**Moore's  
PIPELESS**

*The Furnace  
for Every Home*

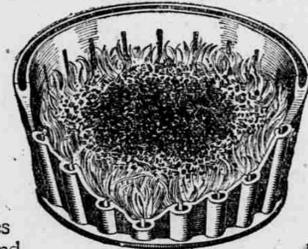

MOORE'S PIPELESS FURNACE will solve your heating problem. Not only will it heat every room in your house—and heat it comfortably—but it will SAVE you at the same time OVER 1/3 of your heating bill. It will give you the simplest and most satisfactory system of heating you could ask for and the most economical as well.

MOORE'S PIPELESS FURNACE is so simple that the whole job of placing one in your home can be done in a day's time. Furthermore, there is no muzzing up of your living quarters. Just ONE opening is cut in the floor and this is at once covered by a fine oxidized copper register. After that just tend the fire TWICE A DAY and your home is heated—heated ALL OVER—in the coldest weather.

*Is the Furnace for Your Home*

MOORE'S Pipeless Furnace possesses every desirable feature—in fact it has many advantages that are EXCLUSIVE. For instance—MOORE'S ANTI-CARBON FIRE-POT (shown at the right) will actually SAVE YOU 38 CENTS ON EVERY DOLLAR'S WORTH OF FUEL YOU BURN. This is because it BURNS all the gas, smoke and soot which in other furnaces and stoves is passed up the chimney and WASTED. It turns waste fuel into heat units; into MONEY.

It will burn slack coal just as well as the best grades of lump.

The SELF-CLEANING RADIATOR is another important feature of Moore's Pipeless Furnace. It automatically drops the dust back into the fire-pot so that the heating surfaces are always clean and can therefore deliver all the heat in the fuel. The LARGE MOISTURE PAN, which is located in the most effective place, keeps the indoor atmosphere properly moistened for the requirements of health—a feature that is possible only where a warm air system is used.

There are many other advantages in MOORE'S Pipeless Furnace that we will be glad to explain to you.
