For Sale.  
Several pieces of valuable town property. If you want a home, come and see me. J. C. Hemphill, Real Estate Agent.  
The telephone exchange continues to grow. New instruments are put in nearly every week. There are now 140 wires running into the main office. And this is an enterprise the croakers said wouldn't pay.  
A representative of the largest diamond importing house will be at my store Nov. 11th, with full line of diamond goods. Call on this day and make selections for Christmas presents. Thompson, the Jeweler.  
The Buck-board to be given away by J. B. Jennings is on exhibition at W. J. Romans' carriage shop. Examine it and then come in and take a chance on it. nov-4  
Still in.  
Capt. Duncan and Lieut. Farra have returned from Lexington but have not been mustered out. The delay is caused by the usual red tape required by Uncle Sam.  
THE RECORD's friend, Johnnie Williams, left at this office a monster kershaw, for which he has many thanks. We will live like a lord on that this winter.  
The City Council met Monday night, but did nothing but fake up and burn a \$1,500 bond which was issued to raise money to refund the bank taxes some time ago.  
The work of improving the sidewalk goes on steadily. Many new ones will be put down when the kiln of brick, now burning, is completed. Keep the good work going. We will have an up-to-date town yet.  
There has been much typhoid fever in the county during the past month, but it is fast disappearing. Some think the soldiers spread the disease, but not much stock is taken in this theory.  
The boys at the telephone exchange, Herbert Kinnaird and Jessie Walden, were exceedingly polite and obliging Tuesday night, and helped get the returns from all over the county. They are two clever fellows.  
Spirit of Progress.  
There are seven handsome dwellings in course of construction in Lancaster at present. Every mechanic is busy, and more work awaits them. The old town is getting on a hustle that is glorious to behold. Keep it going.  
The merchants are cleaning up their stores getting ready to bring on holiday goods. An unusually large stock will be handled this year. Watch the columns of THE RECORD for announcements from the merchants having the best lines.  
A railroad coach, made an fitted up especially for a picture gallery, is stationed at the depot. It has all the appointments needed for such business and is a model of convenience. The owner remains as long in any one town as business will justify.  
Many Trees.  
Nearly three car loads of fruit trees, sold last spring by Pence & Hines, arrived this week and are being delivered on the Scott lot, near the Square. Many people have been in town this week receiving their trees.  
The concrete crossings are giving great satisfaction at Danville. The Advocate says they do not cost as much as stone to put down, last longer and give greater satisfaction. Some of the Lancaster crossings are w.r.s. than the rocky road to Dublin.

**LOGAN & ROBINSON.**

The quiet, indifferent manner in which the election passed off Tuesday, was the cause of much comment, as those of former days have most always been characterized by several fights, knock-downs and such like. The day was very much on the order of a school trustee election. At no time during the entire day were more than a hundred people on the Public Square. Those who voted came to the polls, deposited their ballots and either went home or to their business. We have it from leaders of both parties that no money or whisky was at hand, and the woe-begone look on the old "floats" strongly bore out the statement. As both parties had up good men, it is hard to understand why the vote should fall off so materially unless it is from the fact that many men have determined to quit "messing" in politics and attend strictly to their work at home. The table below was made from figures cried at the polls, and may differ slightly on the official and final count, but no material change will be made. The bonds carried by an overwhelming majority. At most polls, parties were stationed to call the voters' attention to the bonds, but even with this many went in the booth, stamped under the rooster or cabin, and forgot the pikes. The majority is safe and the court can now issue the bonds. This will dispose of the hardest and most important part of the turnpike question, and we move to hang the next man who brings up the subject. Here's the vote by precincts. Zeigler gets 49 votes in county.

Edmison now has his "Kandy Kitchen" at the Marrs corner fitted up in the best of style and has on hand a fine line of the purest candies. He also has a lunch counter in connection and can feed the hungry at all hours.  
No More Shows.  
When the Opera House is built the Magistrates will refuse to let the Court House for shows of any kind. This is a good idea, as the room is more or less injured every time a great crowd gathers there.

This bird is not splitting his throat over the victory of any political party, but is crowing over the great success those working up the hotel and opera house are meeting with. That's what we are interested in. Right here in Lancaster is where Lancaster people make their meat and bread and what we want to see is the good old town built up. The parties getting the stock have secured in black and white an even eight thousand dollars. Several other parties who want stock have not yet been seen, and all necessary is for them to sign the paper and new building is assured. Each stockholder will pay two hundred dollars down and the balance in monthly installments of about sixteen dollars. Several parties not able to take a whole share have purchased jointly with others. Two men can carry a share and never miss the money, that is if they are any kind of hustlers. In the proposed building will be two store rooms and there have already been four or five applicants for them. Four men want the hotel and there's the opera house. We haven't the space to go into details, but it can be readily seen by investigation that the investment will easily pay seven per cent on the money put in. If any one doubts this statement and is interested, he can be quickly convinced by asking Dr. Kinnaird, John E. Stormes, J. C. Thompson, or any of the promoters of the enterprise. It is the intention to collect the two hundred dollars, first payment, as soon as the stock is made up and purchase the lot immediately, but, of course, work on the building cannot begin until spring.

**Lancaster Boy Married.**  
The Louisville Dispatch prints the following: "Miss Annie Cornell and Mr. J. Y. Carrey, popular young people of this city, were married at noon yesterday at the St. Nicholas Hotel, in Cincinnati. In order to have a quiet wedding the young people left this city early yesterday morning and went to the Ohio metropolis. They were accompanied by Mrs. Charles E. Fleming, sister of the bride. The bride is a beautiful young woman, and has always had many admirers. Mr. Carrey is the manager of the shoe department of the Mammoth."

The groom is a son of Mr. and Mrs. Theodore Carrey, of this city, and resided here until a few years ago when he secured a situation in the Falls City. He is an industrious, capable and popular young fellow, who has the respect of all who know him. We extend hearty congratulations to the young people.
