

ANOTHER BLOW AT WAR TIME DRY LAW

Federal Judge Evans At Louisville, Holds Distillers May Dispose of Floor Stocks

(By Associated Press) Louisville, Ky., Nov. 13—Judge Walter Evans, in Federal District Court, today in an effort for the second time to hold war time prohibition unconstitutional, sustained an attack upon the Volstead enforcement act and granted an injunction, restraining Kentucky Federal authorities from interfering with the sale by two Louisville distillers of whisky floor stocks. The government immediately took an appeal to the Federal Circuit Court at Cincinnati and announced its intention of asking for supersedeas to stay the operation of the injunction. In the meantime the way is open, it is said, for Wright and Layter, and Brown and Forman, the plaintiffs in the action, to dispose of their floor stocks. They are quoted as saying, however, in view that the constitutionality of war time prohibition has not yet been decided by the Supreme Court, they are undecided on their course.

Louisville's Wet Vote Increases

Louisville, Nov. 13—Official figures given out by the Jefferson County Election Commission increased the "wet" majority in Louisville and Jefferson county by 2,116 votes, the total majority against the amendment being 24,963.

Previous reports from 97 counties had shown the "drys" to be leading by approximately 10,000 votes, but the liberal leaders say that the discrepancy shown between official and unofficial figures very speedily may erase the lead of the drys. Dry leaders express no fear of the outcome.

W. C. T. U. Not To Start Anti-Tobacco Fight Yet

Lexington, Ky., Nov. 13—Mrs. Frances E. Beauchamp, head of the Kentucky W. C. T. U., who is one of the delegates from Kentucky to the national victory jubilee convention at St. Louis November 15 to 20, said today she did not think a campaign against tobacco would be started at the jubilee convention, as was considered probable by the tobacco men. Mrs. Beauchamp said, however, that if the use of cigarettes increased on continued at the present rate it was likely "the tobacco program of the W. C. T. U. would be enlarged."

Mrs. Beauchamp said that heretofore the anti-narcotic campaign of the W. C. T. U. had been confined to the obtaining of instruction in the public schools in regard to the effects of narcotics.

REDS STARTING TROUBLE AT MINES

(By Associated Press)

Washington, Nov. 13—Activities of radicals, threaten serious trouble in the soft coal mine fields of West Virginia, according to reports received today by the Department of Justice. The situation in Monongal and Taylor counties is described as "particularly nasty." Meetings directed and largely attended by Russians precipitated some violence among the coal miners, the report said.

There were few details in the Department's message but it was indicated the work of the Russians was directed in intimidating miners who sought to return to work after the withdrawal of the coal strike order. Government agents are instructed to closely watch all mine fields for similar trouble.

GALVANI MADE BIG HIT AT PARIS

The Paris News had this to say of Galvani the famous hypnotist, who comes to Richmond Friday and Saturday. With the exception of Paris' own Edward Boome, no hypnotist has ever scored a success here equal to that of Galvani, who opened an engagement at the Grand Opera House, Wednesday night, to an audience which filled every available inch of space and overflowed into the lobby. Galvani's work is different from that of any hypnotist ever seen here, and we have had many. His introductory remarks are to the point; he takes the audience into his confidence, disillusionizing them of many of the popular but false ideas of the mystic art, explaining to them in language the most illiterate can understand.

Galvani's mind reading tests were done in a manner that convinced the most skeptical of his extraordinary powers. In his hypnotic tests he does away with the time-killing and boring play of many so-called artists in his line, and works quick, and with convincing results. It is safe to say that on Wednesday night he convinced many skeptical persons in the audience of the reality of hypnotism, and while his performance is amusing in the extreme, it also tends to give cause for deep thought on the part of the student of human nature.

Morrow Will Probably "Take Care" of Him, Now

Frankfort, Ky., November 13—Ernest J. Howell, of Owensboro, former Superintendent of the Reform School at Greendale, and for several months an employee of the Motor Vehicle Department, has been dismissed from that department.

Two reasons were assigned for the dismissal of Howell. The first is that there was nothing for him to do. The second is that he is accused of having taken from the Reform School duplicate of a bill for the sale of cloth to the State Board of Control for the use of the inmates of the institution.

This sale figured very largely in the recent state campaign. Howell gave out a statement exposing the sale of cloth to the board by Armstrong & Co., of Louisville, which was alleged to have been sold at a very high figure, and which now is being investigated by the Fayette County Grand Jury.

GAME SEASON OPENS NEXT SATURDAY

District Game Warden Sam J. Embry, was over from Stanford last week and appointed Wm. Winkler, a deputy game warden for Madison county. The game season opens next Saturday, Nov. 15th and the game wardens will be on the job to see that the game laws are obeyed. In many portions of the State quail are reported to have increased in numbers because of the open winter last year and the fact that the war took men from their hunting.

The season is already open on ducks and jack snipe, having opened on September 16. It will continue to December 31, except in the case of the squirrel season, which opened July 1 and will close December 16th. The seasons is closed on doves.

While there is no limit to the rabbit "bag" no more than 12 quail may be brought down at one shooting. Twenty-five is the bag limit on ducks and jack snipes. There is no bag limit on rabbits.

Democrats To Help Make Gala Occasion of Inauguration

Frankfort, Ky., November 13.—Although the inauguration of Governor-elect Edwin P. Morrow and Lieutenant Governor-elect Thurston Ballard will be strictly a Republican affair, Democrats have not been excluded by any means. The Republicans have invited Mayor W. S. Rosson, Chief of Police Mangin, General W. P. D. Haly, Scott Thompson, President of the Chamber of Commerce, J. Swigert Taylor, John Noel, President of the Farmers' Deposit Bank; Circuit Judge Robert L. Stout and Major C. W. Longmire, all Democrats to assist in the arrangements for the inauguration.

On account of the destruction of the largest hotel in this city by fire two years ago it is feared that the impression might prevail that Frankfort cannot accommodate the largest inauguration day crowd. If such an impression does prevail it must be corrected, those in charge of the affair say, for there are ample accommodations in the hotels and private homes that will be thrown open to accommodate even much larger inauguration day crowds than visited here in the past.
