

## BALLARD AMENDS COUNTY UNIT DOG LAW

### Madison Sclon Puts License Fees at \$1 and \$2—Drys Put Over Enforcement Bill

Frankfort, Ky., March 5—Rejecting nearly all amendments to the bone-dry enforcement measure, the Senate today passed the bill favored by the Anti-Saloon League by a vote of 31 to 6.

Senator Stoll's amendment giving an owner of liquor the right to remove it from one residence to another when procuring a Government permit, and the amendment of Senator Gardner striking from the bill the provision providing for the plaintiff, which shall be taxed as a part of the costs of the conviction, were adopted.

Yet Senators fought every inch of ground and personalities frequently were indulged in. The dry organization, however, did not slip a cog, and through the leadership of Senator Nunn and Swineford, defeated every objectionable amendment.

The joint resolution inviting Governor James M. Cox and Senator Warren G. Harding, of Ohio, to make the principal addresses at the memorial exercises held here March 12 for Kentucky soldiers who died during the World War, passed the House after heated debates.

The county unit dog law, leaving the question of enforcement of the dog law to counties, was passed by the House, 44 to 42. Amendments offered by Representatives Ballard and accepted by Representative Deane fixed a license of \$1 on male dogs and \$2 on females dogs, reduces the Assessor's fee from fifteen to five cents and the County Clerk's fees from fifteen to ten cents.

Factional amendments by Representative Waggoner provided that each dog should blow a whistle when crossing a county line, and that each county which failed to vote to enforce the dog law should be compelled to inclose itself within a barbed wire fence, were defeated.

The bill of Representative Meyers to appropriate \$50,000 to widen the approach to the Capitol was passed 50 to 44.

Representative Morgan's bill to regulate the standing of male animals, was passed 70 to 1.

Representative Wash's bill to increase salaries of the two school inspectors from \$1,000 to \$2,000 annually, was passed, 64 to 15. Under the present system school inspectors received salaries of \$2,000 and are allowed \$1,000 each for clerical help.

The House by a decisive vote, tabled the bill backed by club women of the state to formulate a department of adult education and to appropriate \$75,000 annually for two years. Only a limited amount of discussion was heard on the bill.

Representative Cruise's bill to authorize the Board of Control of Penal and Charitable Institutions to buy the Mastin farm for the Institute for Feeble Minded and limiting the price to \$130 an acre, was passed by a vote of 61 to 2.

The bill of Representative Goehring to provide free text books for public schools of the state was passed, 49 to 30.

Senate and House adopted unanimously a resolution offered by Senator Smith approving the plan of a memorial bridge across the Kentucky River at Frankfort.

The Senate passed the bill of Representative Yazell providing for non-partisan school boards in cities of the fourth class. The bill provided for a board of six members and fixes the maximum rate of taxation on property at \$1.50 on \$100 worth of property for school purposes.

An appeal in cases for collection of inheritance taxes is provided for in the bill of Senator Moss, which passed the Senate unanimously.

The bill of Representative Beckham, providing that the State Fair Company may issue \$300,000 worth of bonds with which to erect additional buildings at the State Fair Grounds, was passed, 29 to 1.

The mussel shell bill, which has been before all of the regular sessions of the Legislature for 12 years was brought up and explained by Senator Marshall. The bill was amended to apply only to that part of the Ohio River owned by the state of Kentucky, and was passed, 24 to 7.

## BASKET BALL TONIGHT

The basket ball teams of the 7th and 8th grades of Caldwell High school at the Model gymnasium Friday evening at 7 o'clock. Admission ten cents. Come out to see the games.

## \$11,000 WORTH OF BONDS BURNED

### City Destroys Street Paving And School Bonds—Salary Raises Are Refused

The burning of \$11,000 worth of bonds of the City of Richmond, thus clearing off indebtedness of the taxpayers to that amount and the refusal of the City Fathers to increase salaries of city employees at this time, were the main features of the regular monthly meeting of the City Council Thursday night. The Finance Committee reported adversely to the request for salary increases made by the police, firemen and other employees. There was some doubt in their minds as to whether such increases would be legal during the term of office for which the men had been elected, and then it was figured that the condition of the city treasury at this time, would hardly admit of further outlay for salaries.

The bonds burned were \$10,000 in street improvement bonds and \$1,000 in school bonds. The payment of this large amount of the street paving bonds, even before much tangible work has been done on the streets proper, is regarded as an exceptionally good piece of work by the city administration, and indicates how easy those splendid new paved streets are going to be paid for and how quickly.

