Curry & Davidson are among the new advertisers in The Record. The merchants are catching on to the fact that if they sell goods, they must let the people know it through the columns of their local paper.

Those merchants who spent a lot of money on calendars would love to change the ads thereon, as they have become somewhat stale, but you "cawn't" do it, you know. If you had spent that money for space in The Record you could have changed the wording of your ad fifty-two times during the year. Success will bite.

Surprised His Friends. Mr. Ben Eason, of this city, and Miss Corniney, of Rowland, were married at the residence of the bride's parents, last week. Mr. Eason is an energetic, honorable young man, and has many friends who wish him much happiness. They came to Lancaster immediately after the ceremony and have rooms at the groom's father's, on Richmond street.

Fine Lemon. Mrs. E. Dunn sent us a lemon weighing two pounds, which was grown on a tree she raised from a seed. The tree had eight lemons on it, all as large as this. It is perfect in shape and has a delicious odor.

Monday was court day, but not much business was transacted. The merchants had a rather dull day. A few of the regular drunks were on hand, but created no disturbance.

wreck. Monday morning, as Capt Price's cold-molasses-special was playing around between here and Hiattsville, a large furniture car turned over, and the track was demolished for about 150 yards and several cars smashed. No one was hurt, but the track was blocked for some time. Passengers on night train, No. 11, were transferred to a box car and taken to Stanford by Engineer Henry Lammers. Foreign cars will not run over this branch of the K. C., and they have been the cause of nearly every wreck in recent years.

Why Will Ye Bite? A patent medicine fakir raked in many dollars on the streets Monday. Why people will bite at such things is incomprehensible. Let a stranger come along, and suckers bite right along. If you want medicine, why don't you go to a reputable druggist, where you know you will not be humbugged?

Lots of Logs. A press dispatch from Leslie county says: "There was a general tide in the Middle Fork of the Kentucky river Monday. Something like 40,000 loose logs, most of them belonging to the Burt & Brabb Lumber Company of Ford, Ky., passed here. This was the highest water we have had here for over a year."

Business Change. Mr. R. G. Ward, the lumber man, purchased the stock of groceries of Jno. Barton & Co. which he immediately disposed of, and will have his office in the room occupied by Mr. Barton. Mr. Ward will handle lumber of all kinds, dressed and rough, and will also keep constantly on hand a supply of the best coal. Mr. Ward is one of Lancaster's most valuable citizens, and best business men, in addition to being a mighty clever fellow.

1,058 Bushels Hemp Seed. Saturday John Williams had hauled to Nicholasville twelve wagon loads of hemp seed and which he had sold to W. L. Steele & Co. some months ago for \$3.25 per bushel. They weighed up 1,058 bushels according to "Buck" Knight and he received a check for \$3,400.50. Previously Mr. Williams had delivered 400 bushels. John didn't raise all these seeds by his lonely, but bought them up. John says every bushel of them is worth \$4 per bushel now. He says "Buck" Knight weighed the lot 10 sacks at a time and that Buck's scales footed up about 30 dollars more than his own weighing, which wasn't bad.—Wilmore Times

Let the Good Work Proceed. The City Council and Ministers, together with other citizens who are determined to show the hoodlum element that the laws must be obeyed, have made several more visits to the notorious Chute, each time locating whisky and finding a number of white men and boys lounging about the numerous dives. The several white women, who had been "boarding" with negroes, were given a few hours to get out of town, and they have shaken the dust from off their feet and departed for greener fields. The young men found there were allowed to go on their way rejoicing, but as some of them have been inclined to get "huffy," it might be well to get out a warrant charging them with loitering, and this will probably set them to thinking that the taxpayers and law-abiding citizens have a little to say as to what shall and what shall not be done in town. Several other wiseacres have posed as lawyers and say the gentlemen are over stepping their authority in entering the dives without warrants, and other such fool talk. But the people have determined to weed out the Chute, and it would be a mighty good idea to also root out those white people who sympathize with the whisky sellers and other notorious characters down there, for "birds of a feather will flock together" and one is not much better than the other.

E. Scott.

Our goods are put up in 12 lb., 24 lb., 48 lb., or 96 lb. sacks. The 48 and 96 lb. packages are put up in plain or twill goods as you prefer.—the twill sacks make splendid towels. You should try some flour put up in this way.—Resp'y, Potts Bros. Phone 100. 2-27-4t

A Little "Horse Sense." Why does the average man not exercise the same judgment and patience with his telephone that he does with the thousand and one other conveniences and necessities of life? If his watch gets out of order, he takes it to a jeweler and pays \$1.50 for a new main spring; if his typewriter needs overhauling he pays an expert \$2 for the work.

But a telephone that doesn't talk like a silver tongued orator less than forty feet away, is at once a thing of horror, upon which to heap all the epithets, execrations and anathemas known to every language, ancient, modern or profane. Why not show telephones, the same tolerance and good horse sense that you must manifest toward other articles made by human hands?

Try some of our "fresh ground" Graham flour, put up in 12 and 24 pound sacks, 25 and 50c per sack,—none better made. Potts Bros. Phone 100. 2-27-4t
