apply on the bill for damages.

Railroads Submit Plan For Private Ownership

Washington, Jan. 9.—Dewitt Cuyler, chairman of the Association of Railway Executives, representing practically every leading road in the country, today laid before the Senate Interstate Commerce Committee a comprehensive plan for private ownership and management of the railroads under strict government regulation. He would merge the systems largely, unify operations, pool facilities, in certain cases pool earnings, enforce an adequate service through a secretary of transportation with the Interstate Commerce Commission as a supreme court of review of rate disputes. Wage disputes will be settled by an adjustment board and strikes and lockouts forbidden pending investigation.

AN ENEMY OF WOMANHOOD

The complexion, digestion and almost the complete personality of woman are dependent upon health. Woman's ills are her great enemy, as they cause bad complexion, dark circles under the eyes, headache, backache, nervousness, sleeplessness, dragging-down pains and the blues, and often totally unfit her for a companion. The great American remedy for such conditions is Lydia E. Pinkham's Vegetable Compound, which has been restoring three generations of ailing women to health, and may be relied upon with perfect confidence. It

By general agreement among police authorities over the state, no arrests are being made of automobilists who have not secured 1919 license tags, and will not be until after January 15th. Now comes word from Frankfort that the State Motor Department is unable to secure new license plates in sufficient quantities from the manufacturers to supply the demand, and some further delay is to be experienced. Quite a number of local autoists are displaying signs reading "License Applied For," as these new numbers have not come yet.

Say McCombs Stock Will Soon Be Off Market

That the stock of the McCombs Producing and Refining Company will soon be taken off the market is the prediction of three of its representatives who are here this week closing up a number of stock orders. They are Messrs. E. M. DeLoach, and W. A. Craddock, and Lieut. Jack Hurley, recently of the artillery. So great has been the demand for McCombs stock, with its attractive dividends of two per cent a month, that more than enough has been sold, it is said, to continue all necessary future operations, coupled with the handsome returns which are now being received from the company's big oil wells on Big Sinking Creek in Lee county and elsewhere.

Articles of incorporation have been filed at Lexington, by the C. S. Shiver Pipe Line Company, fixing the capital stock of the company at \$20,000, divided into 200 shares at \$100 a share. The company proposes to erect a pipeline in the oil fields of Eastern Kentucky to carry the production of the oil wells in that section. The articles were signed by Charles Madden and W. J. O'Brien, of Chicago, and C. S. Shiver, of Lexington.

Announcement has been made that the Trinity Oil Company, which recently sold a half interest in its holdings to the Security Producing and Refining Company for \$100,000, will declare a 100 per cent dividend about the middle of January.

Stockholders of the Crown Oil Co., held a meeting the past week in Pittsburgh, Pa., and named a "protective committee," which is to have supervision of an investigation of the company's affairs.

W. J. Fleisher, who was formerly connected with the Southwestern Petroleum Company, has acquired the southern portion of the Eureka Coal and Mineral Co., located on the waters of Hell Creek, Crystal Creek, and adjoining Bald Rock Flat, on which some of the best producing wells in the state are located. While the consideration was not made public, it is reported to have been in the neighborhood of \$300,000.

A very disastrous fire occurred in the field Saturday night when the Oleum Refining Company's plant at Pryse was completely destroyed. The origin of the conflagration is unknown but two of the stills, which were new, exploded, killing the man in charge and setting fire to the entire building and outhouses. The exact loss has not been estimated but it is known to be exceedingly heavy.

Harris Memorial Church Dedicated At Stanford

The Methodists of Stanford and vicinity dedicated the handsome new church Sunday. H. C. Morrison, of Asbury College, Wilmore, preaching the dedicatory sermon. It cost \$15,622.50. It is of especial interest here as the new edifice is called the Harris Memorial Church in honor of the late James A. Harris, who went from Madison to Lincoln many years ago and who has many relatives here. The Stanford Interior Journal said:

The name Harris Memorial is very appropriate. The church never had a better member or worker than Mr. James A. Harris, referred to above. He gave unstintingly of his time, talents and means to it and the large and influential family he left are most all Methodists. The name appears in large letters in granite over the pretty entrance.

One of the biggest factors in building the Methodist church is Col. S. T. Harris, who not only has been the most liberal giver but who has worked in season and out that the church be built. Col. Harris loves the church, first, because it is a grand institution, and secondly because his good old father, Mr. James A. Harris, was one of the pillars for years.

REDS OVERTURN HUN GOVERNMENT IN BERLIN

Extremists Gain Upper Hand But Conservative Element May Strongly React

Paris, Jan. 9. (By Havas)—The Scheidemann government in Germany has been overturned, the extremists having gained the upper hand in Berlin after sanguinary fighting, according to the latest German advices. A new revolutionary government has been proclaimed composed of Independent Socialists. Part of the government troops are reported to have joined the rebels. The Spartacists now hold the principal points in Berlin. Civil war is spreading to other parts of Germany, advices indicate, and parts of the Rrenish provinces and Bavaria are now reported involved. Gustav Noske, commander-in-chief of the German government forces, according to reports, will send new forces against the capital, in an attempt to regain control. Desperate reaction by the more conservative elements is expected. The casualties in the Berlin fighting are reported heavy.

MAY LICK REDS YET

Amsterdam, Jan. 9.—It is reported here that artillery fighting took place in Berlin yesterday near the Central Telegraph office, according to Berlin news dispatches. The Spartacists attempted to seize the Chancellor's palace but failed with a loss of 30 killed and 45 wounded. The government has been concentrating troops in Berlin and on Wednesday drove the Spartacists from the Potsdam and Anhalt railroad stations, the Brandenburg Gate and the Central Railway office. The Prussian War Ministers said the Spartacists have occupied buildings all over Berlin and it will not be easy to restore order. It is said that the government's powers is increasing because the volunteers are increasing.

Scene from "THE GIRL OF THE GOLDEN WEST" All star cast
A Paramount Picture

TONIGHT—THURSDAY FAMOUS SCREEN PLAYERS IN THIS PICTURE

In the cast of "The Girl of the Golden West," the splendid Paramount play starring Hazel Van Buren, which will be presented at the local theatres tonight, are many artists, who have achieved signal renown since the production of this picture. Among these are Raymond Hatton, who appeared to great advantage in support of Geraldine Farrar in many of her famous pictures, Theodore Roberts, one of the best all round actors identified with motion pictures, House Peters, a leading man of prominence, Anita King, a charming actress, Billy Egan, Ed-

ney Deane and others. Miss Van Buren has a charming role, that of a girl who keeps a saloon in a mining camp, in California, during the day of the gold rush in '49, who becomes interested in the welfare of a hunted bandit, and who saves his life in a highly dramatic manner. The play is filled with situations of unusual dramatic intensity.