All of the Councilmen were present when Mayor Evans called the roll. The first business done was the burning of the cancelled bonds. Clerk Blanton took the numbers of the bonds for his records to make certain they would not reappear. They were placed in the stove.

Attorney J. J. Greenleaf, who was present, remarked sotto voce that they made almost as high priced a fuel as coal, these days. The report of Street Engineer S. F. Creelius showed a total of \$23,712.11 work done on the sewerage contract so far by the M'Lane Company. All of this has been paid, except 15 per cent retained.

Chairman Terrill, of the Finance Committee made an unfavorable report on behalf of the committee, on the application of the policemen and other employees, who asked for a raise in salary.

Councilman Mershon asked the opinion of City Attorney Chenaunt who said that he is of the opinion that the city has the right to make the raise.

Councilman O'Neil seconded the motion of Mr. Terrill to adopt the report refusing the raises. On a vote all of the councilmen noted to sustain the committee's report. Councilman O'Neil said that his friend "Rog" Pickles had called his attention to the dilapidated and dangerous conditions of the fire bell tower. Mayor Evans appointed Councilman Mershon and Golden as a committee to attend the matter.

Councilman Golden reported complaint of damage done by blasting in the quarry. He recommended that the city withdraw from use of the quarry. He said that the county had all the best of the deal about the quarry.

Mayor Evans said he thought the county had been very generous in permitting the city to get out the rock it needs.

Jas. Hawkins asked permission to move a fence on the Fifth street side. He says the way it is, water runs in on him and he seeks relief. Upon motion, Mayor Evans directed the street committee to look into the matter with Mr. Hawkins and act upon the matter.

Emil Lohrisch again brought up the matter of obtaining exemption from taxation for five years of his new ice cream factory. The question started a general discussion, and the question of its legality was sought Mayor Evans referred the matter to the city attorney to report to the next council meeting night.

Councilman Golden again brought up those trees at the corner of Main and Collins street. Councilman O'Neil suggested that Mr. Golden get out a warrant.

A petition by Frank Barnett for permission to install an automatic piano in his place on First street brought out the fact that there is no ordinance against such, so the council took no action in the matter.

After payment of the monthly bills the council adjourned.

Horses can read their doom in conversation of another livery barn into a garage at Nicholasville. H. B. Seal will erect a 100-car garage on the site of the Jennings stable.

**TIMMINS MACHINE SHOP** 328-228 West Vine street, Lexington, Ky. We have a complete machine shop and can repair any kind of machinery. Oxygen acetylene welding our specialty. Give us a trial. 100 F 17

## THE WEATHER

Fair and continued cold tonight and Saturday.

## LOW TEMPERATURES ALL OVER SOUTH

(By Associated Press) Washington, March 5—Altho the strength of the blizzard is largely dissipated, the weather bureau today predicted snow as far south as Northern Alabama and unusually low temperatures over the entire south. Another frost is forecast for Florida.

## DUTCH BUILDING BIG CAGE FOR KAISER

(By Associated Press) The Hague, March 5—The Dutch government today for the second time refused to deliver the former German emperor for trial. In a note addressed to the British Premier, Lloyd-George, however, the government promises to take all necessary measures to minimize Wilhelm's liberty and prevent him endangering the world's peace. Meanwhile night and day shifts are working on the Kaiser's new residence at Doorn. It is reported he will move there from Amerongen, May 12th. A high fence, around the entire estate of 200 acres, makes it practically a cage, easily guarded and within which the Dutch government expects Wilhelm to spend the rest of his life.

## JAPS TO WITHDRAW ARMY FROM SIBERIA

(By Associated Press) Honolulu, Thursday, March 4—The Japanese government has decided to abandon its Siberian expedition, in line with the American policy, according to a cable from Tokio.

## LOUISVILLE TO HAVE DAYLIGHT SAVINGS

(By Associated Press) Louisville, March 5—Councilman Wm. Clark will introduce in the City Council tonight a daylight savings ordinance. The plan is to put into operation from May 1st to October. Its passage is said to be assured.

### A TIMELY SUGGESTION

The next time you have a cough or cold try Chamberlain's Cough Remedy. It is pleasant to take and you are sure to be pleased with the relief which it affords. This remedy has a wide reputation for its cures of coughs and colds.

## Wilson's Note In England

(By Associated Press) London, March 5—President Wilson's note in reply to the latest communication of the Allied Premiers on the Adriatic question reached the American embassy here today. It will be delivered to Earl Curzon, Foreign Secretary this afternoon. No mention was made of arrangements for its publication.

