

LEADERS DECIDE TO CALL STRIKE OFF

Miners Obey Federal Court Order and Coal Miners Will Go Back To Work At Once

(By Associated Press)
Indianapolis, Nov. 11—The United Mine Workers of America, through their general committee, decided early today to obey the mandate of Federal Judge Anderson, which means recall of 425,000 bituminous coal miners of nation. The decision was reached at 10 o'clock this morning, after 17 hours of discussion. "We will comply with the mandate court. We do it under protest. We are Americans. We cannot fight our government. That is all," said acting President Lewis at the conclusion of the conference.

Six hours later, when court called, the order of the executive board, calling off the strike was presented to Judge Anderson, who approved it. He characterized it as "a good faith effort" to comply with his mandate. It was signed by President Lewis and Secretary-Treasurer Green. The order is addressed to "officials and members of the United Mine Workers of America." It recites that they "herby advise you that the orders of October 15, directing cessation of operations, in the bituminous coal fields of our jurisdiction is withdrawn and cancelled."

In compliance with Judge Anderson's mandate that the strike be called off, a little later attorneys for the mine workers, issued a statement, stating the position of the mine workers, in the course of which he said: "It seems that good faith on the part of the operators requires them to meet the miners' representatives at once for the purpose of negotiating a settlement of the wage controversy and that good faith on the part of the government requires it to see such a resumption of negotiations is had at once and concluded without delay."

The order calling off the strike of the miners is promised to be in the mails by six o'clock this evening. Special Federal District Attorney Simms, representing the government in the injunction suit predicted a possible failure of miners and operators to agree on wages and working conditions will be followed by the appointment of a mediator or arbitrator by the government. He declared the operators might be forced to do their part in a settlement under the Lever law.

To Call New Wage Conference

Washington, Nov. 11—"I shall immediately call the miners and operators together to negotiate a new wage agreement," Secretary of Labor Wilson said today after a meeting of the Cabinet. Attorney General Palmer said he had been assuming all the time the miners would obey the law, and is "glad they justified this assumption." He said meanwhile the way is now open for a peaceful settlement of the controversy.

Despite the announcement the strike is called off, the Railroad Administration's coal distributing organization will continue to function until "a majority of the strikers return to work," according to officials.

Administration officials plainly showed relief at the order calling off the strike. American Federation of Labor officials showed surprise but made no comment. Thomas L. Brewster, of St. Louis chairman of the scale committee, said: "We have always been ready to resume negotiations when the strike is called off."

"Pape's Diapensin" at once ends indigestion and Sour, Acid Stomach

Lumps of undigested food cause pain. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food—just take a tablet of two of Pape's Diapensin to help neutralize acidity and in five minutes you wonder what became of the pain, acidity, indigestion and distress.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless stomach antacid is Pape's Diapensin, which costs so little at drug stores.

Popular Song Writer

Serenades "Mickey."
Neil Moret, the popular song writer, gave the "Mickey" cast a great surprise at their studio one day, by an unexpected music recital in which he serenaded Mickey. There were many exclamations of delight, of course, since no one had imagined he had even seen any of the scenes in this great photoplay, which will be shown at the local theatre, on Nov. 12-13. Miss Normand, particularly, was pleased with the song, which brought out in such sweet and melodious music, the very spirit of the photoplay.

Today this song, which the photoplay inspired, is proving one of the most popular hits of the year. One million copies having already been sold to the public, song and dance records having been made by the leading talking machine companies, and piano roll companies.
