About Movement To Get Federal Court At Lexington—Not Planned To Eliminate Richmond

A meeting of a number of citizens will be held this afternoon to consider what action, Richmond, should take in regard to the establishment of a federal court at Lexington.

Maysville, Ky., 5th July, 1919.

W. C. Bennett, Esq., Dear Sir:

I have received a telegram from yourself and others protesting against the removal of the Federal Court from Richmond.

Last week I obtained a wire from the Attorney General requesting my views on the Senate Bill. He made no request as to the House Bill.

The meeting was held. The matter of which place should be selected was left to me and I decided in favor of Lexington for the reasons which I then expressed.

The only possible way in which the establishment of a court at Lexington can effect the civil business at Richmond is in case where both sides would prefer to have a case at Lexington rather than Richmond.

There is a real demand for a place of holding court in the body of the district, which is readily accessible to all parts thereof.

As at present advised I am not inclined to favor taking to Lexington any criminal business which would otherwise go to Richmond.