## HAS HAD STOMACH TROUBLE FOR SEVEN YEARS

Theodore Sanfiori of Fenmore, Mich., has had stomach trouble for seven years and could not eat vegetables or fruit without pain in the stomach and restless nights. By taking Chamberlain's Tablets he is now able to eat vegetables or fruit without causing pain or sleeplessness. If troubled with indigestion or constipation give these tablets a trial. They are certain to prove beneficial. March

## WHY COLDS ARE DANGEROUS

You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take. March

## FIGURES IN A ROMANCE OF THE WAR

Emily Knowles of England and her baby, whose father is Perley Spiker of Baltimore. He met Emily while in the army and a romance developed. But Perley is married, and when he confessed all to his wife, she urged Emily to come to America and make her home with them. However, Perley's brother, Guy, decided he wanted Emily for his wife, so they have just been married.

## LEXINGTON GAINS 6,435 POPULATION

(By Associated Press) Washington, March 5—The census bureau announced the population of Lexington, Kentucky as 41,534, an increase of 6,435, over the 1910 census.

## BUILD EIGHT TOBACCO BARNS

Messrs. Buckley and Slattery were over this week, to have the deeds made for the Gay farm which they recently bought on the Big Hill pike, about five miles from Richmond. They are arranging to put in about 200 acres in tobacco on this handsome place and have let contracts to W. E. Blanton for the erection of eight large tobacco barns on the place to take care of the crops which they will raise. Mr. Slattery, one of the partners in the big deal, will have personal charge of the operations, it is understood, and will have a number of the most expert tobacco men as tenants on the place to put in and care for the big acreage of weed that will be planted.

## Another Victim of Lexington Mch In Serious Condition

(By Associated Press) Lexington, Ky., March 5—Wm. J. Reesem, who was shot in the riot here February 9th, is in a serious condition at a hospital here today. He is one of the wealthiest men in Central Kentucky. He was a block away from the scene of the disorder attendant upon the trial of Wm. Lockett, and was struck in the hip by a stray bullet. Six other persons shot at the same time died.

## Miners Amend Constitution

(By Associated Press) Columbus, O., March 5—Ohio miners in convention here today amended their constitution, making American citizenship obligatory for membership. Declaration of citizenship is insufficient.

## Senate Votes For Bond Issue For University of Louisville

(By Associated Press) Frankfort, Ky., March 5—The Senate today unanimously passed the Perry bill to authorize a million dollar bond issue for the University of Louisville. It also passed the House bill abolishing the commissioner of Confederate pensions.

## Colby's Nomination Held Up

(By Associated Press) Washington, March 5—Action on the nomination of Bainbridge Colby to be Secretary of State, was again deferred by the Senate Foreign Relations Committee today, after members objected to taking any vote until they had had more information.

**RADIATORS**—Any make or style auto, truck, or tractor, twisted, smashed, sprung or frozen, repaired; estimates furnished; work first class; auto radiator specialists. B. Green proprietor; phone 1230 Y, 223 E. Main street, Lexington, Kentucky.

## THE MARKETS

Cincinnati—Cattle steady; hogs 25c higher; Chicago 25c higher. Louisville, March 5—Cattle 100, active and unchanged; hogs 1,500 25c higher; tops \$15.25; sheep 50; steady and unchaned. g

## HIGHWAY MEN TO MEET MARCH 11

### Madison Must Do Her Part Quickly As Boyle And Garrard Are Working Hard

Plans are being made for a meeting of those interested in the proposed Federal Highway joining the eastern and western branches of the Dixie Highway, to be held here at 2 o'clock Thursday, March 11. The meeting will be held at the court house. Much interest is being manifested in this roadway, and all want to see a model highway built from Richmond on through Paint Lick, Lancaster, Danville and on to Hart county where the western branch of the Dixie Highway will be touched.

With aid from the county and state and federal aid, Madison will be \$27,000 short of the amount necessary to take care of her 12 miles between Richmond and Paint Lick, and it is up to public spirited citizens to raise this amount. The farmers along the highway who will be most benefited by such a road, are expected to respond liberally to a fund for this purpose, and others have already placed their names on subscription papers for liberal amounts. Boyle and Garrard counties are doing their part. Boyle voted her special tax the other day by an overwhelming majority and Garrard will without a doubt vote her special tax when the question is put before the people very soon.

State Road Commissioner Joe S. Boggs, who is very anxious to see Madison get this model highway, was over yesterday and is giving the project his fullest endorsement. It will be necessary that just what Madison has done in the matter be known by March 15th and the meeting here will have an important bearing on the question. All who favor good roads for Madison, are urged to be present.

