TERMS: ONE YEAR IN ADVANCE \$1.00, SIX MONTHS .75, THREE MONTHS .50.

FOR CONGRESS.

McCreeary.—We are authorized to announce Hon. James P. McCreeary, of Madison county, a candidate for Congress in the 8th Congressional District, subject to the action of the Democratic party.

Thompson.—We announce J. B. Thompson a candidate for re-nomination by the Democratic party for Representative in Congress from this the 8th district.

Fitzhugh Lee is back home again, safe and sound, and the demonstrations of welcome which have already greeted him while on his way to Washington, and since his arrival at the capital are but illustrations of the general rejoicing over his return from Havana unscathed, and of the pride in him and his good work which is felt by each of his fellow citizens throughout the land.

The Cincinnati Commercial Tribune, says: "The position of Gen. Lee and of the other Consuls in Cuba as well as has been a particularly arduous and trying one during the past two years. Our Consul General in Havana, and his fellow servants of the Government in other parts of the island, have been constantly surrounded by conditions calling for the exercise of the utmost discretion and careful judgment, and to say that they have performed their duties ably and well under such circumstances is but to repeat a truth long known by every one who has followed, from week to week, the development of the Spanish-American crisis. Many of the Cuban Consuls—perhaps all of them—have, during the past year, given more than their salaries in aid of the hungry and suffering people about them, in addition to giving extraordinary devotion to their official duties in behalf of American citizens and property. It would have been considered a National calamity had any one of them suffered harm while at his post of duty, and their safe return, on the last vessel to leave Havana on Saturday, after the departure of all other Americans, is a cause for general congratulation. The country owes these hard-working, conscientious, brave, discreet men a debt of gratitude for all that they have done during a period of especial excitement and hardship."

BEFORE this edition of THE RECORD is printed and in the post office, war will have been declared against Spain. McKinley in his message turned the matter over to congress and the House passed the following resolution Wednesday: "It is the duty of the United States to demand and the Government of the United States does hereby demand that the Government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters. * * * That the President of the United States be and he hereby is directed and empowered to use the entire land and naval forces of the United States and call into the actual service of the United States the militia of the several States, to such extent as may be necessary to carry these resolutions into effect."

Today, Thursday, the Senate will pass the same resolution and then nothing is left to do but begin the shooting. In the House the wildest excitement prevailed and several fist fights were indulged in.

Well, everything possible was done to keep out of the fight, but nothing would do the Dons but a scrap, so, "Lay on MacDuff and damned be he who first cries, 'Hold, Enough!'"

The manner in which the people are galled by some daily papers is enough to disgust any one. Flaring head lines tell daily of some great move made at Washington, when, in fact, nothing has been done but what was kept entirely secret by the officials. The average daily paper keeps its readers so confused that, as we have heard several say, they have about concluded to quit reading the war news altogether. The dispatches one day will give some so-called important news and next day column after column is used in denying it. The fact of the matter is, little or none of the inside facts of our controversy with Spain have ever been made public because it would be out of the question for Uncle Sam to show Spain his hand. We believe that at the proper time Uncle Sam will thrash Spain, but he evidently has good reasons for holding up the job.

ELSEWHERE in THE RECORD will be found the card of Hon. J. B. Thompson announcing his candidacy for the democratic nomination for congress. Mr. Thompson has been a hard worker for his party, is a popular gentleman and will make it interesting to the several other announced candidates. The race for this nomination promises to be the hottest ever known in the district.

GEN. LEE and a near relative of Gen. Grant side by side at the head of an American army would be the grandest thing that could occur for this country. The spirit with which the north and south have united in our present troubles shows conclusively that this is the greatest nation on earth.

GEN. FITZHUGH LEE is the greatest man on the American continent today.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years, has sold hundreds of this remedy and nearly all other cough medicines man's accused, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by R. E. McRoberts, Lancaster, Ky.

If those bad fellows that are in the habit of shooting around people's houses of nights would save their ammunition and go and fight the Spaniards, it would look a great deal more patriotic.

Louis Landram says it was our job putting a drove of cows in Alex Ely's shop one night. It is very often the case when a fellow is guilty of anything for him to try to saddle it on somebody else. However, I will not deny the charge. Mr. Ely is a man that always studies a case thoroughly before he makes a decision, and circumstantial evidence is very strong against Louis, and Ely will never believe anything else but what he is the very man.

KENTUCKY CROP REPORT.

Condition of Crops and Live Stock April 1, 1898. For the April Crop Report replies were received from 166 correspondents, representing 195 counties.

WHEAT.

The condition of wheat crop averages, for all sections of the State, 101, being an improvement of 10 points during the month of March. On April 1, 1897 the condition was 94. Considering the crop by the three subdivisions, western, central and south-eastern, we find the highest average condition in the central section, 103 in the western section the condition is 102, while the few counties reporting from the south-eastern section show an average of 91. On March 1 the condition by sections was: Western 93, central 90; no estimate being given for the south-eastern. Remarks of correspondents show practically universal satisfaction with the prospect, occasional complaint of too much rain being the only exception.

TOBACCO.

Every indication points to a large increase in acreage of tobacco both in burley and dark districts. Plant beds show an excellent condition, especially in the western section (dark tobacco); there the condition, as compared with normal, is 106. In the central section (burley) the condition is 103, and the south-eastern section (principally burley) the condition is 101.

SHEEP AND SPRING LAMBS.

The revival of the industry of sheep raising does not, so far, appear to be manifesting itself in an increased production of spring lambs; the number as compared with 1897 being but 92 per cent. of the production of that year. The central section leads with a production of 93 per cent., as compared with 1897. In the western section the number is 92 per cent.; while in the south-eastern section the number is 93 per cent.; while in the south-eastern section the number is but 88 per cent.

The percentage of loss by dogs during the past year is 6 per cent. for the State. The western section suffered the greatest loss, 7 per cent. The central section lost 5 per cent., and the south-eastern section 6 per cent.

FRUIT PROSPECTS.

April 1 finds the fruit prospects unusually bright. Apples, peaches, pears, cherries, grapes and strawberries all promise full crops at present, but danger lies thick in the path on account of the unusual advancement of the buds. In the western section the condition of the various fruits are: Apples, 93; peaches, 99; pears, 101, cherries, 99; grapes, 98, and strawberries, 93. In the central section the conditions are: Apples, 99, peaches, 101; pears, 100, cherries, 99; grapes, 96, and strawberries, 95. In the south-eastern section the conditions are: Apples, 103; peaches, 102; pears, 100; cherries, 95; grapes, 95, and strawberries, 99.

LUCAS MOORE, Commissioner of Agriculture.

Bladder Troubles.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

SAMPLE SENT FREE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. It is comforting to know that Dr. Kilmer's Swamp-Root fulfills every wish in quickly curing bladder and urinary troubles. It corrects inability to hold urine and scalding, stinging pain in passing it, or bad effects following use of liquor, wine, beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention THE CENTRAL RECORD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer. (3)
