WHEAT PROSPECTS FALL OFF SOME

(By Associated Press)
Kentucky's wheat crop now promise 7,607,000 bushels compared to a prospect May 1, 1921, of 7,851,000 bushels, according to the June crop report issued today by the U. S. Bureau of Crop Estimates in co-operation with State Commissioner of Agriculture W. C. Hanna. The condition of the state's wheat crop dropped from 93 per cent May 1 to 87 on June 1. Last year the condition June 1 was 65 per cent and the final yield turned out 5,878,000 bushel which included the increased acreage.

Oats are doing fairly well in most counties, on a good acreage. The condition is 84 per cent normal and the acreage about 7,859,000 bushels compared to 3,225,000 bushels produced last year from 350,000 acres which showed a condition of 9 per cent June 1, 1920.

Rye condition is 91 per cent normal. With about 38,000 acres in the state to be harvested to grain this indicates a production of about 484,000 bushels, compared to 480,000 bushels produced last year.

Barley acreage in Kentucky this year is about 10 per cent more than in 1920, due chiefly to decreased barley tobacco acreage. Most of the barley in Kentucky is grown in the central blue grass counties. Condition of barley 94 per cent normal, indicating a production of about 127,000 bushels, compared to 112,000 bushels last year.

Farmers in many counties report their meadows are late and very weedy, and much of the young clover was damaged by the late freezes. Condition of clover is 81 per cent with the acreage about 3 per cent more than in 1920, due chiefly to decreased tobacco acreage. Alfalfa condition is 86 per cent. The acreage is about 4 per cent more than in 1920. Pasture in most sections averages fair. Plowing, corn planting and tobacco setting still being done.

45 HOME RUNS IN LEAGUES LAST WEEK

(By Associated Press)
Chicago, June 11—The "lively ball" was responsible for 45 home runs in the major leagues during the past week, according to figures released today and which include games of last Wednesday. The American league is credited with 32 of these, while National league batters barged thirteen.

Babe Ruth, of the Yankees, the home run king, made one four-bagger during the week and brought his total for the season to sixteen, 17 behind the total credited to his club, which is at the top of the list for home run honors in both circuits. The Yankees, near the top, have bagged 33 circuit drives. The Athletics, in last place, have 30 round trip blows to their credit.

The New York Giants top all the clubs in the National league and are tied with the Athletics at 30. Geo. Kelly, of the Giants, who for a time threatened to compete with the American league slugger for round trip tickets, fell by the wayside and has been passed by "Irish" Muesel, of the Phillies, who passed the slugging Giant by driving the ball into the bleachers in the first game of the Phillies and Cubs at Chicago. The blow gave him a total of ten home runs.

Leslie Mann, of the Cardinals, made the best showing of the week among the batters in the Heydler circuit. Mann boosted his mark from 320 to 362, a gain of 42 points, while Jacques Fournier, the Frenchman, on the same club, added 31 points to his average, bringing it up to 350. Rogers Hornsby, another St. Louis star, who has been holding down first place, took occasion to fatten up his average against the eastern clubs and brought his mark to 424. McHenry, another teammate, is the runnerup with 382, while Johnston, of Brooklyn, is third with 389.

Other leading batters who have participated in 25 or more games: Grimes, Chicago, 365; Mann, St. Louis, 362; Sullivan, Chicago, 354; Fournier, St. Louis, 350; Turney, Pittsburgh, 347; Maranville, Pittsburgh, 347; Meusel, Philadelphia, 345.

Tris Speaker, pilot of the world's champions, pulled away from Tyrus Cobb, the Detroit manager, for the runnerup honors among the batters of the American league. Spoke boosted his average from .405 at which he was tied with the Georgia peach a week ago, to .417, while the Detroit star, slumped seven points and dropped to third place with an average of .401. Harry Heilmann, the slugging outfielder of the Tigers, hammered on five more points to his batting average which has brought him up to .400. George Sisler, the St. Louis star, slumped slightly in his hitting, but retains fourth place with .398.

Other leading batters: Severid, St. Louis, .381; Williams, St.

REID RELEASED; GUARDED TO CLAY

Barbourville, Ky., June 11—Following his release on \$5,000 bond Friday, Barton S. Reid, alleged murder of Will Lee, left last night on a special Cumberland & Manchester train for his home in Clay county. A military escort of 24 soldiers accompanied him, to insure his safe arrival home.

The examining trial was held Friday and proceeded without incident. Reid was held to the grand jury which convenes August 15. Judge J. D. Tuggle, who conducted the examining trial, held it under military supervision. Squads of soldiers and deputy sheriffs were stationed around the building.

Reid was escorted from the jail to court by Major Dillon, who is in command of the militia, and a squad of soldiers. E. P. Walker, newly appointed sheriff of Knox county, had charge of the prisoner. John Lee, a brother of the dead man, was in court.

With Reid safely out of town and quiet prevailing, no further trouble is anticipated. It is reported the militiamen will be withdrawn probably tomorrow.

Walker was sworn in as sheriff today by Judge Tuggle and with his deputies augmented the force of militiamen and civilian guards on guard here.

APPELLATE COURT ACTS ON SHELBY SUIT

Frankfort, Ky., June 11—When General Isaac Shelby, hero of King's Mountain, and the first Governor of Kentucky, founded the estate of Arcadia, in Lincoln county, during the latter part of the seventeenth century, little did he know that this estate was to be the source of bitter litigation between two of his lineal descendants, Miss Mary P. Shelby and Miss Florence M. Shelby, sisters.

The feeling over the control of the estate, however, became so bitter the Appellate Court said Friday, reversing the Lincoln Circuit Court in the case of Shelby against Shelby, that it resulted in "unfortunate personal encounters."

Declaring that it was no longer safe to remain at "Arcadia" Miss Mary Shelby, 58 years old, left in January, 1918, but returned in July of that year, when she filed a suit for the partition of the estate, Miss Florence Shelby 43 years old then in possession of the estate, contended that her sister had forfeited her rights in the estate by abandoning it temporarily and that the estate could not be partitioned unless by consent of all of the heirs, 13 in number.

The Appellate Court brushed all of these contentions aside, however, and directed the lower court to appoint a commissioner to partition the estate, unless, in the meantime, the sisters can agree to a division. Under no circumstances however, the Court said, shall the portions of the estate allotted to the sisters be rented.

WHOLESALE TIRE ROBBERIES REPORTED

Tire thieves appear to have made a systematic raid in Richmond Friday night. Coleman Neff reports the loss of three tires and an extra wire wheel for his Ford sedan from his garage. A. B. Dodson on Walnut street reports the loss of a tire and its rim from his home. Mr. Neff says that he noticed parties driving off, one in a truck and the other driving a small runabout, and thinking to stop them he took a shot at them but without effect. The one driving the car looked like a colored man, he says. Others have reported similar losses, and Mr. Neff says that altogether about 16 tires seem to have been the loot secured by the marauders, who worked late at night, and seem to have covered up their tracks.

SWIFT PRODUCE REVIEW

Live hens are moving in normal quantities for this time of the year. The movement of springs is light, farmers evidently holding them until they become larger.

Eggs are moving in reduced quantities, and with a fair inquiry for export shipment there has been a further advance in the market. Few eggs are going to storage at present as the production is just about enough to take care of the consuming demand.

Butter values improved during the week, due to heavy consumption and the demand for June butter for storage. Indications are that the pastures will be good for some time, which should mean a good production of butterfat.