## TURKEY MAY FIGHT OVER TREATY PLANS

Constantinople, March 5—The Turkish Nationalists are expected to be prominent in the new cabinet which will probably strongly oppose ratification of the peace treaty if the treaty does not recognize the claims of the Nationalists. It is also daily becoming clearer that Mustapha Kemal's forces, variously estimated at from 500,000 to 1,000,000, will not accept partitioning of Asiatic Turkey. His supporters predict war this spring if the Greeks are left in Smyrna and the French in Sicily.

## LOSE THEIR ONLY LITTLE DAUGHTER

Mr. and Mrs. Edgar Howard, of the Baldwin section, have the sympathy of relatives and friends in the death of their 11-month-old daughter, Texie Ray, their only child, who died Tuesday night of spinal meningitis. The remains were interred in the family burial ground at Baldwin Thursday afternoon. May he said, "Suffer little children to come unto me," comfort them in this dark hour.

## In Police Court

Judge Murray Smith administered fines of \$10 and costs each to W. J. Despain and Dave Daubert for breach of the peace. The men were alleged to have had some trouble at a house on East Main street where they have been rooming. Tom Robert was given \$10 and costs for being mixed up in the little "playing" in which Roll Roberts and Charley Gormley were fined also.

A POOR cup of coffee often upsets the happiness of a whole day. On the other hand, a steaming, fragrant, rich, aromatic cup of coffee starts things out just right. There's a lot of cheer in a cup of Rookwood coffee. D. B. KckKinney & Company. 51 6

## COUNTY TO BUILD IRVINE PIKE ITSELF

### All Bids Rejected For Contract Work As \$88,000 Was Far Beyond Available Fund

The lowest bid for reconstruction of the Irvine pike out of Richmond to the Estill county line was so out of proportion to the amount that the Fiscal Court has to spend for this road, that at its meeting this week, the court rejected all bids. It was then decided to have the county do the reconstruction work itself, by which is known as "force account," just as the Red House pike was built. County Engineer J. G. Baxter will employ a force of men and build the pike under the direction of the court.

The bids for building the Irvine pike by contract were offered in two sections. There were three bids for the concrete work. The lowest was that of G. M. Covington, of Russellville, and was for \$29,382.81. There was but one bid for road work. It was submitted by the Alex Stabler Company, of St. Mathews. The figures on it were for \$58,925.35, making a total for the work on the road of \$88,248.16.

The county has about \$25,000 to spend on this road, which matched by the \$25,000 which comes from the state aid fund, makes about \$50,000 available and the court didn't see for the life of it how it could let an \$88,000 contract with only \$50,000 to spend on it. It believes that good results can be obtained by building the road itself, for the Red House pike is almost a model for that sort of construction, so as soon as the weather opens up, work will start upon the Irvine pike by this method.

## "JEFF" MORGAN TALKS TO BOURBON FARMERS

Geoffery Morgan, formerly of Richmond who is assistant director of the College of Agriculture, University of Kentucky, spoke on the aims and policy of the American Farm Bureau Federation to a gathering of Bourbon county farmers the other day. He said in part:

"Every business in every line of trade all over the country has an organization but school teachers and farmers. Some sort of a farm organization is a pending necessity. It must come in some form or else agriculture will be the first to go down. Some features of farming have at times had organizations out of which has come good results, namely, tobacco, but the Farm Bureau now in operation in 22 states and in 41 counties in Kentucky, takes in all branches of farm industry. It invites every one of the 8,000,000 farmers to join in for self-protection.

"Only one teacher out of every hundred pays an income tax, and only one farmer out of every four hundred. One out of every four persons linked into organized business pays an income tax. These business enterprise tell us materials are going up in an effort to explain why clothing, shoes and the like continue to go up the scale and at the same time are clamoring for foodstuffs and everything a farmer produces to come down in order to get relief from H. C. L.

"Farmers have an aggregate of \$40,000,000 working capital behind them, and are unable to fix the price on any commodity produced on the farm. When they buy a new wagon they pay tribute to 22 different organizations that get a dip into their pockets. When they mature a crop, produce a hog or beef, the other fellow tells them what he will pay and the farmer takes the price and seems satisfied because he can do no better. He can do better if he will and the remedy is to enforce his own prices."

## Mason & Hanger To Erect Apartment House

The Mason & Hanger Company, of this city, has just been awarded contract for the erection of a modern apartment building in Lexington. The cost will approximate \$10,000. The apartment will be built at the corner of Main street and Hanover avenue, and will be a decided addition to the blue grass capital, and something greatly needed.

## Jules Falk and assisting artists will be heard in Richmond.
