

## M'ADOO WILL NOT BECOME CANDIDATE

Decision, He Says, Is Irrevocable—Wants To Rehabilitate His Private Affairs

New York, June 19.—Wm. G. McAdoo, who has been considered by party leaders as one of the presidential candidates for the democratic nomination, announced today he could not permit his name to go before the San Francisco Convention.

"The decision," he said, "is irrevocable, as the path of duty seems to me clear and unmistakable."

His decision was made known in a telegram to Jovett Shouse, democratic delegate at large from Kansas, who had telegraphed Mr. McAdoo that sentiment throughout the country rapidly was crystallizing in his favor, that his friends would like to have him permit his name to be presented to the convention and that they were certain he could be nominated and elected.

Mr. McAdoo's telegram follows:

"Your telegram of June 17 requires an explicit and immediate answer. I am profoundly grateful to you and my other generous friends, who with such spontaneity and unselfishness have, without my solicitation, advocated my nomination.

"To cause them disappointment distresses me deeply, but I am unable to reconsider the position I consistently have maintained, namely, that I would not seek the nomination for the presidency. I cannot, therefore, permit my name to go before the convention. This decision is irrevocable, as the path of duty seems to me clear and unmistakable.

"The consideration which compelled me to resign as Secretary of the Treasury and Director General of Railroads, after the armistice in 1918, in large measure still prevails. I must have a reasonable opportunity to rehabilitate my private affairs and to make that provision for my family, which in time of peace, is at once the sacred duty and cherished desire of every right-thinking man. Having been out of office less than eighteen months, I have not yet been able to accomplish these objects.

"Moreover, a presidential campaign imposes upon the candidate unavoidable expenses which I am unable to assume, and which I do not want my friends to assume.

"The record of the recent republican campaign and the platform and candidates of the republican convention make democratic victory in the next election almost certain. Victory would be certain if the democrats adopt a straightforward, unequivocal, unevasive, honest and liberal platform and put forward candidates who will command public confidence.

"We must stand squarely for ratification of the League of Nations without debating reservations, and we must be direct and explicit on the important domestic issues. The time is not propitious for equivocation or for appeals to blind passion or to doctrines of hate, or for reactionaries and those who would shut their ears to the great and swelling voice of humanity which cries aloud for the restoration of peace and good will at home and in the world and for the opportunity to live in an atmosphere of justice, progress and prosperity.

"I feel sure that my friends will appreciate the sincerity and propriety of my position and that they will do everything in their power at San Francisco to assure the continuation of the enlightened principles and liberal policies of democracy. These are more than ever essential to the security and well-being of the American people."

The plaintiff then filed another suit in the quarterly court, this time alleging that the ring was the property of her deceased husband, she bringing the suit in her name as his administratrix, but the jury thought otherwise, and gave a judgment for the defendant. Richmond physicians who have been attending the annual convention of the Kentucky Valley Medical Association at Winchester, are returning home today. They report the meeting as being one of the best ever held, the attendance being out of the ordinary, as well as the program, which was replete with new and interesting features.

Dr. R. C. Coomer, of Speedwell furnished one of the numbers on the program which proved to be a very important one well handled. It treated on subjects developed during the war and there were many important details and phases of surgical and medical work never before brought before the Association. The title of the address was "Some Medical Lessons from the War," and brought to the minds of those present, a vivid picture of the battlefields.

"Treatment of Pneumonia," by Dr. J. G. Bosley, of Richmond proved another feature of the meeting. This important matter, which is attracting the attention of members of the State Board of Health, was greatly appreciated.

Dr. M. Dunn, also of Richmond, was in attendance during the meeting.

## ANOTHER RAISED \$1 BILL SHOWS UP

Federal Officers Believe Gang Is At Work In This Section At The Game

The band of money "raisers" is believed to be operating in Madison county, according to Deputy U. S. Marshal Hugh Samuels, who was in Berea Friday, where S. Q. Laihart gave him a "greenback" which had been raised from \$1 to \$10 valuation. The substitution of the \$10 in the corner tag was very crudely done, and how it "got by" is almost past understanding. The letters were drawn with pen and ink and then cut out and pasted on the bill. The same was done with the word "Ten" which was pasted over the lettering "One" on the bill.

This is the second raised bill of the kind which has been intercepted within the past week, the other having been passed on a Richmond business man. Mr. Laihart told Mr. Samuels that he knows who gave him the bill, and steps are to be taken at once to apprehend the guilty party as it is a serious offense against Uncle Sam's laws to try a trick of this kind. Mr. Samuels says that he has information which indicates that one man is doing the work of raising the bills and a couple of others are passing them wherever possible. A description of the man who passed the spurious note on Mr. Pickels here is said to agree with that of the man who worked Mr. Laihart at Berea.
